Factory and Manager in the USSR. Joseph S. Berliner,1957 Factory and Manager in the USSR. Joseph S. Berliner.
[Foreword by Clyde Kluckhohn.]. Joseph S. Berliner,Clyde Kay Maben Kluckhohn,1957 Factory and manager in the USSR. Joseph S. Berliner,1957 **Politics, Work, and Daily Life in the USSR** James R. Millar,1987 Politics work and daily life in the USSR is designed to illustrate how the Soviet social system really works and how the Soviet people cope with it This study is based on the first comprehensive survey of life in the USSR since the Harvard Project over thirty three years ago The essays contained analyze the variations in attitude and behaviour reflected in the findings of the Soviet Interview Project a five year investigation of contemporary daily life in the USSR The survey involved interviewing thousands of recent emigrants from the USSR to the United States as a means of learning about their former day to day lives Some aspects of this survey dealt with areas the Soviets themselves had never investigated so the data were not and indeed still are not available even in unpublished Soviet sources This study of a large volume of firsthand observations is extremely valuable to anyone interested in the inner workings and behavioural dynamics of the contemporary Soviet social system *Dream of a Red Factory* Deborah A. Kaple,1994-01-06 Drawing on previously unknown primary sources in both Chinese and Russian Deborah A Kaple has written a powerful and absorbing account of the model of factory management and organization that the Chinese communists formulated in the 1949 1953 period She reveals that their new management techniques were adapted from Soviet propaganda during the harsh period of Stalin s post war reconstruction The idealized Stalinist management system consisted mainly of strict Communist Party control of all aspects of workers lives which is the root of such strong Party control over Chinese society today *Dream of a Red Factory* is a rare and revealing look at the consolidation rule in China told through the prism of the development of new socialist factories and enterprises Kaple completely counters the old myth of the Soviet monolith in China and carefully reconstructs how the Chinese communists came to rely on an idealized propagandistic version of the Soviet model instead *Factory and Manager in the U.S.S.R.* Joseph Scholom Berliner,1957

Chinese Economic History Since 1949 Michael Dillon,2017-06-01 China s economic development has become a matter of world wide interest since the boom that began in the 1980s *Key Papers in Chinese Economic History since 1949* offers a selection of outstanding articles that trace the origins of the modern Chinese economy Topics covered include agriculture and the rural economy industrialisation and urbanisation finance and capital political economy and international connections **Heroes and Toilers** Cheehyung Harrison Kim,2018-11-06 In search of national unity and state control in the decade following the Korean War North Korea turned to labor Mandating rapid industrial growth the government stressed order and consistency in everyday life at both work and home In *Heroes and Toilers* Cheehyung Harrison Kim offers an unprecedented account of life and labor in postwar North Korea that brings together the roles of governance and resistance Kim traces the state s pursuit of progress through industrialism and examines how ordinary people challenged it

every step of the way Even more than coercion or violence he argues work was crucial to state control Industrial labor was both mode of production and mode of governance characterized by repetitive work mass mobilization labor heroes and the insistence on convergence between living and working At the same time workers challenged and reconfigured state power to accommodate their circumstances coming late to work switching jobs fighting with bosses and profiting from the black market as well as following approved paths to secure their livelihood resolve conflict and find happiness Heroes and Toilers is a groundbreaking analysis of postwar North Korea that avoids the pitfalls of exoticism and exceptionalism to offer a new answer to the fundamental question of North Korea s historical development **Drug Industry Act of 1962** United States.

Nell,2010 In this book Guinevere Liberty Nell visits this historical laboratory of social science to study the lessons in basic economics that it teaches Nell observes that the founders of the Soviet experiment Lenin and other Bolshevik leaders wrote volumes of articles and books on Marxist theory and then proceeded to enact the very policies that they promised Therefore the Soviet experiment provides an ideal lens through which to view the consequences of various interpretations of economic theories and Marxist theories However despite the wealth of information available on the Soviet experiment few writers have closely analyzed this historical process and what lessons it might offer for market economies In this book Nell carefully considers Soviet theory and practice and draws out the lessons that Soviet planners learned Each chapter considers one theory the experience in the Soviet Union of policies based on this theory and the reforms that planners implemented as the system evolved as well as in response to changes in the local and international conditions and the lessons for market economies that this experience offers Nell s lessons capture the dynamic nature of the economy and illustrate insights from the debate between socialists and Austrian economists They should be useful and informative not only for readers interested in basic economics but also for economists interested in heterodox approaches to economic modeling and theory as well as for the citizen interested in rethinking the assumptions underlying mainstream policy debates **A Legislative History of**
