*Faith in Exile* Joseph T. Kelley, A gentle but challenging companion for those who feel for whatever reason displaced from their church and exiled from their rightful relationship with God      **The Sacred Place of Exile** Carla

Brewington,2013-02-01 The person of exile may be considered a wanderer a nomad a refugee or a rebel People of exile can be the marginalized the disenfranchised the outcast the left out and the pushed away Different terms are used but what defines them all is separation Exile is a dangerous and dominant theme that runs through Scripture through the lives of the people of Israel and through the universal church Women who have known the sacred place of exile are uniquely qualified to form a women s mission The case is made for a momentum shift in missiological thinking There is a desperate and aching need for a women s mission which could lead the way to a women s missionary movement The emergence of such a mission movement is indeed fraught with skepticism and suspicion from many of those inside the church and leaders in the missionary world But the radical disruptive costly following of Jesus to those outside the camp is our calling      **101**

**Questions & Answers on Prayer** Joseph T. Kelley,2008 People have prayed since the beginnings of human culture But what exactly is prayer 101 Questions and Answers on Prayer introduces readers to the nature and experience of prayer Using the ancient understanding of prayer as lifting heart and mind to God the author answers questions about prayer and the difficulties people may encounter in praying 101 Questions and Answers on Prayer offers clear and practical answers to these questions and many many more providing an excellent introduction to the theology and practice of prayer for all seekers whatever their age or their level of spiritual development BOOK JACKET      **Augustine and the Environment** John

Doody,Kim Paffenroth,Mark Smillie,2016-09-30 This volume brings into dialogue the ancient wisdom of Augustine of Hippo a bishop of the early Christian Church of the fourth and fifth centuries with contemporary theologians and ethicists on the topic of the environment and humanity s place in and responsibility to it The contributors vary widely in their estimation of how sustained and useful such a dialogue might be from outright dismissal of the church father to extended speculation with him and in his spirit Their conclusions impact our views of God and both human and non human creation Such engagement should influence any future discussion of how Christianity and environmentalism can interact or influence one another
