Facts In Focus Central Stat Office Uk:

Risk and Insurance in Construction Nael G. Bunni, 2003-09-02 Those involved in construction have to cope with so much learning in their own discipline that they shun further involvement in subjects such as insurance and law which in themselves are so deeply and intensely complex However insurance and law are interwoven in the basic procedures used in the construction industry for undertaking work be they design construction supervision or operation or any combination of them This thoroughly revised edition of Nael Bunni s successful book formerly called Insurance in Construction provides information on risk construction law and construction insurance for those involved with all aspects of construction The chapters on risk have been expanded to include recent developments in the area and provide further examples of events which could occur on what can be viewed as the most risky human work activity namely construction New chapters are also added to deal with the insurance clauses of the many new standard forms of contract published in recent years including FIDIC s new suite of contracts published in September 1999 ICE s seventh edition of the civil engineering standard form of contract and ICE s second edition of the design build form

Introducing Social Statistics Richard Startup, Elwyn T. Whittaker, 2021-10-17 Originally published in 1982 this book describes those basic ideas and techniques of statistics which should be known to every social scientist The explanations are given in careful detail at a level of mathematical sophistication which will be readily attainable by students meeting statistical methods for the first time All the methods described are applied to and sometimes are motivated by genuine problems of interest arising in sociology social policy politics or human geography The authors often provide a meaningful discussion of the substantive problem itself in addition to an analysis of the statistical techniques being used on it In this way subject matter and statistical techniques are integrated in an original and effective manner The authors combine considerable experience of shared teaching of social statistics with familiarity with its use in practical fields and in research Their book therefore focuses on the most directly applicable methods and is carefully sequenced to promote rapid student understanding The topic of probability which so often confuses students is here dealt with simply yet thoroughly The chapter on the sources of social statistics whilst being unusual in a text of this kind is particularly welcome and comprehensively meets the needs of students on a wide range of courses

Introducing Social Statistics will make the vitally important field of statistics accessible to all students of the social sciences

Social Policy and Administration in Britain Tessa Blackstone, Peter Vines, 1975

Macmillan Directory of UK Business Information Sources James Tudor, 1992-09-15 The objective of this publication is to provide a one stop guide to business information insofar as that is possible within the confines of a useable book It aims to give guidance on both the published and organisational sources relevant to the needs of the non professional business researcher and provides a listing of worthwhile references and contacts As previously the Directory is organised so that both published sources and information centres are grouped together under their applicable Standard Industrial Classification SIC number and heading This new

edition also incorporates NACE classification and correlation tables The second category again includes those UK and pan national organisations which focus on specific discrete industry sectors which limits the number of organisational sources in the directory to those that are most worthwhile

Children in the UK Eleanor Grey,1982 This guide indicates statistical sources in the United Kingdom dealing with children and young people Regular and occasional sources are listed in a three column format including the name of the source a brief description and the geographic area to which statistics refer Information is classified under 25 topic headings abortions accidents adoption alcohol drugs and smoking births child abuse children in care children s hearings crime day care and playgroups divorce education ethnic minorities family structure financial circumstances handicapped children health hospitals housing mortality statistics personal social services population unemployment working mothers and youth activities A composite bibliography and an address list of nongovernmental organizations concerned with statistics are included A publication timetable indicating the order of publication for 1981 census topic volumes and a chart showing the number of children and young people in the United Kingdom in 1980 are also appended BJD

Redefining Politics Adrian Leftwich,2013-04-15 This book challenges conventional conceptions of politics which focus largely on the institutions of government and the associated struggles for power around them It argues that politics is involved in all the activities of cooperation and conflict whereby people organize the use production and distribution of human natural and material resources Found in all human groups institutions and societies politics everywhere influences and reflects the structures of power social organization culture and ideology These central themes are illustrated by drawing on a wide range of societies including the Kung hunter gatherers the pre Columbian Aztecs and the Pastoral Maasai as well as modern Britain and Third World societies from Chile to China Other examples of village communities a typical university department and the World Bank show how institutions may also be analyzed in terms of the definition of politics used here It is equally central to the argument that many of the most critical problems occurring in societies can be attributed to their politics and this theme is explored looking at such problems as poverty famines epidemics violence and unemployment in Britain and throughout the world

Information Dissemination and Access in Russia and Eastern Europe Rachel Walker,Marcia Freed Taylor,1998 This book is the outcome of an international workshop held at Essex University in August 1997 It fulfils three unique functions It examines obstacles and solutions to the promotion of access to and the dissemination of social science information In general little attention has been paid to the dissemination of social science information either nationally or internationally despite the fact that the information revolution is constantly in the headlines It brings together specialists from Russia Eastern and Western Europe to discuss these issues from the broad European perspective although particular attention is paid to the problems of dissemination and access in Russia and Eastern Europe which are rarely addressed in the Western literature It also brings together specialists from the three major communities involved in the circulation of information groups which rarely speak to

each other data providers data brokers and data users The result is a series of illuminating insights into the access and dissemination issues confronting these different geographical and functional communities and some imaginative proposals about ways in which obstacles and problems might be overcome

The Post-war Generation And The Establishment Of Religion

Jackson W Carroll,Wade Clark Roof,David A Roozen,2018-03-08 This is the first book to offer a comparative analysis of the impact of the post war Baby Boom generation on Christianity around the world Taking a cross cultural approach the contributors examine ten advanced countries including England France Germany Australia and the United States and explore the ways baby boomers have helped reshape and redefine establishment religions that is the dominant primarily Christian institutions Their conclusions are broad and far reaching shedding light on the fate of religion in other countries now modernizing and those countries moving through the modern to the postmodern Sociologists historians and scholars of religion will profit from the insights put forth here on religion in a postmodern context
