## **Faces Of Anthropology A Reader For The 21st Century:**

**Faces of Anthropology** Pearson Custom Publishing,2000-08-01      **Faces of Anthropology** Kevin A. Rafferty,Dorothy Chinwe Ukaegbu,2011 For undergraduate courses in introductory cultural anthropology This book is a collection of readings that illustrate key concepts in cultural anthropology Each section has an introduction written by the editors that provides an overview of the topic and provides a context for the readings Every reading concludes with a set of critical thinking questions for the student to consider      *Media and Religion* Daniel A. Stout,2013-06-17 This text examines the history theory cultural context and professional aspects of media and religion While religion has been explored more fully in psychology sociology anthropology and the humanities there is no clear bridge of understanding to the communication discipline Daniel A Stout tackles this issue by providing a roadmap for examining this understudied area so that discussions about media and religion can more easily proceed Offering great breadth this text covers key concepts and historical highlights world religions denominations and cultural religion and religion and specific media genres The text also includes key terms and questions to ponder for every chapter and concludes with an in class learning activity that can be used to encourage students to explore the media religion interface and review the essential ideas presented in the book *Media and Religion* is an ideal introduction for undergraduate students in need of a foundation for this emerging field      *The Changing Face of Form Criticism for the Twenty-first Century* Marvin Alan Sweeney,Ehud Ben Zvi,2003 The approach to biblical interpretation known as form criticism has changed markedly at the beginning of the twenty first century Front ranking experts here survey the contemporary landscape of form criticism and explore significant patterns and trends now emerging in the field Together these essays point to the continuing dynamism and vitality of form critical theory as a significant tool for reading the Bible Contributors Bob Becking Ehud Ben Zvi Erhard Blum Sue Boorer Martin J Buss Antony F Campbell Michael H Floyd Hyun Chul Paul Kim Won Lee Tremper Longman III Roy F Melugin Martti Nissinen David L Petersen Margaret S Odell Thomas Romer Martin Rosel Marvin A Sweeney Patricia K Tull Raymond C Van Leeuwen      *21st Century Anthropology: A Reference Handbook* H. James Birx,2010-06-10 Highlighting the most important topics issues questions and debates these two volumes offer full coverage of major subthemes and subfields within the discipline of anthropology      **Joyce in the Belly of the Big Truck; Workbook** Joyce A. Cascio,2005-05      *About Face* Christopher L. Flanders,2011-03-07 For Thais face is a fact writes Flanders However whether in theology evangelism or issues involving sin salvation or atonement Thai Christians and missionaries alike seem either uninterested in or possibly incapable of addressing issues related to face This glaring incongruity between the value of face for Thais and the lack of intentional engagement within the Thai Christian community is deeply troubling Surely such a lack of careful attention to face is a dangerous posture Uncritical views of face furtively attaching to the theology of the Thai church are potentially detrimental for its life and mission Such seems to be an unavoidable situation without proper attention to face Additionally to ignore face is to run the risk of missing valuable

cultural resources implicit in the Thai experience of face for the critical task of authentic Thai theological reflection This lack of engagement with face raises critical issues with which we must wrestle How is it that such a central sociocultural issue has not been a more significant part of the Thai Christian vocabulary or experience How pervasive are these negative attitudes regarding face What lies behind them Might this lack of self conscious engagement with face have any relationship to the persistent Thai perception of Christianity as a foreign Western religion How should Christians understand this notion of face and how it relates to the ways we understand and proclaim the gospel

a crucial resource for today's students of intercultural communication      **The Gift of the Face** Shamoon Zamir, 2014-08-14 Edward S. Curtis's *The North American Indian* is the most ambitious photographic and ethnographic record of Native American cultures ever produced. Published between 1907 and 1930 as a series of twenty volumes and portfolios, the work contains more than two thousand photographs intended to document the traditional culture of every Native American tribe west of the Mississippi. Many critics have claimed that Curtis's images present Native peoples as a vanishing race, hiding both their engagement with modernity and the history of colonial violence. But in this major reappraisal of Curtis's work, Shamoon Zamir argues instead that Curtis's photography engages meaningfully with the crisis of culture and selfhood brought on by the dramatic transformations of Native societies. This crisis is captured profoundly and with remarkable empathy in Curtis's images of the human face. Zamir also contends that we can fully understand this achievement only if we think of Curtis's Native subjects as coauthors of his project. This radical reassessment is presented as a series of close readings that explore the relationship of aesthetics and ethics in photography. Zamir's richly illustrated study resituates Curtis's work in Native American studies and in the histories of photography and visual anthropology      *Monster Culture in the 21st Century* Marina Levina, Diem-My T. Bui, 2013-05-23 In the past decade, our rapidly changing world faced terrorism, global epidemics, economic and social strife, new communication technologies, immigration, and climate change, to name a few. These fears and tensions reflect an evermore interconnected global environment where increased mobility of people, technologies, and disease have produced great social, political, and economical uncertainty. The essays in this collection examine how monstrosity has been used to manage these rising fears and tensions. Analyzing popular films and television shows such as *True Blood*, *Twilight*, *Paranormal Activity*, *District 9*, *Battlestar Galactica*, and *Avatar*, it argues that monstrous narratives of the past decade have become omnipresent specifically because they represent collective social anxieties over resisting and embracing change in the 21st century. The first comprehensive text that uses monstrosity not just as a metaphor for change but rather a necessary condition through which change is lived and experienced in the 21st century, this approach introduces a different perspective toward the study of monstrosity in culture      **Inequality in the 21st Century** David Grusky, Jasmine Hill, 2018-05-15 This book provides selections from the seminal works of Karl Marx, Max Weber, W. E. B. Du Bois, and Charlotte Perkins Gilman that reveal some of the reasons why class, race, and gender inequalities have proven very adaptive and can flourish even today in the 21st century      *Pentecostalism and Globalization* Steven M. Studebaker, 2010-09-20 In little over a century, the Pentecostal movement has emerged from small bands of revival seekers to become one of the largest Christian groups in the world. Primarily a movement within Western Christianity, for much of its brief history it is increasingly characterized as a global movement. Pentecostal theology and ministry in a Western context must engage global Pentecostalism and be willing to rethink its traditional patterns of thought and practice in light of the evolving nature of the movement. The essays in this book come mainly from the McMaster Divinity College 2008 Pentecostal Forum, *The Many Faces*

of Pentecostalism Pentecostalism and Globalization The first section outlines the nature of globalization and establishes it as the context for contemporary Pentecostal theology and ministry The other contributions explore the impact of globalization on traditional areas of Pentecostal theology such as Spirit baptism and speaking in tongues and twenty first century Pentecostal ministry *The Globalization of Rural Plays in the Twenty-First Century* Alin Rus,2022-11-14 The Globalization of Rural Plays in the Twenty First Century excavates the neglected ideological substratum of peasant folk plays By focusing on northeastern Romania and southwest Ukraine two of the most ruralized regions in Europe this work reveals the complex landscape of peasant plays and the essential role they perform in shaping local culture economy and social life The rapid demise of these practices and the creation of preservation programs is analyzed in the context of the corrosive effects of global capitalism and the processes of globalization urbanization mass mediatization and heritagization Just like peasants in search of better resources rural plays migrate from their villages of origin into the urban modern and more dynamic world where they become more visible and are both appreciated and exploited as forms of transnational intangible cultural heritage

**Reader's Guide to the History of Science** Arne Hessenbruch,2013-12-16 The Reader s Guide to the History of Science looks at the literature of science in some 550 entries on individuals Einstein institutions and disciplines Mathematics general themes Romantic Science and central concepts Paradigm and Fact The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn *The Ashgate Research Companion to Monsters and the Monstrous* Asa Simon Mittman,Peter J. Dendle,2017-02-24 The field of monster studies has grown significantly over the past few years and this companion provides a comprehensive guide to the study of monsters and the monstrous from historical regional and thematic perspectives The collection reflects the truly multi disciplinary nature of monster studies bringing in scholars from literature art history religious studies history classics and cultural and media studies The companion will offer scholars and graduate students the first comprehensive and authoritative review of this emergent field **More Peoples of Las Vegas** Jerry L Simich,Thomas C. Wright,2010-03-15 The remarkable economic growth of Las Vegas between 1980 and 2007 created a population boom and a major increase in the ethnic and religious diversity of the city Today over 21 percent of the city s population is foreign born and over 30 percent speak a language other than English at home The local court system offers interpreters in 82 languages and in 2005 2006 for example more than 11 000 people originating from 138 countries were naturalized there as American citizens More Peoples of Las Vegas extends the survey of this city s cosmopolitan population begun in *The Peoples of Las Vegas* University of Nevada Press 2005 As in the previous book this volume includes well established groups like the Irish and Germans and recently arrived groups like the Ethiopians and Guatemalans Essays describe the history of each group in Las Vegas and the roles they play in the life and economy of the city The essays also explore the influence of modern telecommunications and accessible air travel showing how these factors allow newcomers to create transnational identities

and maintain ties with families and culture back home They also examine the role of local institutions including clubs religious organizations shops restaurants and newspapers and other media in helping immigrants maintain their ethnic and religious identities and in disseminating national and even regional cultures of origin More Peoples of Las Vegas adds to our awareness of the rich and varied ethnic and religious character of Las Vegas In a broader context it offers thoughtful perspectives on the impact of globalization on a major American city and on the realities of immigrant life in the twenty first century

**Social Medicine in the 21st Century** Samuel Barrack,2011-04 PLoS Medicine s October 2006 issue contained a special collection of eleven magazine articles and five research papers devoted entirely too social medicine The collection featured many of the leaders in the field including Paul Farmer Arthur Kleinman David Satcher Nancy Scheper Hughes Dorothy Porter and Leon Eisenberg The Kaiser Family Foundation has conducted interviews with two of the authors of papers in this collection David Satcher and Paul Farmer In its launch issue in October 2004 PLoS Medicine signaled a strong interest in creating a journal that went beyond a biological view of health to incorporate socioeconomic ethical and cultural dimensions For example that first issue contained a policy paper on how the health community should respond to violent political conflict a debate on whether health workers should screen all women for domestic violence and a study on the global distribution of risk factors for disease Two years on our October 2006 issue takes our interest even further It contains a special collection of ten magazine articles and fi ve research papers devoted entirely to social medicine We are delighted that the collection features many of the leaders in the fi eld including the renowned medical anthropologists Paul Farmer and Arthur Kleinman the former United States Surgeon General David Satcher and the Harvard professor of social medicine and psychiatry Leon Eisenberg Most of our readers have welcomed our inclusive view of what a medical journal should highlight Some however have been critical suggesting that we should publish less soft stuff and more hard science These critics might argue that in this era of stem cell research and the human genome project of molecular medicine and DNA microarray technology the notion of social medicine seems irrelevant and outmoded But the ultimate role of a medical journal is surely to contribute to health improvement and that means looking not just at molecules but at the social structures that contribute to illness The stark fact is that most disease on the planet is attributable to the social conditions in which people live and work The socially disadvantaged have less access to health services and get sicker and die earlier than the privileged Despite impressive technological advances in medicine global health inequalities are worsening
