Fairfax Virginia A City Traveling Through Time:

Fairfax, Virginia Nan Netherton,1997-01-01 **A Southern Spy in Northern Virginia** Charles V. Mauro,2019-01-23

The remarkable true story of the woman who sheltered Confederate soldiers and gathered intelligence and the secret book given to her by J E B Stuart As the Civil War raged Confederate brigadier general J E B Stuart entrusted a secret album to Laura Ratcliffe a young girl in Fairfax County as a token of his high appreciation of her patriotism admiration of her virtues and pledge of his lasting esteem A devoted Southerner Laura provided a safe haven for Rebel forces along with intelligence gathered from passing Union soldiers Ratcliffe s book contains four poems and forty undated signatures twenty six of Confederate officers and soldiers and fourteen of loyal Confederate civilians In *A Southern Spy in Northern Virginia* Charles V Mauro uncovers the mystery behind this album identifying who the soldiers were and when they could have signed its pages The result is a fascinating look at the covert lives and relationships of civilians and soldiers during the war kept hidden until now Includes photos and illustrations *The Preservation of History in Fairfax County, Virginia* Ross Netherton,Nan Netherton,2002-02-18 *The Preservation of History in Fairfax County Virginia* presents an overview of one urban county s efforts to retain its historic and archaeological sites in the face of increasing developmental pressures during the past thirty five years It provides a thorough review of historical development in the county as well as practical guidance on how decisions were developed Written by two distinguished historians Ross and Nan Netherton who were part of the process from the beginning this study presents a perspective which only familiarity with its successes and failures can bestow This book is both a historical survey and a how to manual for government officials and preservationists Mantua Sue Kovach Shuman,2021 Mantua Virginia sprouted outside Washington DC after World War II because of its convenient location between the Little River Turnpike and US Route 50 roads that made commuting into the nation s capital easy But Mantua s roots go back to a 1685 Northern Neck of Virginia land grant Gristmills operated along the Accotink Creek which still defines the terrain Civil War major John Henry Chichester s family named Mantua which stretched south to Glenbrook Road farms under three miles from the Fairfax Court House where the first Confederate soldier was killed The area gradually changed from farms where grain grew and livestock grazed to a wooded suburb with Mid Century Modern houses Federal workers and military personnel put down roots establishing a community An underground oil spill in 1990 united residents determined to overcome unwanted national attention and continue a small town America lifestyle in the shadow of the nation s capital **God Knows All Your Names** Paul N. Herbert,2009 People with only a slight interest in history will enjoy these fascinating short and easy to understand stories Serious history buffs will like these lesser known episodes not the stories we ve heard a million times For example try to find anyone who knows about the attempted slave insurrection in Fairfax County Virginia With Mary Lincoln s spending habits who knew that Abraham Lincoln actually saved an enormous percentage of his presidential salary A slave honored in Virginia with a monument the history of Lee Highway which opened with great fanfare

in 1923 as a 3 000 mile road from Washington DC to San Diego a story about the Little River Turnpike the second oldest turnpike in America built partly by slaves and captured Hessian soldiers You ll read about two Civil War ships that collided in the Potomac River Victims included wounded soldiers wives and one soldier s six year old son You ll read a great account of the massive Civil War corruption You ll learn about the disastrous condition of the treasury sound familiar during the Revolutionary War The government tried everything including a lottery to get the country afloat in a sea of red ink But the most fascinating story may be about the Revolutionary War soldier who faked his own desertion to defect to the enemy with the highly secretive mission of going behind enemy lines to capture and return for trial the worst traitor in American history Benedict Arnold Bet you never heard of this story There are many other stories in this eclectic heavily researched manuscript There s a story about the Christmas Truce in World War One about long forgotten holidays in Virginia about the retrocession which sent an area of Washington back to Virginia in 1846 and about the impeachment of a Supreme Court justice it happened only once And more

The History of Ornithology in Virginia David W. Johnston,2003 Host to a large and diverse bird population as well as a long human history Virginia is arguably the birthplace of ornithology in North America David W Johnston s History of Ornithology in Virginia the result of over a decade of research is the first book to address this fascinating element of the state s natural history Tertiary era fossils show that birds inhabited Virginia as early as 65 million years ago Their first human observers were the region s many Indian tribes and later colonists on Roanoke Island and in Jamestown Explorers pushing westward contributed further to the development of a conception of birds that was distinctively American By the 1900s planter farmers naturalists and government employees had amassed bird records from the Barrier Islands and the Dismal Swamp to the Blue Ridge and Appalachian Mountains The modern era saw the emergence of ornithological organizations and game laws as well as increasingly advanced studies of bird distribution migration pathways and breeding biology Johnston shows us how ornithology in Virginia evolved from observations of wondrous creatures to a sophisticated science recognizing some 435 avian species David W Johnston taught ornithology at the University of Virginia s Mountain Lake Biological Station for nearly two decades and has edited numerous ecological studies as well as the Journal of Field Ornithology and Ornithological Monographs
