Facing the Music Milton H. Hallman, 1996 **Notes** Music Library Association, 1997 **Bibliographic Guide to Music** New York Public Library. Music Division, 1996 Invitation to Listening Richard L. Wink, Lois G. Williams, 1976

The Art of Appreciation Kate Guthrie, 2021-07-13 From the BBC Proms to Bernstein's Young People's Concerts initiatives to promote classical music have been a pervasive feature of twentieth century musical life The goal of these initiatives was rarely just to reach a larger and more diverse audience but to teach a particular way of listening that would help the public appreciate music This book examines for the first time how and why music appreciation has had such a defining and long lasting impact well beyond its roots in late Victorian liberalism It traces the networks of music educators philanthropists policy makers critics composers and musicians who rather than resisting new mass media sought to harness their pedagogic potential The book explores how listening became embroiled in a nexus of modern problems around citizenship leisure and education In so doing it ultimately reveals how a new cultural milieu the middlebrow emerged at the heart of Britain's experience of modernity

The Cumulative Book Index, 1992 A world list of books in the English language *Live and Recorded* Yngvar Kjus, 2018-02-09 This book uncovers how music experience live and recorded is changing along with the use of digital technology in the 2000s Focussing on the Nordic region this volume utilizes the theory of mentalization the capacity to perceive and interpret what others are thinking and feeling and applies it to the analysis of mediated forms of agency in popular music The rise of new media in music production has enabled sound recording and processing to occur more rapidly and in more places including the live concert stage Digital technology has also introduced new distribution and consumption technologies that allow record listening to be more closely linked to the live music experience The use of digital technology has therefore facilitated an expanding range of activities and experiences with music Here Yngvar Kjus addresses a topic that has a truly global reach that is of interest to scholars of musicology media studies and technology studies
