people experience nature and how they directly impact the life of all of nature's elements. This experience is similar to that of Masaru Emoto's work demonstrating the life force that is present in every drop of water. His book shows how words of love and compassion cause drops of water to form clear crystal shapes. My book will draw attention to nature spirits that have likely never been seen before yet which surround and support us in our daily life. The primary audience includes the spiritual community, people who currently interact with the fairy realm, people who love fantasy and the realms of magic, those who are interested in gardening, those who love nature, and children of all ages. This book offers a unique opportunity to view actual raw photography of nature spirits, including dialogs with the nature spirits. It also offers ways to communicate and receive guidance from the Nature spirits. I have had the great pleasure of not only experiencing the fairies but have been blessed with the opportunity to view them through my photography.
