Factory Of Cunning:

A Factory of Cunning Philippa Stockley, 2012-04-16 First published in 2005 this story tells how in the years before the French Revolution London is an unsettled dangerous place the scene of an exquisite thrilling tale of revelation and revenge One freezing May morning two veiled women step off the boat from Holland A French lady calling her Mrs Fox and her maid they are on the run Fearing for her life Mrs Fox must make her way in a strange new city but both her past and present crackle with danger Immoral and beautiful Mrs Fox has always used men to support and amuse her Trusting on her wits to keep ahead of the hangman she manipulates others to survive gullible Lord Danceacre sweet Violet Denyss and degenerate predator Earl Much Yet in the Earl Mrs Fox has met an adversary whose sadistic viciousness is a match for her own attempts to destroy him Games are played with ever higher stakes until someone must pay the penalty but will it be the innocent or the damned Through a dark guick world of liars and lechers where infidelity and intellect cross swords with desire or death Mrs Fox hurtles towards a horrible climax Here is London 1784 Welcome to a factory of cunning **Factory and Industrial** Management John Robertson Dunlap, Arthur Van Vlissingen, John Michael Carmody, 1919 The Political Economy of Rural-Urban Conflict Topher L. McDougal, 2017-04-14 In some cases of insurgency the combat frontier is contested and erratic as rebels target cities as their economic prey In other cases it is tidy and stable seemingly representing an equilibrium in which cities are effectively protected from violent non state actors. What factors account for these differences in the interface between urban based states and rural based challengers. To explore this guestion this volume examines two regions representing two dramatically different outcomes In West Africa Liberia and Sierra Leone capital cities became economic targets for rebels who posed dire threats to the survival of the state In Maoist India despite an insurgent ideology aiming to overthrow the state via a strategy of progressive city capture the combat frontier effectively firewalls cities from Maoist violence This book argues that trade networks underpinning the economic relationship between rural and urban areas termed interstitial economies may differ dramatically in their impact on and response to the combat frontier It explains rebel predatory tendencies towards cities as a function of transport networks allowing monopoly profits to be made by urban based traders It explains combat frontier delineation as a function of the social structure of the trade networks hierarchical networks permit elite elite bargains that cohere the frontier These factors represent what might be termed respectively the hardware and software of the rural urban economic relationship Of interest to any student of political economy and violence this book presents new arguments and insights about the relationships between violence and the economy predation and production core and periphery **Gimme Indie Rock** Andrew Earles, 2014-09-15 The ultimate guide to one of the most revered periods and movements in American rock history The 1980s are one of the most ridiculed and parodied epochs in popular music what with all the skinny lapels synthesizers spandex and Aqua Net However music fans in the know recognize that beneath the glossy veneer broiled a revolutionary movement of self directed anti corporate punk influenced bands that
