**Special Place in Hell** Christopher Berry-Dee, 2021-03-04 Sunday Times bestselling author Christopher Berry Dee is the man who talks to serial killers. A world renowned investigative criminologist, he has gained the trust of murderers across the world, entered their high security prisons and discussed in detail their shocking crimes. The killers' pursuit of horror and violence is described through the unique audiotape and videotape interviews which Berry Dee conducted deep inside the bowels of some of the world's toughest prisons. Christopher Berry Dee has collated these interviews into this astounding, disturbing book. Not only does he describe his meetings with some of the world's most evil men and women, he also reproduces verbatim their very words as they describe their crimes, allowing the reader a glimpse into the inner workings of the people who have committed the worst crime possible: to mercilessly take the life of another human being. **The Voices of Serial Killers**

Christopher Berry-Dee, Victoria Redstall, 2011-09-06 A Simon Schuster eBook. Simon Schuster has a great book for every reader. **Ice Cold Killers - Addicted to Death** World History, 2021-09-30 What makes a serial killer? There is a huge difference between killers who kill once in the heat of the moment, mass murderers who slaughter many people at once, and serial killers who follow a specific pattern to kill carefully selected victims. A serial killer is an ice cold predator who enjoys the hunt, is driven by ritual or a particular impulse, and who becomes increasingly dependent on the release that the murder provides. A serial killer's brain demands multiple victims. German killer Volker Eckert was morbidly obsessed with women's long hair. Jeffrey Dahmer achieved sexual release by dismembering people and eating selected pieces. Alexander Pichushkin was preoccupied with chess and decided to murder 64 people, one per square on a chessboard. Finally, David Berkowitz believed that demons ordered him to kill. The stories told here reveal what drives serial killers and how they carry out their murders. The content is violent and gruesome and certainly not for children. *My Life Among the Serial Killers* Helen Morrison, Harold Goldberg, 2009-10-13 In this memoir, a forensic psychiatrist chronicles her work with more than 80 serial killers and her thoughts on what compels them. Judging by appearances, Dr. Helen Morrison has an ordinary life in the suburbs of a major city. She has a physician husband, two children, and a thriving psychiatric clinic. But her life is more than that. She is one of the world's leading experts on serial killers and has spent as many as four hundred hours alone in rooms with depraved murderers, digging deep into killers' psyches in ways no profiler ever has before. In *My Life among the Serial Killers*, Dr. Morrison relates how she profiled the Mad Biter, Richard Otto Macek, who chewed on his victims' body parts, stalked Dr. Morrison, then believed she was his wife. She did the last interview with Ed Gein, who was the inspiration for Alfred Hitchcock's *Psycho*. John Wayne Gacy, the clown-obsessed killer of young men, sent her crazed Christmas cards and gave her

his paintings as presents Then there was Atlanta child killer Wayne Williams rapist turned murderer Bobby Joe Long Fred and Rosemary West who killed girls and women in their Gloucester House of Horrors and Brazil s deadliest killer of children Marcelo Costa de Andrade Dr Morrison has received hundreds of letters from killers read their diaries and journals evaluated crime scenes testified at their trials and studied photos of the gruesome carnage She has interviewed the families of the victims and the spouses and parents of the killers to gain a deeper understanding of the killer s environment and the public persona they adopt She has also studied serial killers throughout history and shows how this is not a recent phenomenon with psychological autopsies of the fifteenth century French war hero Gilles de Rais the sixteenth century Hungarian Countess Bathory H H Holmes of the late nineteenth century and Albert Fish of the Roaring Twenties Through it all Dr Morrison s goal has been to discover the reasons serial killers are compelled to murder how they choose their victims and what we can do to prevent their crimes in the future Her provocative conclusions will stun you Praise for My Life Among the Serial Killers A scary piece of work with even scarier implications Kirkus Reviews A profoundly enlightening book Morrison provides startling insights into what factors breed serial killers and she avoids the broad generalizations that make other books of the topic seem slick and superficial This is an absorbing disturbing book that makes it clear just how much we have yet to learn Booklist
