Bewilderments of Vision Oliver Tearle, 2014-06-01 According to Oscar Wilde the primary aim of the critic is to see the object as in itself it really is not Through a series of close and often unusual readings this book endeavours to develop Wilde's remark into a detailed and creative theory of reading It focuses on a series of neologisms from writing of the period

The One State Reality Michael Barnett, Nathan J. Brown, Marc Lynch, Shibley Telhami, 2023-03-15 The One State Reality argues that a one state reality already predominates in the territories controlled by the state of Israel The editors show that starting with the one state reality rather than hoping for a two state solution reshapes how we regard the conflict what we consider acceptable and unacceptable solutions and how we discuss difficult normative questions The One State Reality forces a reconsideration of foundational concepts such as state sovereignty and nation encourages different readings of history shifts conversation about solutions from two states to alternatives that borrow from other political contexts and provides context for confronting uncomfortable questions such as whether Israel Palestine is an apartheid state

Rubin's Israel Everest Media, 2022-05-21T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Modern Israel has built a fully realized political system economy society and culture It is a normal country though a unique one with many distinctive features It grew from one of the world's oldest societies and cultures but its ancient heritage did not make the process of nation building any easier 2 The idea that Jews are only a religious group is a concept that began with the French Revolution but did not become influential in Western Europe until the mid nineteenth century It never fully took hold in the Eastern European or Middle Eastern Jewish communities 3 The creation of Israel was not an accident but the continuation of a long historical process The majority of European Jews did not view their identity in only negative terms but saw themselves as being inside their own cohesive community 4 The Jewish state is primarily a declaration of a national identity but it is also a declaration of religious identity The majority of the Yishuv leaders and later leaders of Israel were secular and they simultaneously recognized the importance of religion in binding together Jews

Self Quest in W. B. Yeats's Poetry Özlem Saylan, 2019-01-17 Carrying a story to tell is the ancient burden of craftsmen and it is one of the characteristics of the quest to find oneself since a journey requires recognition of the aspects of self and anti self Like the speaker of his poems W B Yeats has something to tell His poetry draws nourishment from the battle between the dichotomies of self and anti self human and divine mind and intellect past and present and body and soul This book covers a selection of Yeats's poems from 1889 to 1939 discussing them within the frame of the quest to find oneself and its gyroscopic transformation The book illustrates that self is not a single entity but has multiple layers and it can be found within the quest in which it experiences a simultaneous transformation with every phase of the antithetical structure of gyroscopic movements In addition the way of the quest is cyclical however it is not a vicious cycle since in life every end is a phase of a beginning and every beginning is a phase of an end

Hamas Contained Tareq Baconi, 2023-05-25 Judicious and impartial this important work adds nuance to the portrait of one of the Middle East's most divisive players Publishers Weekly Hamas is a multifaceted liberation organization that rules Gaza and the lives of the two million Palestinians who live there Demonized as a terrorist group in media and policy debates it has been subjected to accusations and assumptions that have helped justify extreme military action in the region In *Hamas Contained* Tareq Baconi offers the first history of the group on its own terms Drawing on interviews with organization leaders as well as publications from the group Baconi maps Hamas's thirty year transition from fringe resistance to governance Questioning the conventional understanding of Hamas he shows how the movement's ideology ultimately threatens the Palestinian struggle and inadvertently its own legitimacy Baconi demonstrates how Hamas's armed struggle has failed in the face of a relentless occupation and he argues that Israel's approach of managing rather than resolving the conflict has neutralized Hamas's demand for Palestinian sovereignty This dynamic has perpetuated a deadlock characterized by its brutality and one that has led to the collective punishment of millions of Palestinian civilians

Euroscepticisms, 2020-02-03 Euroscepticism has become a political challenge of imposing size The belief that the EU would continue inexorably to increase its responsibilities its membership and its credibility with the electorates of Europe seems like a pipedream Almost every major European country now has a political party whether of the left or right that is openly opposed to the EU's institutions and core policies However a political phenomenon on this scale did not spring up mushroom like overnight Sentiments attitudes and political standpoints against the European Union have deep roots in the national histories of the various member states This book assembles a group of scholars from across Europe to investigate the long term origins and causes of Euroscepticism in an apposite range of EU countries Contributors are Gabriele D Ottavio Kira Gartzou Katsouyanni Mark Gilbert Ad la Gjuri ov Simona Guerra Thorsten Borring Olesen Daniele Pasquinucci Emmanuelle Reungoat Paul Taggart Antonio Varsori and Hans Vollaard

Building Bridges: Ignaz Goldziher and His Correspondents, 2024-03-25 The scholarship of Ignaz Goldziher 1850 1921 one of the founders

of Islamic studies in Europe has not ceased to be in the focus of interest since his death This volume addresses aspects of Goldziher's intellectual trajectory together with the history of Islamic and Jewish studies as reflected in the letters exchanged between Goldziher and his peers from various countries that are preserved in the Library of the Hungarian Academy of Sciences and elsewhere The thirteen contributions deal with hitherto unexplored aspects of the correspondence addressing issues that are crucial to our understanding of the formative period of these disciplines Contributors Camilla Adang Hans Jürgen Becker Kinga Dvny Sebastian Gntner M t Hidv gi Livnat Holtzman Amit Levy Miriam Ovadia D ra Pataricza Christoph Rauch Valentina Sagaria Rossi Sabine Schmidtke Jan Thiele Samuel Thrope Tam s Tur n Maxim Yosefi Dora Zsom From the River to the Sea Mandy Turner, 2019-04-05 From the River to the Sea Palestine and Israel in the Shadow of Peace provides original analyses of how different coping strategies were developed as well as new forms of political expression interaction and mobilization since the 1993 peace deal between the Palestine Liberation Organization and Israel Its premise is that an historical realism is essential in order to develop a route out of the post Oslo impasse that extended and solidified the power imbalance under the auspices of peace The book includes chapters from experts across the disciplines of anthropology economics law political science and sociology to map out and critically assess the impacts and responses to this peace in different geographical and political settings These innovative analyses also investigate processes that might enable a future to be built based on greater equality and an end to the oppression and violence that currently exists between the Jordan River and the Mediterranean Sea and beyond The Challenges of Resolving the Israeli-Palestinian Dispute Bren Carlill, 2021-01-02 This book explains why the Israeli Palestinian dispute is so difficult to resolve by showing that it consists of multiple distinct conflicts Because these tend to be conflated into a single conflict attempts at peace have not worked Underpinned by conflict theory observations of those involved and analyses of polling data the book argues that peace will not be possible until each of the dispute's distinct conflicts are managed Early chapters establish a theoretical framework to explain and define the different conflicts This framework is then applied to the history of the dispute The actions and perceptions of Israelis and Palestinians make sense when viewed through this framework The Oslo peace process is examined in detail to explain how and why each side's expectations were not met Ultimately lessons in ways to build a future viable peace are drawn from the failures of the past BESORAH Olufemi Oni, 2020-11-21 The message of the King was hijacked by His enemies and dressed in the garb of abominable religions much in the same way that a woman works yeast into a dough ball and makes them into three portions The three Abrahamic religions of Talmudic Judaism Christianity and Islam all claim to have the message of eternal hope for humanity but a closer examination reveals otherwise In five chapters of sizzling revelations the author takes the reader on a thought provoking journey to rediscover the lost message of the Kingdom unravelling mysteries previously unknown and new depths of insights into the most important event that is yet to come The Restoration of the Kingdom of Heaven There is truth to be told hope to be renewed and judgment to be declared

Tables will be shaken secrets will be exposed the hidden will be revealed and dry bones shall rise He who took captive shall be taken captive he who killed with the sword must be killed with the sword Saviors will arise from Mount Tsiyon to judge the mount of Edom Babylon will fall and the Kingdom will be Yahuah s forever **Ceramics and Change in the Early Bronze Age of the Southern Levant** Graham Philip,Douglas Baird,2000-12-01 This book sets out the primary issues and current debates in the use of ceramics to reconstruct and explain cultural economic and social processes in the Early Bronze age By bringing together research on pottery from various parts of the southern Levant it allows direct comparison of contemporary material from different regions Alongside these empirical studies are discussions of general ceramic issues so that the book highlights the potential of pottery as an investigative tool and indicates fruitful directions for future research within the traditionally conservative field of Levantine archaeology
