## **Faces Of Poverty:**

The Faces of Poverty in North Carolina Gene R. Nichol, 2021-11-01 More than 15 million North Carolinians today live in poverty More than one in five are children Behind these sobering statistics are the faces of our fellow citizens This book tells their stories Since 2012 Gene R Nichol has traveled the length of North Carolina conducting hundreds of interviews with poor people and those working to alleviate the worst of their circumstances In an afterword to this new edition Nichol draws on fresh data and interviews with those whose voices challenge all of us to see what is too often invisible to look past partisan divides and preconceived notions and to seek change Only with a full commitment as a society Nichol argues will we succeed in truly ending poverty which he calls our greatest challenge

**Faces of Poverty** Jill Duerr Berrick, 1997-03-27 At a time when welfare is changing rapidly from state to state honest information about family poverty and poverty policy is critical Most Americans are insulated from the poor it's hard to imagine the challenges of poverty the daily fears of crime and victimization the frustration of not being able to provide for a child Instead we are often exposed to the rhetoric and hyperbole about the excesses of the American welfare system These messages color our perception of the welfare problem in the United States and they close the American mind to a full understanding of the complexity of family poverty But who are these poor families What do we know about how they arrived in such desperate straits Is poverty their fate for a lifetime or for only a brief period In *Faces of Poverty* Jill Duerr Berrick answers these questions as she dispels the misconceptions and myths about welfare and the welfare population that have clouded the true picture of poverty in America At a time when welfare has become a hotly debated political issue *Faces of Poverty* gives us the facts The debate surrounding welfare will continue as each of the 50 states struggles to reform their welfare programs and this debate will turn on the public's perception of the welfare population Berrick offers insight into each of the reforms under consideration and starkly demonstrates their implications for poor women and children She provides a window into these women's lives brilliantly portraying their hopes and fears and their struggle to live with dignity

State University Long Beach A fascinating discourse on the trials and hope of the African continent Milwaukee Community Journal USA **The Colors of Poverty** Ann Chih Lin, David R. Harris, 2008-08-14 Given the increasing diversity of the nation particularly with respect to its growing Hispanic and Asian populations why does racial and ethnic difference so often lead to disadvantage In *The Colors of Poverty* a multidisciplinary group of experts provides a breakthrough analysis of the complex mechanisms that connect poverty and race *The Colors of Poverty* reframes the debate over the causes of minority poverty by emphasizing the cumulative effects of disadvantage in perpetuating poverty across generations The contributors consider a kaleidoscope of factors that contribute to widening racial gaps including education racial discrimination social capital immigration and incarceration Mich le Lamont and Mario Small grapple with the theoretical ambiguities of existing cultural explanations for poverty disparities They argue that culture and structure are not competing explanations for poverty but rather collaborate to produce disparities Looking at how attitudes and beliefs exacerbate racial stratification social psychologist Heather Bullock links the rise of inequality in the United States to an increase in public tolerance for disparity She suggests that the American ethos of rugged individualism and meritocracy erodes support for antipoverty programs and reinforces the belief that people are responsible for their own poverty Sociologists Darren Wheelock and Christopher Uggen focus on the collateral consequences of incarceration in exacerbating racial disparities and are the first to propose a link between legislation that blocks former drug felons from obtaining federal aid for higher education and the black white educational attainment gap Joe Soss and Sanford Schram argue that the increasingly decentralized and discretionary nature of state welfare programs allows for different treatment of racial groups even when such policies are touted as race neutral They find that states with more blacks and Hispanics on welfare rolls are consistently more likely to impose lifetime limits caps on benefits for mothers with children and stricter sanctions *The Colors of Poverty* is a comprehensive and evocative introduction to the dynamics of race and inequality The research in this landmark volume moves scholarship on inequality beyond a simple black white paradigm beyond the search for a single cause of poverty and beyond the promise of one magic bullet solution A Volume in the National Poverty Center Series on Poverty and Public Policy

**Faces of Inequality** Pradeep Baisakh, 2022-01-06 Amid the talks of a five trillion dollar Indian economy there is still an India where people struggle to arrange two square meals a day Many strive hard for basic needs of food health and education Often unheard and ignored these voiceless people mostly don't matter to the mainstream media This book through various ground reports over a decade and a half captures the stories of the most marginalised people of society All the reports should serve as a warning bell till the time another man dies of starvation an HIV positive woman is thrown out of her house a girl is raped in brick kilns of Andhra Pradesh or a poor child is forced to work in the cotton fields of Gujarat These are not mere real life stories but a chronicle of policy and governance failures The reports analyse the systemic causes of such failures But all is not lost Still there are rays of hope amid the bleak picture Many positive stories show us how with the right policy interventions and community effort the lives and livelihoods of the marginalised can flourish Note This book is a republication of author's selected articles published earlier in different newspapers portals and journals Author's announcement 25% of the earnings incurred to the author from the sale of this book will be donated for social causes
