Falcon The Autobiography Of His Grace:

Falcon A. J. Stewart,1982 **The Afterlife of King James IV** Keith John Coleman,2019-04-26 The Afterlife of King James IV explores the survival stories following the Scottish king's defeat at the battle of Flodden in 1513 and how his image and legacy were used in the years that followed when he remained a shadow player in the politics of a shattered kingdom Keith John Coleman has written a legend based biography of James IV that straddles the gap between history and folklore that looks at the undying king motif and otherworld myths of James IV one of Scotland's most successful rulers **The**

Secrets of Rosslyn Roddy Martine,2012-08-10 Nestling in an exquisite glen just seven miles from the centre of Edinburgh Rosslyn Chapel is one of the world's most extraordinary places Ever since it was built in the mid fifteenth century it has cast a mesmerising spell over all who have visited it exuding an aura of profound mystery as if it holds the key to some vast unearthly secret Six hundred years later it continues to confound and intrigue inspiring stories of The Knights Templar the Holy Grail and a myriad of esoteric beliefs most notably in the 1980s bestseller The Holy Blood and the Holy Grail and Dan Brown's The Da Vinci Code which made the chapel known to millions throughout the world In this book Roddy Martine sifts through mounds of unfounded conjecture and fantasy to make sense of it all The Secrets of Rosslyn is the only book that lets the facts speak for themselves showing ultimately that the truth is no less amazing than fiction **Lives to Remember**

Peter Underwood,Leonard Wilder,1975-01-01 It is claimed that the trauma of birth leaves an unconscious memory and it is likely that any previous lives would leave similar memories which too can be recalled under hypnosis This book is a fascinating and true story of apparent regression a return to the reactions that belong to an earlier state of development Under hypnosis Peggy Bailey an ordinary housewife relives three completely different lives From the very human story that led to the first regression experiment fortuitously recorded on tape and the first meeting with eighteenth century Sally Fraser in Devon through Liza Bloggs in the nineteenth century and Lady Alice Browning in the early part of the present century the account leaps forward sixteen years when further regressions to these former lives are attempted with exciting results The dual authorship of the book has resulted in an original and unique case book the trained hypnotist describing verbatim each hypnotic session followed by separate assessment and discussion by the established psychical researcher Investigation is undertaken on the basis of material obtained and such problems as self delusion hypnotic influence psychic memories and multiple role taking are carefully considered The book is a valuable contribution to the growing literature on the subject of reincarnation and is likely to become a classic of its kind Psychical researchers reincarnationists hypnotists psychologists and the general reader will find Lives to Remember a book to read and read again a book that is different a book that is true and a book that breaks new ground and opens new doors For the first time one book we are presented with a full and factual story of a person regressed by a competent hypnotist and the results assessed by an acknowledged psychical researcher It is the first example of regression to previous lives with an interval of sixteen years between each

repeated experiment *The Kundalini Concept* Mary Scott,2007-08 It is very important that we come to a clear understanding of what kundalini is and what it is not This becomes especially important in the light of the greatly increased interest in the West in the practice of various kinds of yogas Much harm can come in the attempts to arouse kundalini if there is not the corresponding practice of progressive freedom from egocentrism Mary Scott has done an admirable job in clarifying the subject by delving into the context in which the notions of kundalini and chakras were developed In addition to the sympathetic reading of Aurobindo and Woodroffe who seems to have been one of the few Westerners who tried to understand the Tantras in their Indian expositions as expounded by the Tantrik masters themselves rather than impose extraneous theories of one's own the author brings a great deal of common sense and her own personal experience of being a searcher as well as a psychotherapist If taken seriously this book should provide a great challenge to the general methodology of contemporary sciences Highly recommended for scholars and lay persons alike Prof Ravi Ravindra **James IV** Norman Macdougall,2015-06-10 James IV is the best known of all the late medieval Scottish rulers Widely praised by his contemporaries he combined the qualities of successful medieval monarch with a wide interest in the arts and sciences while remaining acutely conscious of the need to enhance the prestige of his dynasty throughout Europe This excellent study examines all aspects of James IV's sovereignty explains his popularity and his highly successful kingship and assesses reasons for the disastrous end to the reign when the king and a large population of the Scottish nobility were eliminated in a single afternoon in 1513 at Flodden This book represents Scottish historical research at its very best It is meticulously researched and sensitively written *EXPLORING REINCARNATION* Hans TenDam,2012-12-31 Exploring Reincarnation examines the full range of explanations for past life recall This definitive study includes case histories from around the world as well as intriguing theories about the relationship between body and soul from general social beliefs about past lives to detailed questions about karma and past life regression therapy An outstanding introduction to reincarnation from a historical scientific and philosophical point of view Exploring Reincarnation is the now classic panorama on reincarnation ideas and experiences **Haunted Scotland** Roddy Martine,2012-08-10 In the global world of the Internet where anything is possible where scientists never cease to astonish yet seem to provide more questions than answers Roddy Martine looks beyond the everyday and the normal searching for answers in the mysteries of Haunted Scotland Collected over many years the author retells stories that have evolved through the mists of time while others he recounts are based on interviews with those who claim to have experienced real life paranormal encounters Divided into geographical chapters covering the Borders the South West Strathclyde the South East the Central Belt and Trossachs the Eastern Highlands the Kingdom of Fife the Western Highlands the North the Hebrides Orkney and Shetland Aberdeen Dundee Edinburgh Glasgow and Inverness Roddy Martine examines stories of paranormal activity and the legends and folklore of haunted Scotland An Unlikely Countess Louise Carpenter,2004 Louise Carpenter examines the life of Lily Budge Countess of Galloway Lily was
