Faces From The Flood Hurricane Floyd Remembered:

Faces from the Flood Richard Moore, Jay Barnes, 2015-12-01 On September 16 1999 rainfall from Hurricane Floyd swelled North Carolina's rivers flooding tens of thousands of homes businesses and communities across the eastern third of the state taking 52 lives and causing an estimated 6 billion in damages *Faces from the Flood* is a compelling look back at the state's most destructive natural disaster conveyed through the words of those who endured it Thirty seven interviews with victims heroes volunteers scientists and government officials offer tales of dramatic rescues sorrowful losses and the quiet determination to survive and rebuild The story of Floyd is far from over and North Carolinians must be prepared to face similar storms in the future warn Richard Moore and Jay Barnes They conclude with an assessment of the state's response to Floyd and a discussion of what programs should be initiated maintained or strengthened to prepare for future storms

Through evocative personal stories maps tables and dozens of striking photographs *Faces from the Flood* highlights the dramatic impact of Hurricane Floyd It will serve as a valuable reference for future explorations of North Carolina's greatest disaster

Fifteen Hurricanes That Changed the Carolinas Jay Barnes, 2022-03-16 This informative and engaging book tells the true stories of the hurricanes that had the greatest impact on North Carolina and South Carolina from the eighteenth century to the present day Hurricane historian Jay Barnes offers an illuminating and compelling account of the Carolinas most recent storm disasters Matthew and Florence as well as thirteen other memorable hurricanes in the Tar Heel and Palmetto States including Hazel Hugo Fran and Floyd In Barnes's hands the examination of these powerful tropical cyclones leads to a broader view of the history of the Carolinas revealing not only their terrifying and deadly consequences but also the perseverance of the region's people in the face of such extraordinary disasters In recounting the rich hurricane history of the Carolinas from the mountains to the coast Barnes urges readers to consider the storms to come and profiles how a warming planet and rising seas will affect future Carolina hurricanes

Hurricanes Paul V. Kislow, 2008 A hurricane is a tropical storm with winds that have reached a constant speed of 74 miles per hour or more Hurricane winds blow in a large spiral around a relative calm centre known as the eye The eye is generally 20 to 30 miles wide and the storm may extend outward 400 miles As a hurricane approaches the skies will begin to darken and winds will grow in strength As a hurricane nears land it can bring torrential rains high winds and storm surges A single hurricane can last for more than 2 weeks over open waters and can run a path across the entire length of the eastern seaboard August and September are peak months during the hurricane season that lasts from 1 June to 30 November This book presents the facts and history of hurricanes

The Secrets for Motivating, Educating, and Lifting the Spirit of African American Males Ernest H. Johnson, 2011-11-21 Unlike the media would have you believe most black males find great value in education They want to believe that they have a special gift and that they can make a difference in the world The problem is that they have ill feelings about how society has deprived them of the most qualified teachers and the best ways to be engaged in their own

education As a consequence of repeatedly being marginalized criticized and put down by society and teachers they do not feel motivated to attend school or to produce outstanding academic work The Secrets for Motivating Educating and Lifting the Spirit of African American Males contains essays that center on how to help educators and parents to equip young black males with the drive necessary to craft fulfilling lives for themselves so they dont slip through the cracks in the educational system Historically we are still dealing with what happens to the image of Black people in the minds of white people A book like this helps to make certain that the information teachers provide to all students regardless of their race will help them understand that the history of this country has made generation after generation of black students see themselves as academically and socially inferior to white people Most importantly its the teachers not just black teachers but all teachers who have to understand the power they have to change the mindset of society Changing how society thinks about Black people particularly Black males is a task teachers can truly accomplish because they have the power to create lesson plans that challenge how students think about each other For such lessons are important for changing the attitudes and beliefs of the entire community in which we live REVEREND C T VIVIAN A Pioneer of the Civil Rights Movement Author Educator and a Close Friend of Reverend Dr Martin Luther King Jr This book provides a fresh perspective for understanding the problems associated with the education of Black males As a minister I have not encountered a project that gathers the collective wisdom of a group of over 20 Black male educators who are dedicated to helping the world save young Black males When all their ideas come together they are bound to create a storm of new thinking about how all of us can work together As a spiritual leader my role is to help young Black males understand that the same God that was in Dr King is the same God that is in them This is a difficult lesson for some Black males who have been brainwashed to see themselves as having no say about the outcome of their lives This book will help us including those in the ministry to reevaluate the thinking patterns of our boys so that we can better prepare them for the critical thinking that is required for life in the 21st century REVEREND ROBERT KILGORE Assistant Pastor at Hillside International Truth Center Atlanta GA Hog Wash John W.

Sutherland, 2023-12-15 Hog Wash chronicles the efforts of a group of international environmentalists investors and researchers as they attempt to find an ecologically friendly process to clean up the toxic waste pouring into lakes rivers and streams from confined animal feeding operations CAFOs This book begins in New Orleans but quickly transitions to Brussels London Berlin Amsterdam Paris and Rome Hog Wash is a first hand account of what can go terribly wrong when well intentioned but naive academics confront savvy experienced conmen There was too much at stake for this project to ever be successful Too many powerful wealthy people had too much to lose by protecting the environment Hog Wash is the third installment of John W Sutherland s environmental trilogy Like his previous books Hog Wash is methodically documented and written in an accessible style that is more like a novel than nonfiction *In Katrina's Wake* Donald L Canney, 2010-08-29 Of all the Homeland Security agencies operating in New Orleans before during and after Hurricane Katrina s landfall no agency performed its

duties with the same level of diligence and heroism as did the U S Coast Guard Tirelessly Coasties in helicopters and small boats pulled survivors from rooftops floating debris and high ground and ferried them to safety as the rest of us watched live on CNN Only a few days later disaster struck again in the form of Hurricane Rita which left even more people in desperate need of rescue and assistance In the aftermath of the storms some 5 000 Coast Guard personnel rescued 33 735 individuals six times more than the annual average number rescued by the service nationwide Then unobserved by the media the Coast Guard successfully restored the vital navigation aids in the region preventing further death and destruction In Katrina s Wake presents a riveting account of the astounding operations undertaken by the men and women of the U S Coast Guard in the aftermath of one of the worst natural disasters ever to strike America While other government agencies struggled to mobilize and failed to provide real solutions one small decentralized agency stepped forward and performed above and beyond the call of duty
