Poems He has also written an ample introduction about modernism modernity modern literature and modern poetry which might be enough to understand the rise of modern poetry All of Eliot s poems especially *The Waste Land* has presented readers with all the aspects of the modern life Life is depicted as a mirror broken and shattered into pieces as it is clear in the different parts of the poem Eliot unlike many poets did not leave the modern man lost in despair but he finds them their peace of mind by having a true and stable faith as well as their turning to God The only solution for the entire problems of modern man is to turn to God and neglect the world that completely occupied them spiritually Modern man lost has lost his values especially women by only looking after children many of them turned to prostitution because they did not have any source of income therefore they used that as a way to earn money to maintain life These are the characteristics of the modern city which are shared by all the countries especially Europe Eliot insists on the necessity of turning from world to God He believed that God can solve their problems because man or any other earthly power could not change that gloomy and aimless life which modern man complained against

The New American Poetry John R. categorization of poets into schools has become one of the major if not only way that The New American Poetry is remembered or valued one certain goal of this volume as one reviewer invites is to pry The New American Poetry out from the hoary platitudes that have encrusted it To this point critics mostly have examined The New American Poetry as an anthology former treatments of The New American Poetry look at it intently as a whole Though the almost singularly focused study of its construction and less often reception has lent a great deal of documented highly visible and debated material in which to consider we have been left with certain notions about its relevance that have become imbued ultimately in the collective critical consciousness of postmodernity This volume however goes beyond the analysis of construction and reception and achieves something distinctive extending those former treatments by treading on the paths they create This volume aims to discover another sense of radical that Perloff articulated rather than a radical that departs markedly from the usual we invite consideration of The New American Poetry that is radical in the sense of root of harboring something fundamental something inherent as we uncover and trace further elements correlated with its widespread influence over the last fifty years

Resistance to Science in Contemporary American Poetry Bryan Walpert, 2011-09-26 This book examines types of resistance in contemporary poetry to the authority of scientific knowledge tracing the source of these resistances to both their literary precedents and the scientific zeitgeists that helped to produce them Walpert argues that contemporary poetry offers a palimpsest of resistance using as case studies the poets Alison Hawthorne Deming Pattiann Rogers Albert Goldbarth and Joan Retallack to trace the recapitulation of romantic arguments inherited from Keats Shelly and Coleridge which in turn were produced in part in response to Newtonian physics modernist arguments inherited from Eliot and Pound arguments influenced in part by relativity and quantum theory and postmodernist arguments arguments informed by post structuralist theory e g Barthes Derrida Foucault with affinities to arguments for the limitations of science in the philosophy sociology and rhetoric of science Some of these poems reveal the discursive ideologies of scientific language reveal in other words the performativity of scientific language In doing so these poems themselves can also be read as performative acts and therefore as forms of intervention rather than representation Reading Retallack alongside science studies scholar Karen Barad the book concludes by proposing that viewing knowledge as a form of intervention rather than representation offers a bridge between contemporary poetry and science
