Faint Praise and Civil Leer Jon Thomas Rowland, 1990

Faint Praise and Civil Leer Jon Thomas Rowland, 1994

Rowland examines Marvell's political poetry and Dryden's *Annus Mirabilis* showing how panegyric writing developed into mock panegyric and satire increasingly as much in response to versions of events as to the events themselves. The author then describes how Marvell exploits panegyric strategies to subvert its conventional deliberative function as his equal virtuosity at praise and blame actually undermines his ethos and separates his advice from any clear authority capable of implementing it. Moreover, in Marvell the addressee of conventional panegyric while remaining ostensibly Charles II is internalized in a series of grotesques resembling in various ways the megalomaniacal Bayes, Samuel Parker, Bishop of Oxford. Marvell uses variations on the abuse of the conventional panegyric arrangement of people, poet, and prince as a metaphor for the abuse of the proper relationship between all signifieds and their signifiers. Writing a generation later, Swift borrows many of the themes and motifs of *The Rehearsal Transposed* for his satire in *A Tale of a Tub*; in particular, the association of the preface with panegyric as a metaphor of the reversal that occurs between praiser and praised, vehicle and tenor, when proper relationships are abused. Rowland also explores how Swift moves from the unsatisfactory use of analogy in his panegyric Odes to more satisfactory use of it in the Tale and then concentrates on the prefaces of the Tale as Panegyric paratext.

Alexander Pope in the Making Joseph Hone, 2021-01-28 How did Alexander Pope become the greatest poet of the eighteenth century? Modern scholarship has typically taken Pope's rise to greatness and subsequent remoteness from lesser authors for granted. As a major poet, he is treated as the successor of Milton and Dryden or the precursor of Wordsworth. Drawing on previously neglected texts and overlooked archival materials, *Alexander Pope in the Making* immerses the poet in his milieu, providing a substantial new account of Pope's early career from the earliest traces of manuscript circulation to the publication of his collected Works and beyond. In this book, Joseph Hone illuminates classic poems such as *An Essay on Criticism*, *The Rape of the Lock*, and *Windsor Forest* by setting them alongside lesser-known texts by Pope and his contemporaries, many of which have never received sustained critical attention. Before Pope's earliest experiments in satire, panegyric, lyric, pastoral, and epic are all explored alongside his translations, publication strategies, and neglected editorial projects. By recovering values shared by Pope and the politically heterodox men and women whose works he read and with whom he collaborated, this book constructs powerful new interpretive frameworks for some of the eighteenth century's most celebrated poems. *Alexander Pope in the Making* mounts a comprehensive challenge to the Scribnerian paradigm that has dominated scholarship for the past eighty years. It sheds fresh light on Pope's early career and reshapes our understanding of the ideological landscape of his era. This book will be essential reading for scholars and students of eighteenth-century literature, history, and politics.

The Eighteenth-Century British Verse Epistle B. Overton, 2007-10-23 This is the first book to cover the whole range of

epistolary verse in the period including the discursive type favoured by Pope and the familiar and dramatic epistles It advances a new model for defining the form demonstrates the form's importance in the period and pays attention to non canonical epistles by women and labouring class writers

Literature and Party Politics at the Accession of Queen Anne Joseph Hone, 2017-12-01 Literature and Party Politics at the Accession of Queen Anne is the first detailed study of the final Stuart succession crisis It demonstrates for the first time the centrality of debates about royal succession to the literature and political culture of the early eighteenth century Using previously neglected misunderstood and newly discovered material Joseph Hone shows that arguments about Anne's right to the throne were crucial to the construction of nascent party political identities Literary texts were the principal vehicle through which contemporaries debated the new queen's legitimacy This book sheds fresh light on canonical authors such as Daniel Defoe Alexander Pope and Joseph Addison by setting their writing alongside the work of lesser known but nonetheless important figures such as John Tutchin William Pittis Nahum Tate John Dennis Henry Sacheverell Charles Leslie and other anonymous and pseudonymous authors Through close historical analysis it shows how this new generation of poets preachers and pamphleteers transformed older models of succession writing by Milton Dryden and others and imbued conventional genres such as panegyric and satire with their own distinctive poetics By immersing the major authors in their milieu and reconstructing the political and material contexts in which those authors wrote Literature and Party Politics demonstrates the vitality of debates about royal succession in early eighteenth century culture

The Oxford Handbook of Restoration Literature Matthew C. Augustine, Steven N. Zwicker, 2024-10-22 The Oxford Handbook of Restoration Literature begins by asking if there was a distinctive literature of the Restoration For a long time the answer seemed obvious heroic drama libertine comedy scandalous lyrics and the short but brilliant career of John Wilmot earl of Rochester Could there be an age when the coincidence of literary culture and political rule were any more obvious But as this Handbook will remind us some of the most wonderful literature of this Restoration came from writers who had lived across the decades of turbulence and into an age when the Stuart kings returned when the Church and House of Lords were restored a world made safe for bishops and for the memory of divine right rule Of course these returns and restorations did not meet with uniform celebration John Milton wrote his great epic poems not in quiet submission but in a kind of resistance to the dominant culture of the 1660s and Andrew Marvell produced his most brilliant satiric verse by holding up a looking glass to court corruption and Anglican intolerance So we begin with the most obvious conclusion Restoration literature does and does not fit to the categories that so long defined the late Stuart age This book explores and contests challenges and reimagines the experience embodied by the writing of the late Stuart world and invites readers new to this world and those who have often read its literatures to the pleasures but as well to the challenges and discomforts of its texts

Dominion Built of Praise Jonathan Decter, 2018-08-14 A constant feature of Jewish culture in the medieval Mediterranean was the dedication of panegyric texts in Hebrew Judeo Arabic and other

languages to men of several ranks scholars communal leaders courtiers merchants patrons and poets Although the imagery of nature and eroticism in the preludes to these poems is often studied the substance of what follows is generally neglected as it is perceived to be repetitive obsequious and less aesthetically interesting than other types of poetry from the period In *Dominion Built of Praise* Jonathan Decker demurs As is the case with visual portraits panegyrics operate according to a code of cultural norms that tell us at least as much about the society that produced them as the individuals they portray Looking at the phenomenon of panegyric in Mediterranean Jewish culture from several overlapping perspectives social historical ethical poetic political and theological he finds that they offer representations of Jewish political leadership as it varied across geographic area and evolved over time Decker focuses his analysis primarily on Jewish centers in the Islamic Mediterranean between the tenth and thirteenth centuries and also includes a chapter on Jews in the Christian Mediterranean through the fifteenth century He examines the hundreds of panegyrics that have survived some copied repeatedly in luxurious anthologies others discarded haphazardly in the Cairo Geniza According to Decker the poems extolled conventional character traits ascribed to leaders not only diachronically within the Jewish political tradition but also synchronically within Islamic and to a lesser extent Christian civilization and political culture *Dominion Built of Praise* reveals more than a superficial and functional parallel between Muslim and Jewish forms of statecraft and demonstrates how ideas of Islamic political legitimacy profoundly shaped the ways in which Jews conceptualized and portrayed their own leadership *The Poetry of Praise* J. A. Burrow, 2008-05-08 One of the chief functions of poetry in Antiquity the Middle Ages and the Renaissance was to praise gods people and things Heroes and kings were glorified in many varieties of praise and the arts of encomium and panegyric were codified by classical rhetoricians and later by writers on poetry J A Burrow's study spans over two thousand years from Pindar to Christopher Logue but its main concern is with the English poetry of the Middle Ages a period when praise poetry flourished He argues that the decline of praise in English literature since the seventeenth century which has meant that modern readers and critics find it hard to appreciate this kind of poetry This erudite but accessible account by a leading scholar of medieval literature shows why the poetry of praise was once so popular and why it is still worth reading today

Historical literatures Noelle Gallagher, 2018-04-30 *Historical literatures* recovers a rich vibrant and complex tradition of Restoration and early eighteenth century English historical writing Highlighting the wide variety of historical works being printed and read in England between the years 1660 and 1740 it demonstrates that many of the genres that we now view primarily as literary verse satire and panegyric memoir scandal and chronicle were also being used to represent historical phenomena In surveying some of this period's historical literatures it argues that many satirists secret historians and memoirists made their choice of historical subject matter a topic of explicit commentary presenting themselves as historians or inscribing their works in an English historical tradition By responding to other varieties of history in this self-conscious way writers like Andrew Marvell John Dryden Delarivier Manley Daniel Defoe and John Evelyn were able to pioneer

influential new techniques for representing their nation's past

Labors of Innocence in Early Modern England Joanna Picciotto, 2010-06-15 Joanna Picciotto's *Labors of Innocence in Early Modern England* is a splendid study of the origins, development, and eventual decline of the Experimentalist tradition in seventeenth and early eighteenth century English letters. In tracing out the arc of this intellectual and professional trajectory, Picciotto engages productively with the crucial religious, socio-economic, philosophical, and literary movements associated with the ongoing labors of the innocent eye. The Lives of George Frideric Handel David Hunter, 2015 This book aims not only to re-examine the life of the great composer Handel but also to explore the very concepts of biography. With an introduction, bibliography, and index, Figures, Tables

Swords in Myrtle Dress'd Jon Thomas Rowland, 1998 Part 2 offers readings of homoeroticism in Akenside's *The Pleasures of Imagination* and his Odes where homosexuality manifests itself indirectly through elision and through Akenside's own revision of his most homoerotic passages. Finally, Part 3 returns to read homosexuality in political life but later in the century when the idea is exploited by Wilkes and Churchill with some very surprising results in their campaign against George III and his prime minister, the Earl of Bute

Regions of Sorrow Susannah Young-ah Gottlieb, 2003 W. H. Auden and Hannah Arendt belonged to a generation that experienced the catastrophic events of the mid-twentieth century and they both sought to respond to the enormity of the novel phenomena they witnessed. *Regions of Sorrow* explores the remarkable affinity between their works. As incisive exponents and uncompromising proponents of the insuperable condition of plurality, Auden and Arendt give voice to an unexpected and inconspicuous messianism, a messianism in which contingency, frailty, and faultiness are neither rejected nor scorned but celebrated as the indispensable elements of what Auden calls anxious hope. Beginning with an examination of Arendt's *Origins of Totalitarianism* and Auden's *Age of Anxiety*, which both conclude with meditations on Nazi terror, the author turns to an unprecedented presentation of Arendt's *Human Condition* in terms of Jewish-German messianism and concludes with Auden's *In Praise of Limestone*, which lays out the frail and faulty space in which messianism breaks free from apocalyptic forecasts

Sealed with Blood Sarah J. Purcell, 2010-08-03 The first martyr to the cause of American liberty was Major General Joseph Warren, a well-known political orator, physician, and president of the Provincial Congress of Massachusetts. Shot in the face at close range at Bunker Hill, Warren was at once transformed into a national hero, with his story appearing throughout the colonies in newspapers, songs, pamphlets, sermons, and even theater productions. His death, though shockingly violent, was not unlike tens of thousands of others, but his sacrifice came to mean something much more significant to the American public. *Sealed with Blood* reveals how public memories and commemorations of Revolutionary War heroes such as those for Warren helped Americans form a common bond and create a new national identity. Drawing from extensive research on civic celebrations and commemorative literature in the half-century that followed the War for Independence, Sarah Purcell shows how people invoked memories of their participation in and sacrifices during the war when they wanted to shore up their

political interests make money argue for racial equality solidify their class status or protect their personal reputations Images were also used especially those of martyred officers as examples of glory and sacrifice for the sake of American political principles By the midnineteenth century African Americans women and especially poor white veterans used memories of the Revolutionary War to articulate their own more inclusive visions of the American nation and to try to enhance their social and political status Black slaves made explicit the connection between military service and claims to freedom from bondage Between 1775 and 1825 the very idea of the American nation itself was also democratized as the role of the people in keeping the sacred memory of the Revolutionary War broadened Swift Studies ,1997 **Selected Poetry** Charles Churchill,2003 This selection of poetry draws on different aspects of the poet s career to offer a comprehensive picture It includes Churchill s most acclaimed and substantial poems The Prophecy of Famine An Epistle to William Hogarth and The Dedication to the Sermons Current Contents Institute for Scientific Information (Philadelphia),1997
