

# ETHOS (RHETORIC)

Ethos is one part of the so-called rhetorical triangle. In Aristotle's Rhetoric, Ethos refers to a technical means of persuasion that has to do with the credibility of the persuader.

## OVERVIEW

In rhetoric, ethos, from the Greek word for "character," refers to persuasion through establishing the authority of the speaker.

According to Aristotle, people follow a trustworthy speaker more readily on almost all subjects and completely so if there are no other objective criteria to decide the matter for themselves.

## EXAMPLE

A person may be more inclined to believe a doctor on issues related to their health than friends, because they trust the doctor's word on matters in their field. Here, the person is relying on ethos - appeal to character / authority - to make a decision rather than logos (appeal to logic) or pathos (appeal to emotion).
