Fact Or Fiction The Dilemma Of The Renai:

Fact Or Fiction William Nelson, 1973 **Fashioning Authority** Constance Caroline Relihan, 1994 Various factors in late 16th century England contributed to an environment more hospitable to prose fiction than had existed previously among them changes in educational opportunities socioeconomic structures literacy rates and access to European literature Such cultural alterations inevitably produced changes in modes of literary production Furthermore access to the bookstall to a new class of readers altered the structures and subjects writers employed Within this tumultuous context the writers of fictional prose narrative negotiated for themselves and their audience a precarious definition of their identity within the Elizabethan literary world In *Fashioning Authority* Constance C Relihan examines the influence of Elizabethan prose fiction on early modern literary culture emphasizing the role of the nonaristocratic reader in the reception of literature the importance of the marketplace in the production and reception of prose texts and the growth of prose as the dominant mode of narrative presentation Combining cultural analysis with a concern for narrative structure Relihan explores six strategies by which the writers and readers of Elizabethan fiction struggled to achieve artistic authority incorporating poetry into prose texts using translated material separating authorial from narrative voice introducing a sense of place depicting females and representing non European cultures Relihan argues that Elizabethan fiction s unique position on the borders of literate and literary English culture that is its position as what M M Bakhtin calls novelistic discourse allows it to constitute a rich field for examining the ideological rifts of the period Taking her primary examples from Barnabe Riche s *Farewell to Militarie Profession* 1581 but also considering texts by a variety of authors such as Sidney Deloney Lyly Gascoigne Lodge Breton Greene Harmon Nashe and Painter Relihan demonstrates that regardless of their specific structural and thematic differences the various modes of Elizabethan fiction all share a common origin in the upheavals of English culture during the later half of the 16th century By examining novelistic discourse as a category *Fashioning Authority* strengthens our understanding of the nature and history of English fiction even as it broadens our sense of Elizabethan culture The result is an exploration of how Elizabethan novelistic discourse established the cultural place of its newly literate readers and its generically marginal authors creating literary comfort in narrative prose for those who failed to find it in verse **A Critical Edition of George Whetstone's 1582 An Heptameron of Civil Discourses** George Whetstone, 2019-06-04 Published in 1987 This edition seeks to make available for the scholar and the student of Elizabethan literature an accurate text of an *Heptameron of Civill Discourses* **Squitter-wits and Muse-haters** Peter C. Herman, 1996 This study offers an approach toward Renaissance literary production demonstrating that antipoetic sentiment previously dismissed as an unimportant aspect of Tudor Stuart literary culture constituted a significant shaping presence in Sidney Spenser and Milton *Ideologies of History in the Spanish Golden Age* Anthony J. Cascardi, 1997-09-15 Spain in the sixteenth and seventeenth centuries was in the throes of modernization arising from trade with the New World and the rise of an urban society During this period Spanish culture

came to be dominated by the tension between an old regime of traditional values honor lineage purity of blood and these modernizing influences Anthony J Cascardi examines the literature of the Golden Age as the point at which tensions between the old and the new converged and proposes that this historical drama provided the context for subject formation in early modern Spain He examines how Spanish writers envisioned history and studies how these visions revealed or concealed contradictions between social values of their time particularly between the value systems of caste and class Ideologies of History in the Spanish Golden Age draws on recent theoretical paradigms in contemporary philosophy psychoanalysis political and social theory and literary history to place Spain s major literary figures in challenging new contexts By accounting for both modernizing desires and resistances to modernization Cascardi provides readers interested in theories of ideology and history with a new way of looking at the literature of the Spanish Golden Age

Between History and Fiction Tracy Crowe Morey,2010 This study explores a number of early modern comedias that deal with historical siege or military episodes in the history of the Iberian peoples Cervantes s La Numancia Lope de Vega s El asalto de Mástrique and his lesser known La nueva victoria de don Gonzalo de Córdoba Calderón de la Barca s El sitio de Breda and Vélez de Guevara s El Hércules de Oca are key texts examined here Taking the distinction between history and fiction in Neo Aristotelian literary theory as a point of departure this book considers the intellectual and historical conditions that affect the ways in which early modern dramatists interpret historical events according to their own literary and ideological purposes The interplay of history and fiction demonstrates uses and discontents of legitimizing fiction in the early modern period Parallel themes of epic and siege intermingled with romance and carnivalesque humour provide alternative perspectives to early modern representations of empire and war on the Spanish stage

Reading and Fiction in Golden-Age Spain B. W. Ife,1985-10-24 Dr Ife here examines the connection between the objections to Spanish Golden Age fiction and those raised two thousand years earlier by Plato

Representing Elizabeth in Stuart England John Watkins,2002-08-08 Publisher Description

Common: The Development of Literary Culture in Sixteenth-Century England Neil Rhodes,2018-04-19 This volume explores the development of literary culture in sixteenth century England as a whole and seeks to explain the relationship between the Reformation and the literary renaissance of the Elizabethan period Its central theme is the common in its double sense of something shared and something base and it argues that making common the work of God is at the heart of the English Reformation just as making common the literature of antiquity and of early modern Europe is at the heart of the English

Renaissance Its central question is why was the Renaissance in England so late That question is addressed in terms of the relationship between Humanism and Protestantism and the tensions between democracy and the imagination which persist throughout the century Part One establishes a social dimension for literary culture in the period by exploring the associations of commonwealth and related terms It addresses the role of Greek in the period before and during the Reformation in disturbing the old binary of elite Latin and common English It also argues that the Reformation principle of making common is coupled with a hostility towards fiction which has the effect of closing down the humanist renaissance of the earlier decades Part Two presents translation as the link between Reformation and Renaissance and the final part discusses the Elizabethan literary renaissance and deals in turn with poetry short prose fiction and the drama written for the common stage

In Search of First-Century Christianity Joe E. Barnhart,Linda T. Kraeger,2019-06-04 Originally pulished in 2000 In Search of First Century Christianity contends that Christianity in the first century had no founder but rather evolved as a convergence of many forces political disillusionment cultural mutations religious and theological motifs psychosocial losses and new expectations Moving on from an examination of the foundations of historical and literary criticism in the Renaissance and a detailed study of two writers in antiquity Thucydides and Chariton to examine writings in the period between Plato and the Gospel of Mark the authors then explore the writing of Paul and the stories told in the Gospels With the early Christians drawing from both Greek and Hebrew sources Barnhart and Kraeger propose that like Plato Paul and other Christians generated an anti tragic theatre gospel with the Jesus figure being the creation of a culture steeped in an anthropomorphic metaphysical view of the world

Cosmographical Glasses Constance Caroline Relihan,2004 In *Cosmographical Glasses* Constance Relihan examines the ways in which sixteenth century English texts traveler s reports ethnographic studies and geographic guides provide the foundation for how fictional prose of the period envisions the locations in which its tales are set Relihan suggests that this nonfictional discourse becomes central to how the fictional prose of the period imagines cultural identity fictional purpose and gender identity Places and cultures were defined in opposition to each other in early modern romances In the examples in *Cosmographical Glasses* writers attempt to define the spaces of their texts in an effort to identify what it means to be male English and Elizabethan pieces seize the spirit of ethnographic and geographic texts as well as the ways in which historically identifiable and overtly fictional places were used to complicate representations of utopian fantasies A number of prose romances and novella collections and their use of historical and geographical facts are analyzed in order to explore the associations between the genre the discourses of colonialism and the construction of gender These texts become glasses that reflect and refract the social and cultural realities of early modern England Those interested in sixteenth and seventeenth century English literature the history of the novel and the influence of travel literature on fictional texts will appreciate *Cosmographical Glasses*

Splendide Mendax Edmund P. Cueva,Javier Martínez,2016-05-05 Scholars for centuries have regarded fakes and forgeries chiefly as an opportunity for exposing and denouncing deceit rather than appreciating the creative activity necessary for such textual imposture But should we not be more curious about what is spurious Many of these long neglected texts merit serious reappraisal when considered as artifacts with a value beyond mere authenticity We do not have to be fooled by a forgery to find it fascinating when even the intention to deceive can remind us how easy it is to form beliefs about texts The greater difficulty is that once beliefs have been formed by one text it is impossible to approach the next without preconceptions potentially disastrous for scholarship The exposure of fraud and the pursuit of truth may still be valid scholarly goals but they implicitly demand that we confront the status of any text as a focal point for matters of belief and conviction Many new and fruitful avenues of investigation open up when scholars consider forgery as a creative act rather than a crime We invited authors to contribute work without imposing any restrictions beyond a willingness to consider new approaches to the subject of ancient fakes and forgeries The result is this volume in which our aim is to display some of the many possibilities available to scholarship when the forger is regarded as splendide mendax splendidly untruthful The Protean Ass Robert H. Imperfect Histories Ann Rigney, 2018-09-05 *Imperfect Histories* puts imperfection at the heart of a theory of historical representation Ann Rigney shows how historical writing involves dealing with intractable subjects that resist our efforts to know and to shape them Those who write history she says engage in an ongoing struggle to match up what they find relevant in the past with the information and interpretive models at their disposal Chronic dissatisfaction is at the heart of historical practice This is especially evident in the various attempts made over the last two centuries to write an alternative history of everyday experience Focusing on historical writing in the last decades of the eighteenth century and the first half of the nineteenth Rigney analyzes a wide range of works by Walter Scott Jules Michelet Augustin Thierry and Thomas Carlyle She shows how the attempt to write an alternative history brought historical writing into a close yet fraught relationship with literature The result is a new account of that relationship as it took shape in the romantic period and as it continues to influence contemporary practices

The Opacity of Narrative Peter Lamarque, 2014-03-25 What is narrative What is distinctive about the great literary narratives In virtue of what is a narrative fictional or non fictional In this important new book Peter Lamarque one of the leading philosophers of literature at work today explores these and related questions to bring new clarity and insight to debates about narrative in philosophy critical theory and narratology He highlights opacity as a feature of literary narratives and examines the implications for our understanding of fictional worlds and fictional characters Throughout he challenges received views about narrative questioning the indispensability of narrative in an individual's self conception and the importance of both truth and emotion as measures of literary greatness He reflects on the non fiction novel arguing that it does not weaken the distinction between fiction and non fiction The book offers a compelling and original account of these and other issues making a critical contribution to topical and wide ranging debates
