Facundo And The Construction Of Argentine Culture

Leigh K. Jenco, Murad Idris, Megan Christine Thomas

Facundo And The Construction Of Argentine Culture:

Facundo and the Construction of Argentine Culture Diana Sorensen Goodrich, 2010-01-01 Domingo F Sarmiento s classic 1845 essay Facundo Civilizacion y Barbarie opened an inquiry into the nature of Argentinian culture that continues to the present day In this elegantly written study Diana Sorensen Goodrich explores the varied and often conflicting readings that Facundo has received since its publication and shows how these readings have contributed to the making and remaking of the Argentine nation and its culture Goodrich s analysis sheds new light on the intersection between canon formation and nation building While much has been written about Facundo as a primary text in Latin American letters this is the first study that locates it within the problematics of canon formation and the cultural social and political contexts in which conflicting interpretations are constructed This new approach to Facundo illuminates the interactions among institutions cultural ideologies and political life This book will be important reading for everyone interested in questions of national identity and the institutionalization of a national tradition

Facundo and the Construction of Argentine Culture Diana S. Goodrich, 1996

Nineteenth-Century Nation Building and the Latin American Intellectual Tradition Janet Burke, Ted Humphrey, 2007-02-28 This volume provides readings from the works of eighteen Latin American thinkers of the nineteenth century who were engaged in articulating and examining the problems that Spanish and Portuguese America faced in the one hundred years after securing independence The selections represent all major regions of Latin America Although these regions differ significantly with regard to indigenous background geography climate and available resources their people confronted the common problems that surround the intractable challenges of statecraft and nation building issues of race international relations economics education and self understanding Burke and Humphrey provide fresh accessible translations of key works a majority of which appear for the first time in English a General Introduction that sets the works in historical and intellectual context detailed headnotes for each selection a Guide to Themes and bibliographic references

The Hispanic World and American Intellectual Life, 1820-1880 I. Jaksic, 2012-01-14 This book examines why several American literary and intellectual icons became pioneering scholars of the Hispanic world after Independence and the War 1812 At this crucial time for the young republic these gifted Americans found inspiration in an unlikely place the collapsing Spanish empire and used it to shape their own country s identity <u>Culture and Customs of Argentina</u> David William Foster, Melissa Lockhart, Darrell B. Lockhart, 1998-11-24 Argentina one of the most dynamic societies in Latin America is known for its impressive level of cultural production This examination of the social and cultural institutions of Argentine society contains a series of comprehensive and informative essays that focus on the most important forms of cultural production in terms of major works major artists and major venues Students and interested readers will discover what is unique about Argentina s culture and customs in this thorough and engaging overview The authors describe the issues that have dominated Argentine society and place everything in its proper context by including a chronology of major

historic events This volume also contains chapters on Religion Social Customs Broadcasting and Print Media Cinema
Literature Performing Arts and Art including Sculpture Photography Architecture Painting The Vanguard of the
Atlantic World James E. Sanders, 2014-10-03 In the nineteenth century Latin America was home to the majority of the world
s democratic republics Many historians have dismissed these political experiments as corrupt pantomimes of governments of
Western Europe and the United States Challenging that perspective James E Sanders contends that Latin America in this
period was a site of genuine political innovation and popular debate reflecting Latin Americans visions of modernity

Re-imagining Democracy in Latin America and the Caribbean, 1780-1870 Eduardo Posada Carbó, Joanna Innes, Mark Philp, 2023 This book explores the ways in which people in Latin America and the Caribbean joined with others in Europe and the United States to re imagine the ancient term democracy so as to give it relevance and power in the modern world In all these regions that process largely followed the French Revolution in Latin America it more especially followed independence movements of the 1810s and 20s The book looks at how a variety of political actors and commentators used the term to characterize or argue about modern conditions through the ensuing half century by 1870 it was firmly established in mainstream political lexicons throughout the region Following introductory scene setting and overview chapters specialists contribute wide ranging accounts of aspects of the context in which the word was re imagined six final chapters explore differences in its fortune from place to place **Domingo F. Sarmiento's Argirópolis** Gustavo Fares, 2021-01-04 This book provides the first English translation of Argir polis 1850 by the Argentine Domingo F Sarmiento one of the most important political and cultural figures of nineteenth century Latin America Argir polis proposes the union of Argentina Paraguay and Uruguay into the United States of South America or the United States of the R o de la Plata with a capital on Mart n Garc a island It anticipates some aspects of the continent s future such as the formation of Mercosur the Southern Common Market in 1991 Argir polis explores politics modernity and nation formation making Sarmiento's treatise one of Argentina and Latin America's most relevant programmatic texts Presented alongside a critical introduction that situates the essay in its historical and political contexts this translation allows English speaking readers to explore nineteenth century Latin American perspectives on concepts such as the nation state sovereignty progress space and modernity The <u>Translator's Visibility</u> Heather Cleary, 2020-12-10 At the intersection of translation studies and Latin American literary studies The Translator's Visibility examines contemporary novels by a cohort of writers including prominent figures such as Cristina Rivera Garza C sar Aira Mario Bellatin Valeria Luiselli and Luis Fernando Verissimo who foreground translation in their narratives Drawing on Latin America's long tradition of critical and creative engagement of translation these novels explicitly visibly use major tropes of translation theory such as gendered and spatialized metaphors for the practice and the concept of untranslatability to challenge the strictures of intellectual property and propriety while shifting asymmetries of discursive authority above all between the original as a privileged repository of meaning and translation as its hollow

emulation In this way The Translator's Visibility show that translation not only serves to renew national literatures through an exchange of ideas and forms when rendered visible it can help us reimagine the terms according to which those exchanges take place Ultimately it is a book about language and power not only the ways in which power wields language but also the ways in which language can be used to unseat power The Oxford Handbook of Comparative Political Theory Leigh K. Jenco, Murad Idris, Megan Christine Thomas, 2020 Chapters emphasize exploration of substantive questions about political life in a range of global contexts with attention to whether and how those questions may be shared contested or reformulated across differences of time space and experienceAn interdisciplinary volume that bridges the gaps between various traditions regions and concerns regarding political theory Provides tags and keywords to aid navigation of the handbook and help readers trace disruptions thematic connections and conceptual contrasts across entries **Translation** Sergio Gabriel Waisman, 2005 This book studies how Borges constructs a theory of translation that plays a fundamental role in the development of Argentine literature and which in turn expands the potential for writers in Latin America to create new and innovative literatures through processes of re reading rewriting and mis translation The book analyzes Borges s texts in both an Argentine and a transnational context thus incorporating Borges s ideas into contemporary debates about translation and its relationship to language and aesthetics Latin American culture and identity tradition and originality and center periphery dichotomies Furthermore a central objective of this book is to show that the study of the importance of translation in Borges and of the importance of Borges for translation studies need not be separated Furthermore translation studies has much to gain by the inclusion of Latin American thinkers such as Borges while literary studies has much to gain by in depth considerations of the role of translation in Latin American literatures Sergio Waisman is an Assistant Professor of Spanish at The George Washington University France and the Americas Bill Marshall, 2005-05-24 A unique multidisciplinary encyclopedia covering the impacts that French and American politics foreign policy and culture have had on shaping each country's identity From 17th century fur traders in Canada to 21st century peacekeepers in Haiti from France's decisive role in the Revolutionary War leading to the creation of the United States to recent disagreements over Irag France and the Americas charts the history of the inextricable links between France and the nations of the Americas This comprehensive survey features an incisive introduction and a chronology of key events spanning 400 years of France's transatlantic relations Students of many disciplines as well as the lay reader will appreciate this comprehensive survey which traces the common themes of both French policy language and influence throughout the Americas and the wide ranging transatlantic influences on contemporary France The Burden of Modernity Carlos I. Alonso, 1998-09-24 This book offers a provocative interpretation of cultural discourse in Spanish America Alonso argues that Spanish American cultural production constituted itself through commitment to what he calls the narrative of futurity that is the uncompromising adoption of modernity This commitment fueled a rhetorical crisis that followed the embracing of

discourses regarded as modern in historical and economic circumstance that are themselves the negation of modernity Through fresh readings of texts by Sarmiento Mansilla Quiroga Vargos Llosa Garcia Marquez and others Alonso tracks this textual dynamic in works from the nineteenth century to the present The Europa Directory of Literary Awards and Norah Borges Eamon McCarthy, 2020-09-01 This is the first book to give an overview of Norah **Prizes** Europa, 2015 Borges s artistic output as whole This is important as other studies have limited themselves to her work as an illustrator or have focussed wholly on her early works It contains 30 images of her work which will allow readers to gain a sense of the changes in her style This is the first book length study of Norah Borges to be written in English which opens up her works to a non Spanish speaking audience for the first time Territories and Trajectories Diana Sorensen, 2018-06-07 The contributors to Territories and Trajectories propose a model of cultural production and transmission based on the global diffusion circulation and exchange of people things and ideas across time and space This model eschews a static geographically bounded notion of cultural origins and authenticity privileging instead a mobility of culture that shapes and is shaped by geographic spaces Reading a diverse array of texts and objects from Ethiopian song and ancient Chinese travel writing to Japanese literature and aerial and nautical images of the Indian Ocean the contributors decenter national borders to examine global flows of culture and the relationship between thinking at transnational and local scales Throughout they make a case for methods of inquiry that encourage innovative understandings of borders oceans and territories and that transgress disciplinary divides Contributors Homi Bhabha Jacqueline Bhabha Lindsay Bremner Finbarr Barry Flood Rosario Hubert Alina Payne Kay Kaufman Shelemay Shu mei Shih Diana Sorensen Karen Thornber Xiaofei Tian **Masculinities** Eduardo P. Archetti, 2020-12-23 The complex relationship between nationalism and masculinity has been explored both historically and sociologically with one consistent conclusion male concepts of courage and virility are at the core of nationalism In this ground breaking book the author questions this assumption and advances the debate through an empirical analysis of masculinity in the revealing contexts of same sex football and polo and cross sex tango relations Because of its rich history Argentina provides the ideal setting in which to study the intersection of masculine and national constructs hybridization creolization and a culture of performance have all informed both gender and national identities Further the author argues that counter to claims made by globalization theorists the importance of performance to Argentinian men and women has a long history and has powerfully shaped the national psyche But this book takes the analysis far beyond national boundaries to address general arguments in anthropology which are not culture specific and the discussion poses important comparative questions and addresses central theoretical issues from the interplay of morality and ritual to a comparison between the popular and the aristocratic to the importance of othering in national constructions particularly those relating to sport This book represents a major contribution not only to anthropology but to the study of gender nationalism and culture in its broadest sense Nations and Nationalism Guntram H. Herb, David H.

Kaplan, 2008-05-22 A comprehensive and revealing compilation of essays analyzing the varied dimensions of national identities and nationalisms across world regions and through time The pervasiveness of nationalism its many manifestations over the centuries and the widely scattered way it has been studied make it a particularly difficult subject to approach and explore ABC CLIO offers the finest comprehensive reference available on an essential topic in modern world history Across four volumes Nations and Nationalism A Global Historical Overview covers all aspects of nationalism in all parts of the world from the time of the French Revolution to the present day Nations and Nationalism helps students researchers and other interested readers explore national identities and nationalistic movements in historical context Organized chronologically its four volumes combine thematic essays on different characteristics of nationalism with case studies of key historical developments involving specific nations at specific times The encyclopedia focuses on Europe Latin America Africa and Asia with featured coverage of nationalist cultural creations including literature music symbols and mythologies Paulina L. Alberto, 2022-01-06 Celebrities live their lives in constant dialogue with stories about them But when these stories are shaped by durable racist myths they wield undue power to ruin lives and obliterate communities Black Legend is the haunting story of an Afro Argentine Ra l Grigera el negro Ra l who in the early 1900s audaciously fashioned himself into an alluring Black icon of Buenos Aires bohemian nightlife only to have defamatory storytellers unmake him In this gripping history Paulina Alberto exposes the destructive power of racial storytelling and narrates a new history of Black Argentina and Argentine Blackness across two centuries With the extraordinary Ra l Grigera at its center Black Legend opens new windows into lived experiences of Blackness in a white nation and illuminates how Rals experience of celebrity was not far removed from more ordinary experiences of racial stories in the flesh Visual Studies James Elkins, 2013-09-13 In his latest book James Elkins offers a road map through the field of visual studies describing its major concerns and its principal theoretical sources Then with the skill and insight that have marked his successful books on art and visuality Elkins takes the reader down a side road where visual studies can become a more interesting place Why look only at the same handful of theorists Why exclude from one s field of vision non Western art or the wealth of scientific images

Thank you very much for downloading **Facundo And The Construction Of Argentine Culture**. Most likely you have knowledge that, people have look numerous period for their favorite books later than this Facundo And The Construction Of Argentine Culture, but end happening in harmful downloads.

Rather than enjoying a fine book later than a cup of coffee in the afternoon, on the other hand they juggled behind some harmful virus inside their computer. **Facundo And The Construction Of Argentine Culture** is user-friendly in our digital library an online entry to it is set as public as a result you can download it instantly.
