Faces Forms Films The Artistry Of Lon Chaney:

Faces, Forms, Films Robert Gordon Anderson, 1971 This biography offers the vivid story of the artist and man Lon Chaney Sr From his beginnings on the stage to the roles that gave him a permanent place in the history of silent films The Hunchback of Notre Dame and The Phantom of the Opera to his entry into talkies Chaney used all of his experience on screen and off to bring as much humanity and realism as possible to his portrayals As his own make up artist he strove for a perfection that could pass the critical scrutiny of the camera eye This is the portrait of a creative actor who used all his skill and craftsmanship to bring memorable people to life on the silver screen

Transforming Faces for the Screen Karen Randell, Alexis Weedon, 2023-11-09 This book brings together research from medical and film archives to illustrate the cultural impact of film and literature in its relationship to the discourse of plastic surgery in the 1920s This different take on reading the body after the First World War enables students of multiple disciplines and readers interested in both Hollywood and post war culture to understand some of the complexities of medical interventions gained after the First World War and the way in which they filtered into the world of Hollywood film making It also allows readers who may not be familiar with these two 1920s stars to access the films of Lon Chaney and the books and films of Elinor Glyn and gain new insights into 1920s visual culture For ease of readership the book is organised so that each of the main chapters focuses on a particular film either Lon Chaney or Elinor Glyn This is particularly useful for use in the classroom or for online education Readers can refer to the film directly aided by illustrations of frames from the films This book tells the story of how two stars of Hollywood film transformed their character s faces on screen through a close reading of three films in the 1920s It reveals how they applied their embodied knowledge of surgery and surgical procedures to broaden their audience s emotional and intellectual understanding of the treatment of deformity and disability

Lon Chaney Speaks Pat Dorian, 2020-10-06 A stunning graphic debut the life of the legendary silent film actor Lon Chaney the original Phantom of the Opera and Hunchback of Notre Dame as imagined by an artist whose work recalls the style and skill of early era New Yorker cartoonists From the artist No one will ever love me I believe it was this near universal fear that makes Lon Chaney s characters continue to resonate with us today On their surface most of them are distinctly unlikeable they are monsters outcasts criminals But through his unique magic Chaney makes them empathetic He pioneered the craft of makeup artist long before that term ever existed and he used his expertise to hide himself from public view what if nobody loved him

aberrant behavior and abnormal desires characterized the hideous creatures of classic Hollywood horror which thrilled audiences with their sheer grotesqueness Most critics have interpreted these traits as symptoms of sexual repression or as metaphors for other kinds of marginalized identities yet Angela M Smith conducts a richer investigation into the period s social and cultural preoccupations She finds instead a fascination with eugenics and physical and cognitive debility in the narrative and spectacle of classic 1930s horror heightened by the viewer s desire for visions of vulnerability and transformation Reading such films as Dracula 1931 Frankenstein 1931 Dr Jekyll and Mr Hyde 1931 Freaks 1932 and Mad Love 1935 against early twentieth century disability discourse and propaganda on racial and biological purity Smith showcases classic horror s dependence on the narratives of eugenics and physiognomics She also notes the genre s conflicted and often contradictory visualizations Smith ultimately locates an indictment of biological determinism in filmmakers visceral treatments which take the impossibility of racial improvement and bodily perfection to sensationalistic heights Playing up the artifice and conventions of disabled monsters filmmakers exploited the fears and yearnings of their audience accentuating both the perversity of the medical and scientific gaze and the debilitating experience of watching horror Classic horror films therefore encourage empathy with the disabled monster offering captive viewers an unsettling

Lost in the Dark: A World History of Horror Film is a straightforward history written for the general reader and student that can serve as a comprehensive reference work. The volume provides a general introduction to the genre, serves as a guidebook to its film highlights, and celebrates its practitioners, trends, and stories. Starting with silent era horror films and ending with 2020's *The Invisible Man*, *Lost in the Dark* looks at decades of horror movies. Author Brad Weismann covers such topics as the roots of horror in literature and art, monster movies, B movies, the destruction of the American censorship system, international horror, torture, porn, zombies, horror comedies, horror in the new millennium, and critical reception of modern horror. A sweeping survey that doesn't scrimp on details, *Lost in the Dark* is sure to satisfy both the curious and the completist. *Film Study* Frank Manchel, 1990. The four volumes of *Film Study* include a fresh approach to each of the basic categories in the original edition. Volume one examines the film as film; volume two focuses on the thematic approach to film; volume three draws on the history of film; and volume four contains extensive appendices listing film distributors, sources, and historical information, as well as an index of authors, titles, and film personalities.

Horror Film Stars, 3d ed. Michael R. Pitts, 2024-10-09. John Carradine, Jamie Lee Curtis, Yvonne De Carlo, Faith Domergue, Boris Karloff, Otto Kruger, Bela Lugosi, Jack Palance, Vincent Price, Santo, and George Zucco are just a few of the 80 horror film stars that are covered in this major standard reference work, now in its third edition. The author has revised much of the information from the two previous editions and has added several more performers to the lineup of horror film stars. The performers are given well-rounded career bios and detailed horror film write-ups with complete filmographies provided for those most associated with horror, science fiction, and fantasy movies, and genre-oriented filmographies for the lesser stars.

Race in American Film Daniel Bernardi, Michael Green, 2017-07-07. This expansive three-volume set investigates racial representation in film, providing an authoritative cross-section of the most racially significant films, actors, directors, and movements in American cinematic history. Hollywood has always reflected current American cultural norms and ideas. As such, film provides a window into attitudes about race and ethnicity over the last century. This comprehensive set provides information on hundreds of films chosen based on scholarly consensus of their importance regarding the subject, examining aspects of race and ethnicity in American film through the historical context, themes, and people involved. This three-volume set highlights the most important films and artists of the era, identifying films, actors, or characterizations that were considered racist, were tremendously popular, or hugely influential, attempted to be progressive, or some combination thereof. Readers will not only learn basic information about each subject but also be able to contextualize it culturally, historically, and in terms of its reception to understand what average moviegoers thought about the subject at the time of its popularity and grasp how the subject is perceived now through the lens of history.

American Silent Horror, Science Fiction and Fantasy Feature Films, 1913-1929 John T. Soister, Henry Nicolella, Steve Joyce, 2014-01-10. During the Silent Era, when most films dealt with dramatic or comedic takes on the boy-meets-girl, boy-loses-girl theme, other motion pictures dared

to tackle such topics as rejuvenation revivication mesmerism the supernatural and the grotesque A Daughter of the Gods 1916 The Phantom of the Opera 1925 The Magician 1926 and Seven Footprints to Satan 1929 were among the unusual and startling films containing story elements that went far beyond the realm of highly unlikely Using surviving documentation and their combined expertise the authors catalog and discuss these departures from the norm in this encyclopedic guide to American horror science fiction and fantasy in the years from 1913 through 1929

The Cinema of Isolation Martin F. Norden, 1994 Filmmakers have often encouraged us to regard people with physical disabilities in terms of pity awe humor or fear as Others who somehow deserve to be isolated from the rest of society In this first history of the portrayal of physical disability in the movies Martin Norden examines hundreds of Hollywood movies and notable international ones finds their place within mainstream society and uncovers the movie industry's practices for maintaining the status quo keeping people with disabilities dependent and in their place Norden offers a dazzling array of physically disabled characters who embody or break out of the stereotypes that have both influenced and been symptomatic of society's fluctuating relationship with its physically disabled minority He shows us sweet innocents like Tiny Tim obsessive avengers like Quasimodo variations on the disabled veteran and many others He observes the arrival of a new set of stereotypes tied to the growth of science and technology in the 1970s and 1980s and underscores movies like My Left Foot and The Waterdance that display a newfound sensitivity Nordens in depth knowledge of disability history makes for a particularly intelligent and sensitive approach to this long overlooked issue in media studies

Hollywood Speaks John S. Schuchman, 1988 Once described as the invisible handicap deafness remains a mystery to most Americans From the silent film era to 1986 when deaf actress Marlee Matlin won an Oscar for her performance in Children of a Lesser God Hollywood has reinforced stereotypical views of deafness and deaf people in nearly two hundred movies and television episodes front flap

The Hydra's Tale R. Rawdon Wilson, 2002-05 Imagine a disgusting experience Now think about your response What was it about the moment that made you turn your head that led your lip to curl and nose to wrinkle Disgust has many triggers some obvious others less so What disgusts us is never irrevocably fixed and certain It changes from culture to culture and even at times within a culture This fluidity makes the term disgust at once deadly simple and extremely complex In The Hydra's Tale Robert Rawdon Wilson treats the experience of disgust not from the perspective of the disgusting object in the world but from its representation Disgust marks either a slip over the border of the socially sanctioned or a struggle to keep someone or something from crossing that border Working through the spectrum of human response culture and art Wilson teases out the assumptions that underpin the disgust response
