Class, Race and Sport in South Africa's Political Economy (RLE Sports Studies) Grant Jarvie, 2014-04-24 In recent years the interest in the patterns and policies of South African sport has grown This book examines the increasingly complex issue of race class and sport in the context of South African social relations The author disputes evaluations made purely on the question of race maintaining that it is important to examine the complex interaction between racial and class dynamics as a background for understanding the South African way of life The book demonstrates that sport must be understood in the context of the ensemble of social relations characterizing the South African social formation **Women of Africa** Kshama

Sharma, 1989 *The Political Economy Of U.S. Policy Toward South Africa* Kevin Danaher, 2019-07-11 By tracing U S involvement in South African political and economic development since the late 1800s this book analyzes U S corporate and government motives for maintaining the political status quo in South Africa In recent decades according to the author U S policy toward South Africa has grown more contradictory Endeavoring to protect the United States s reputation on the question of race government officials denounce apartheid yet Washington remains the main force blocking an international response to South African policies As the situation in South Africa continues to polarize the U S is increasingly isolated in its position of verbally condemning yet materially supporting South Africa s white minority regime a regime confronting the distinct possibility of civil war *Political Identity and Social Change* Jamie Frueh, 2012-02-01 Political Identity and Social Change builds upon the constructivist theory of political identity to explore the social changes that accompanied the end of apartheid in South Africa To gain a better understanding of how structures of identity changed along with the rest of South Africa s institutions Frueh analyzes three social and political conflicts the Soweto uprisings of 1976 the reformist constitutional debates of 1983 1984 and post apartheid crime Analyzing these conflicts demonstrates how identity labels function as structures of social discourse how social activity is organized through these structures and how both the labels and their power have changed during the course of South Africa s transition In this way the book contributes not only to the study of South African society but also provides lessons about the relationship between identity and social change

social movements The book is indexed by author and subject *The Politics of South African Cricket* Jon Gemmell,2004-03-31 The Politics of South African Cricket analyses the relationship between politics and sport in particular cricket in South Africa South African Cricket embraces an ethos that is symbolic of a wider held belief system and as such has distinctive political connotations in the region Sport in South Africa is certainly influenced by forces beyond the playing field but politics too can be influenced by the social and economic force of sport Focusing on the sports boycott as a political strategy Jon Gemmell analyses the relationship between sport and politics through a historical analysis of South African cricket He employs case studies to explore the relationship between politics and South African cricket and argues convincingly that cricket assisted the reform process by undermining the legitimacy of the apartheid regime Routledge Library Editions: Sports Studies Various,2022-07-30 This set examines sport and leisure from a social science viewpoint The volumes included originally published between 1984 and 1991 take a cross disciplinary approach to explore the social political and cultural roles of sport in today s society They cover issues as diverse as inequality nationalism gender and commercialisation and engage with a range of academic disciplines including cultural studies history politics and sociology

Challenge To Imperialism Carol B. Thompson,2019-08-27 Challenge to Imperialism is the first comprehensive analysis of the Zimbabwean struggle for independence in its international context Based on extensive research in the southern African region and on interviews with the ZANU and ZAPU leaders in exile during the war this study is an analysis of the crucial support given to the Zimbabwean nationalists by the five Frontline States Angola Botswana Mozambique Tanzania and Zambia The book begins with a summary of the variable relations among the Frontline States and between those states and the Zimbabwean nationalists More than once Frontline governments put Zimbabwean nationalists in their own jails as tensions arose over leadership conduct of the war and terms for peace Yet the Frontline States maintained their support in spite of the extremely high cost to their own economic development How could these weak and economically dependent states confront the dominant interests in the region Was Lancaster House simply a capitulation to imperialist interests a constitution forced on the nationalists by the beleaguered Frontline States This theoretical analysis addresses the complexity of these questions and suggests lessons for the current struggles in Namibia and in South Africa Further Dr Thompson discusses the formation of the Southern African Development Coordination Conference SADCC as an attempt to transform the Zimbabwean political victory into regional economic cooperation This study of the political and economic background of Zimbabwean independence is important not only to those concerned about Zimbabwe and southern Africa but also to those interested in the nature of liberation struggles and in the role of the state in developing countries **African Women** M.
