1895-1960 Matthew Riley, 2017-07-05 Imaginative analytical and critical work on British music of the early twentieth century has been hindered by perceptions of the repertory as insular in its references and backward in its style and syntax escaping the modernity that surrounded its composers Recent research has begun to break down these perceptions and has found intriguing links between British music and modernism This book brings together contributions from scholars working in analysis hermeneutics reception history critical theory and the history of ideas Three overall themes emerge from its chapters accounts of British reactions to Continental modernism and the forms they took links between music and the visual arts and analysis and interpretation of compositions in the light of recent theoretical work on form tonality and pitch organization

material culture of the twentieth century *Nabokov's Art of Memory and European Modernism* John Burt Foster, Jr.,1993-02-08 Despite Vladimir Nabokov's hostility toward literary labels he clearly recognized his own place in cultural history In a fresh approach stressing Nabokov's European context John Foster shows how this writer's art of memory intersects with early twentieth century modernism Tracing his interests in temporal perspective and the mnemonic image in intertextual reminiscences and in individuality amid cultural multiplicity the book begins with such early Russian novels as *Mary* then treats his emerging art of memory from *Laughter in the Dark* to *The Gift* After discussing the author's cultural repositioning in his first English novels Foster turns to Nabokov's masterpiece as an artist of memory the autobiography *Invitation of a Memory* and ends with an epilogue on *Pale Fire* As a cross cultural overview of modernism this book examines how Nabokov navigated among Proust and Bergson Freud and Mann and Joyce and Eliot It also explores his response to Baudelaire and Nietzsche as theorists of modernity and his sense of Dostoevsky Tolstoy and Pushkin as modernist precursors As an approach to Nabokov the book reflects the heightened importance of autobiography in current literary study Other critical issues addressed include Bakhtin's theory of intertextuality deconstructive views of memory Benjamin's modernism of memory and Nabokov's assumptions about modernism as a concept *International Futurism in Arts and Literature* Günter Berghaus,2012-10-25 This publication offers for the first time an inter disciplinary and comparative perspective on Futurism in a variety of countries and artistic media 20 scholars discuss how the movement shaped the concept of a cultural avant garde and how it influenced the development of modernist art and literature around the world *The Modernity of English Art, 1914-30* David Peters Corbett,1997 The modernity of English art reconceptualises the history of English painting from 1914 to the end of the 1920s Whereas most accounts have tended to see the period as marked by a tension between the native tradition and Modernism this ground breaking book rethinks the 1920s by situating both Modernist and non Modernist painters within a wider cultural history Established figures such as Paul Nash Edward Wadsworth and Wyndham Lewis as well as lesser known artists like Charles Sims John Armstrong and Ethelbert White are discussed and illustrated in a series of innovative readings within this context The modernity of English art offers a new account of painting in England after 1914 and argues for a strongly revisionist view of the significance of the modern during this important but neglected period in English art **"British Music and Modernism, 1895-1960 "** Matthew Riley,2017-07-05 Imaginative analytical and critical work on British music of the early twentieth century has been hindered by perceptions of the repertory as insular in its references and backward in its style and syntax escaping the modernity that surrounded its composers Recent research has begun to break down these perceptions and has found intriguing links between British music and modernism This book brings together contributions from scholars working in analysis hermeneutics reception history critical theory and the history of ideas Three overall themes emerge from its chapters accounts of British reactions to Continental modernism and the forms they took links between music and the visual arts and analysis and interpretation of compositions in the light of recent
