Hominids Robert J. Sawyer, 2003-02-17 Robert Sawyer's SF novels are perennial nominees for the Hugo Award the Nebula Award or both Clearly he must be doing something right since each one has been something new and different What they do have in common is imaginative originality great stories and unique scientific extrapolation His latest is no exception *Hominids* is a strong stand alone SF novel but it's also the first book of The Neanderthal Parallax a trilogy that will examine two unique species of people They are alien to each other yet bound together by the never ending quest for knowledge and beneath their differences a common humanity We are one of those species the

other is the Neanderthals of a parallel world where they not Homo sapiens became the dominant intelligence In that world Neanderthal civilization has reached heights of culture and science comparable to our own but is very different in history society and philosophy During a risky experiment deep in a mine in Canada Ponter Boddit a Neanderthal physicist accidentally pierces the barrier between worlds and is transferred to our universe where in the same mine another experiment is taking place Hurt but alive he is almost immediately recognized as a Neanderthal but only much later as a scientist He is captured and studied alone and bewildered a stranger in a strange land But Ponter is also befriended by a doctor and a physicist who share his questing intelligence and boundless enthusiasm for the world s strangeness and especially by geneticist Mary Vaughan a lonely woman with whom he develops a special rapport Meanwhile Ponter s partner Adikor Huld finds himself with a messy lab a missing body suspicious people all around and an explosive murder trial that he can t possibly win because he has no idea what actually happened Talk about a scientific challenge Contact between humans and Neanderthals creates a relationship fraught with conflict philosophical challenge and threat to the existence of one species or the other or both but equally rich in boundless possibilities for cooperation and growth on many levels from the practical to the esthetic to the scientific to the spiritual In short Robert J Sawyer has done it again Hominids is the winner of the 2003 Hugo Award for Best Novel At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied Red Planet Blues Robert J.
