Tilo Schabert

Faith And Political Philosophy The Correspondence Between Leo Strauss And Eric Voegelin 1934 1964:

Faith and Political Philosophy Leo Strauss, Eric Voegelin, 1993 Leo Strauss and Eric Voegelin were political theorists of the first rank whose impact on the study of political science in North America has been profound A study of their writings is one of the most expeditious ways to explore the core of political science comparing and contrasting the positions both theorists have taken in assessing that core provides a comprehensive appreciation of the main options of the Western tradition In fifty three recently discovered letters Strauss and Voegelin explore the nature of their similarities and differences offering trenchant observations about one another's work about the state of the discipline and about the influences working on them The correspondence fleshes out many assumptions made in their published writings often with a frankness and directness that removes all vestiges of ambiguity Included with the correspondence are four pivotal re published essays Jerusalem and Athens Some Preliminary Reflections Strauss The Gospel and Culture Voegelin Immortality Experience and Symbol Voegelin and The Mutual Influence of Theology and Philosophy Strauss and commentaries by James L Wiser Hans Georg Gadamer Stanley Rosen Thomas J J Altizer Timothy Fuller Ellis Sandoz Thomas L Pangle and David Walsh *Faith and Political Philosophy* Leo Strauss, 2004 **Faith and political philosophy** Peter Emberley, Barry Cooper, 1993 **Leo Strauss and His Legacy** John Albert Murley, 2005-01-01 With over 10 000 entries identifying work of hundreds of Strauss's students and their students this bibliography is the most indeed the only comprehensive guide to published writing in the tradition of Leo Strauss Murley includes Strauss's own complete bibliography and that of one of his most revered students George Anastaplo **Michael Oakeshott and Leo Strauss** David McIlwain, 2019-03-14 This book compares the thought of Michael Oakeshott and Leo Strauss bringing Oakeshott's desire for a renaissance of poetic individuality into dialogue with Strauss's recovery of the universality of philosophical enlightenment Starting from the conventional understanding of these thinkers as important voices of twentieth century conservatism McIlwain traces their deeper and more radical commitments to the highpoints of human achievement and their shared concerns with the fate of traditional inheritances in modernity the role and meaning of history the intention and meaning of political philosophy and the problem of politics and religion The book culminates in an articulation of the positions of Oakeshott and Strauss as part of the quarrel of poetry and philosophy revealing the ongoing implications of their thinking in terms of the profound spiritual and political questions raised by modern thinkers such as Hobbes Hegel Nietzsche and Heidegger and leading back to foundational figures of Western civilization including St Augustine and Socrates **The Politics of Truth and Other Untimely Essays** Ellis Sandoz, 1999 This volume explores the historical and theoretical underpinnings of personal liberty and free government and provides an analysis of the crisis of civic consciousness endangering both *Faith, War, and Violence* Gabriel R. Ricci, 2017-09-08 *Faith War and Violence* analyzes the age old links between religion and violence perpetrated in the name of God and the role religion performs in politically infusing the state with romantic spiritualism The volume examines instances

of this phenomenon from ancient Rome to the modern day it finds that religion inspired violence is not restricted to Abrahamic faiths or to one geographic region The fact that symbolically charged religious violence has destructive consequences is not lost on contributors to Faith War and Violence Among the subjects tackled are the ideological and religious foundations that inspired the founders of Al Qaeda and its role in the Arab Spring the long history of religious conflict in Ireland known as the Troubles Sikh extremism and the evolution of the Christian approach to war As the contributors demonstrate in Western societies the unity of religious fervor and warmongering stretches from Constantine's incorporation of Christian symbols into Roman army flags to slogans like Gott mit uns God is with us which appeared on the belt buckles of German soldiers in World War I In recent years George W Bush declared the war on terror a crusade and his speechwriter David Frum coined the religiously inspired term Axis of Evil to describe Iraq and other countries opposing the United States

America and the Political Philosophy of Common Sense Scott Philip Segrest, 2009-12-01 From Aristotle to Thomas Jefferson seminal thinkers have declared common sense essential for moral discernment and civilized living Yet the story of commonsense philosophy is not well known today In *America and the Political Philosophy of Common Sense* Scott Segrest traces the history and explores the personal and social meaning of common sense as understood especially in American thought and as reflected specifically in the writings of three paradigmatic thinkers John Witherspoon James McCosh and William James The first two represent Scottish Common Sense and the third Pragmatism the schools that together dominated American higher thought for nearly two centuries Educated Americans of the founding period warmly received Scottish Common Sense Segrest writes because it reflected so well what they already thought and he uncovers the basic elements of American common sense in examining the thought of Witherspoon who introduced that philosophy to them With McCosh he shows the furthest development and limits of the philosophy and with it of American common sense in its Scottish realist phase With James he shows other dimensions of common sense that Americans had long embraced but that had never been examined philosophically Clearly Segrest's work is much more than an intellectual history It is a study of the American mind and of common sense itself its essential character and its human significance both moral and political It was common sense he affirms that underlay the Declaration of Independence and the founders' ideas of right and obligation that are still with us today Segrest suggests that understanding this foundation and James's refreshing of it could be the key to maintaining America's vital moral core against a growing alienation from common sense across the Western world Stressing the urgency of understanding and preserving common sense Segrest's work sheds new light on an undervalued aspect of American thought and experience helping us to perceive the ramifications of commonsense philosophy for dignified living

Classical Christianity and the Political Order Ernest L. Fortin, 1996-11-21 In Volume Two of Ernest Fortin's *Collected Essays* Fortin deals with the relationship between religion and civil society in a Christian context that of an essentially nonpolitical but by no means entirely otherworldly religion many of whose teachings were thought to be fundamentally at

odds with the duties of citizenship Sections focus upon Augustine and Aquinas on Christianity and politics natural law natural rights and social justice and Leo Strauss and the revival of classical political philosophy Fortin s treatment of these and related themes betrays a keen awareness of one of the significant intellectual events of our time the recovery of political philosophy as a legitimate academic discipline Communication: Breakdowns and Breakthroughs Anabel

Ternes,2019-01-04 This volume was first published by Inter Disciplinary Press in 2013 One cannot not communicate says one axiom of Paul Watzlawick and emphasizes that everything we do and everything we leave is a message to ones counterpart Where communication takes place conflict is close From minor misunderstandings to war from communication refusal to communication overload the combination of communication and conflict has different degrees of development Gadamer and the Question of the Divine Walter Lammi,2011-10-27 Gadamer and the Question of the Divine uncovers a neglected side of Gadamer s thought namely his life long concern with the question of the divine Not only is this an issue of fundamental importance to philosophical hermeneutics but it also contributes to what Gadamer considered to be the most urgent task of our time a conceptual dialogue among religions New grounds for toleration among communities must be found and Gadamer s study of the divine provides both a model and a starting place for doing so In setting forth a conceptual narrative for global dialogue about religious transcendence Gadamer is the pre eminent twentieth century philosopher of the divine Gadamer s study of the divine is an application of philosophical hermeneutics and phenomenological in its descriptions of temporality and the experience of art Walter Lammi shows how Gadamer provides us with a richly textured study of the divine that finds its bearings in Heidegger and the Greeks and suggests a path to questions of cosmology temporality and religious experience

Politics Reformed Glenn A. Moots,2010-06-09 Many studies have considered the Bible s relationship to politics but almost all have ignored the heart of its narrative and theology the covenant In this book Glenn Moots explores the political meaning of covenants past and present by focusing on the theory and application of covenantal politics from the sixteenth through the eighteenth centuries Moots demands that we revisit political theology because it served as the most important school of politics in early modern Europe and America He describes the strengths of the covenant tradition while also presenting its limitations and dangers Contemporary political scientists such as Eric Voegelin Daniel Elazar and David Novak are called on to provide insight into both the covenant s history and its relevance today Moots s work chronicles and critiques the covenant tradition while warning against both political ideology and religious enthusiasm It provides an inclusive and objective outline of covenantal politics by considering the variations of Reformed theology and their respective consequences for political practice This includes a careful account of how covenant theology took root on the European continent in the sixteenth century and then inspired ecclesiastical and civil politics in England Scotland and America Moots goes beyond the usual categories of Calvinism or Puritanism to consider the larger movement of which both were a part By integrating philosophy theology and history Moots also invites investigation of broader political traditions such as natural law and natural right

Politics Reformed demonstrates how the application of political theology over three centuries has important lessons for our own dilemmas about church and state. It makes a provocative contribution to understanding foundational questions in an era of rising fundamentalism and emboldened secularism inspiring readers to rethink the importance of religion in political theory and practice and the role of the covenant tradition in particular.

Philosophy Between the Lines Arthur M. Melzer, 2014-09-09 Shines a floodlight on a topic that has been cloaked in obscurity a landmark work in both intellectual history and political theory. The Wall Street Journal Philosophical esotericism the practice of communicating one's unorthodox thoughts between the lines was a common practice until the end of the eighteenth century. Despite its long and well documented history however esotericism is often dismissed today as a rare occurrence. But by ignoring esotericism we risk cutting ourselves off from a full understanding of Western philosophical thought. Walking readers through both an ancient Plato and a modern Machiavelli esoteric work Arthur M. Melzer explains what esotericism is and is not. It relies not on secret codes but simply on a more intensive use of familiar rhetorical techniques like metaphor irony and insinuation. Melzer explores the various motives that led thinkers in different times and places to engage in this strange practice while also exploring the motives that lead more recent thinkers not only to dislike and avoid this practice but to deny its very existence. In the book's final section A Beginner's Guide to Esoteric Reading Melzer turns to how we might once again cultivate the long forgotten art of reading esoteric works. The first comprehensive book length study of the history and theoretical basis of philosophical esotericism *Philosophy Between the Lines* is a treasure house of insight and learning. It is that rare thing an eye opening book. By making the world before Enlightenment appear as strange as it truly was Melzer makes our world stranger than we think it is. George Kateb Professor of Politics Emeritus at Princeton University Brilliant pellucid and meticulously researched City Journal

Politics and Apocalypse Robert Hamerton-Kelly, 2007-11-30 Apocalypse To most the word signifies destruction death the end of the world but the literal definition is revelation or unveiling the basis from which renowned theologian Ren Girard builds his own view of Biblical apocalypse. Properly understood Girard explains Biblical apocalypse has nothing to do with a wrathful or vengeful God punishing his unworthy children and everything to do with a foretelling of what future humans are making for themselves now that they have devised the instruments of global self destruction. In this volume some of the major thinkers about the interpretation of politics and religion including Eric Voegelin Leo Strauss and Carl Schmitt are scrutinized by some of today's most qualified scholars all of whom are thoroughly versed in Girard's groundbreaking work. Including an important new essay by Girard this volume enters into a philosophical debate that challenges the bona fides of philosophy itself by examining three supremely important philosophers of the twentieth century. It asks how we might think about politics now that the attacks of 9/11 have shifted our intellectual foundations and what the outbreak of rabid religion might signify for international politics.

The Natural Law Foundations of Modern Social Theory Daniel Chernilo, 2013-01-31 After several decades in which it became a prime target for critique universalism remains

one of the most important issues in social and political thought Daniel Chernilo reassesses social theory's universalistic orientation and explains its origins in natural law theory using an impressive array of classical and contemporary sources that include among others Habermas Leo Strauss Weber Marx Hegel Rousseau and Hobbes The Natural Law Foundations of Modern Social Theory challenges previous accounts of the rise of social theory recovers a strong idea of humanity and revisits conventional arguments on sociology's relationship to modernity the enlightenment and natural law It reconnects social theory to its scientific and philosophical roots its descriptive and normative tasks and its historical and systematic planes Chernilo's defense of universalism for contemporary social theory will surely engage students of sociology political theory and moral philosophy alike

Phenomenology 2005. Volume 5: Selected Essays from North America, part 1

Embree, Lester, Nenon, Thomas, 2007-01-01 *How World Politics is Made* Tilo Schabert, 2009 Dispelling the notion that François Mitterrand was reluctant to accept the reunification of Germany Schabert focuses on French diplomacy re-creating cabinet meetings and quoting communications between Mitterrand and other world leaders to show that Mitterrand's main concern was that a reunified Germany be firmly anchored in a unified Europe Provided by publisher

Etty Hillesum and the Flow of Presence Meins G. S. Coetsier, 2008 Although she died cruelly at Auschwitz at the age of twenty nine Etty Hillesum left a lasting legacy of mystical thought in her letters and diaries Hillesum was a complex and powerful witness to the openness of the human spirit to the call of God even under the most harrowing circumstances Her life was as much shaped by Hitler's regime as was that of philosopher Eric Voegelin and as Meins Coetsier reveals her thought lends itself to interpretation from a uniquely Voegelinian perspective Etty Hillesum and the Flow of Presence analyzes the life and writings of Hillesum from the standpoint of Voegelin's views on consciousness especially his philosophy of luminous participation in the transcendent ground of being Through a careful reading of her letters and diaries Coetsier reveals the inner development of Hillesum's mystically grounded resistance to Nazism as he guides readers through the symbolism of her spiritual journey making effective use of Voegelin's analytics of experience and symbolization to trace her path to spiritual truth Intertwining the lives works and visions of these two mystical thinkers Coetsier demonstrates his mastery of both Voegelin's philosophy and Hillesum's Dutch language materials He shows how mystical attunement to the flow of presence Voegelin's designation for human responsiveness to the divine is the key to the development of Hillesum's life and writings He displays a special affinity for the suffering and grace-filled transformation that she underwent as she approached the end of her life and gained insight into the ultimate purpose of each individual's contribution to the well being and maintenance of the human spirit Retrieving one of the lesser known but most compelling figures of the Holocaust Etty Hillesum and the Flow of Presence is an original contribution to both Voegelin and Hillesum scholarship that reflects these writers strong valuation of the human person It presents Hillesum's life and work in an original and provocative context shedding new light on her experiences and their symbolizations while further broadening the application of Voegelin's thought

The Revelation Worldview Jon K.

Newton,2015-02-06 Does Christianity have anything useful or credible to say to the twenty first century or is it just a relic of a past era doomed eventually to die a long and painful death perhaps to be replaced by the new atheism or another religion In an original contribution to such debates The Revelation Worldview is a bold attempt to construct a biblically based Christian worldview that makes sense to postmodern people It also seeks to make the book of Revelation one of the most strange and difficult books in the Bible relevant to issues facing people in the twenty first century Jon K Newton wrestles with the complex notion of worldview tells the story of the changing Western worldview from its ancient and medieval beginnings through the modern era and into the unpredictable world of postmodernism and compares the worldview found in Revelation with other worldviews of its day He then uses Revelation as a source for identifying some basic Christian answers to questions such as What is real How do we know anything How can religious knowledge claims be justified How can we understand the concept of the human person How can we make sense of history And how should we respond to pluralism

Christian Metaphysics and Neoplatonism Albert Camus,2007 Contemporary scholarship tends to view Albert Camus as a modern but he himself was conscious of the past and called the transition from Hellenism to Christianity the true and only turning point in history For Camus modernity was not fully comprehensible without an examination of the aspirations that were first articulated in antiquity and that later received their clearest expression in Christianity These aspirations amounted to a fundamental reorientation of human life in politics religion science and philosophy Understanding the nature and achievement of that reorientation became the central task of Christian Metaphysics and Neoplatonism Primarily known through its inclusion in a French omnibus edition it has remained one of Camus least read works yet it marks his first attempt to understand the relationship between Greek philosophy and Christianity as he charted the movement from the Gospels through Gnosticism and Plotinus to what he calls Augustine s second revelation of the Christian faith Ronald Srigley s translation of this seminal document helps illuminate these aspects of Camus work His freestanding English edition exposes readers to an important part of Camus thought that is often overlooked by those concerned primarily with the book s literary value and supersedes the extant McBride translation by retaining a greater degree of literalness Srigley has fully annotated Christian Metaphysics to include nearly all of Camus original citations and has tracked down many poorly identified sources When Camus cites an ancient primary source whether in French translation or in the original language Srigley substitutes a standard English translation in the interest of making his edition accessible to a wider range of readers His introduction places the text in the context of Camus better known later work explicating its relationship to those mature writings and exploring how its themes were reworked in subsequent books Arguing that Camus was one of the great critics of modernity through his attempt to disentangle the Greeks from the Christians Srigley clearly demonstrates the place of Christian Metaphysics in Camus oeuvre As the only stand alone English version of this important work and a long overdue critical edition his fluent translation is an essential benchmark in our understanding of Camus and his place in modern thought

Right here, we have countless book **Faith And Political Philosophy The Correspondence Between Leo Strauss And Eric Voegelin 1934 1964** and collections to check out. We additionally meet the expense of variant types and afterward type of the books to browse. The okay book, fiction, history, novel, scientific research, as well as various further sorts of books are readily genial here.
