Motherhood, Religion, and Society in Medieval Europe, 400-1400 Lesley Smith, Conrad Leyser, 2016-04-22 Who can concentrate on thoughts of Scripture or philosophy and be able to endure babies crying Will he put up with the constant muddle and squalor which small children bring into the home The wealthy can do so but philosophers lead a very different life So according to Peter Abelard did his wife Heloise state in characteristically stark terms the antithetical demands of family and scholarship Heloise was not alone in making this assumption Sources from Jerome onward never cease to remind us that the life of the mind stands at odds with life in the family For all that we have moved in the past two generations beyond kings and battles fiefs and barons motherhood has remained a blind spot for medieval historians Whatever the reasons the result is that the historiography of the medieval period is largely motherless The aim of this book is to insist that this picture is intolerably one dimensional and to begin to change it The volume is focussed on the paradox of motherhood in the European Middle Ages to be a mother is at once to hold great power and by the same token to be acutely vulnerable The essays look to analyse the powers and the dangers of motherhood within the warp and weft of social history beginning with the premise that religious discourse or practice served as a medium in which mothers and others could assess their situation defend claims and make accusations Within this frame three main themes emerge survival agency and institutionalization The volume spans the length and breadth of the Middle Ages from late Roman North Africa through ninth century Byzantium to late medieval Somerset drawing in a range of types of historian including textual scholars literary critics students of religion and economic historians The unity of the volume arises from the very diversity of approaches within it all addressed to the central topic

Faith and Fortune in the Creation of Our Modern World Jan Vlieg,2024-04-19 This book describes how our modern world came into being as a consequence of a series of accidental events unfolding in Europe from the 5th century onwards The events that led to Europe s success such as a competitive state system the rise of modern science and modern law individualism and the capture of the Americas were coincidental They were unsought unintended and unexpected The book discredits the Eurocentric idea that our advanced civilization is a consequence of cultural values inherent to Europeans such as rational thinking frugality hard work and honesty Modern industrial society which arrived in the span of a century after 50 agricultural centuries is a fluke of history It came as an explosion of technological breakthroughs in the 19th century turning the world European when its technology and economic political and cultural consequences quickly spread all over the planet This book argues that our modern advanced civilization is unique and is unlikely to be found anywhere else in the universe

Battles and Book Reviews *On Faith, Rationality, and the Other in the Late Middle Ages* Gergely Tibor Bakos, 2011-01-01
On Faith Rationality and the Other in the Late Middle Ages is an investigation of Nicholas of Cusa that seeks a deeper understanding of this important medieval intellectual and his importance for us today One of Gergely Bakos s primary aims in this study is to understand Nicholas of Cusa s important and underexamined dimensions of his approach to dialogue with Islam The framework and the methodology that informs this investigation was inspired by the late Professor Jos Decorte 1954-2001 a Flemish philosopher and mediaevalist at the Catholic University of Leuven in Belgium Bakos carefully expounds his method of approaching medieval thought Part One and then applies and tests this method in practice Part Two The most extensive part of this study offers a sketch of the historical background of Nicholas s dialogue with Islam and investigates what possibilities this approach offers All of this is placed in dialogue with two other mediaeval approaches to Islam Thomas Aquinas and Ramon Lull The final chapters discuss Nicholas of Cusa s project from a perspective offered by his mystical theology The book culminates in an exploration of the possibilities of Nicholas of Cusa s approach by testing the framework of the study Finally the author evaluates the application of his own approach Part Three The study ultimately has two purposes to contribute to a better understanding of Nicholas of Cusa s thought on the one hand and on the other to test a particular methodology and interpretative framework for the understanding of mediaeval culture *Music and Faith*
