to be ancient from copies replicas and imitations to fakes and forgeries Fakes are often a response to a demand from the public or scholarly milieu or even both The motives behind their production may be economic political religious or personal aspiring to fame or simply playing a joke Fakes may be revealed by combining the study of their contents codicological epigraphic and palaeographic analyses and scientific investigations However certain famous unsolved cases still continue to defy technology today no matter how advanced it is Nowadays one can find fakes in museums and private collections alike they abound on the antique market mixed with real artefacts that have often been looted The scientific community's attitude to such objects calls for ethical reflection
