Faith In Their Own Color Black Episcopalians In Antebellum New York City:

Faith in Their Own Color Craig D. Townsend, 2005-10-26 On a September afternoon in 1853 three African American men from St Philip's Church walked into the Convention of the Episcopal Diocese of New York and took their seats among five hundred wealthy and powerful white church leaders Ultimately and with great reluctance the Convention had acceded to the men's request official recognition for St Philip's the first African American Episcopal church in New York City In *Faith in Their Own Color* Craig D Townsend tells the remarkable story of St Philip's and its struggle to create an autonomous and independent church His work unearths a forgotten chapter in the history of New York City and African Americans and sheds new light on the ways religious faith can both reinforce and overcome racial boundaries Founded in 1809 St Philip's had endured a fire a riot by anti abolitionists that nearly destroyed the church and more than forty years of discrimination by the Episcopalian hierarchy In contrast to the majority of African Americans who were flocking to evangelical denominations the congregation of St Philip's sought to define itself within an overwhelmingly white hierarchical structure Their efforts reflected the tension between their desire for self determination on the one hand and acceptance by a white denomination on the other The history of St Philip's Church also illustrates the racism and extraordinary difficulties African Americans confronted in antebellum New York City where full abolition did not occur until 1827 Townsend describes the constant and complex negotiation of the divide between black and white New Yorkers He also recounts the fascinating stories of historically overlooked individuals who built and fought for St Philip's including Rev Peter Williams the second African American ordained in the Episcopal Church Dr James McCune Smith the first African American to earn an M D pickling magnate Henry Scott the combative priest Alexander Crummell and John Jay II the grandson of the first chief justice of the Supreme Court and an ardent abolitionist who helped secure acceptance of St Philip's [Mission, Race, and Empire](#)

Jennifer C. Snow, 2023 *Mission Race and Empire* presents a new history of the Episcopal Church from its origins in the early British Empire up to the present told through the lenses of empire and race Jennifer Snow centers the stories of groups and individuals that have often been sidelined including Native Americans Black Americans Asian Americans women and LGBTQ people as well as the institutional leaders who sought to create or fought against a church that desired to be a house of prayer for all people [Dividing the Faith](#)

Richard J Boles, 2020-12-29 Uncovers the often overlooked participation of African Americans and Native Americans in early Protestant churches Phillis Wheatley was stolen from her family in Senegambia and in 1761 slave traders transported her to Boston Massachusetts to be sold She was purchased by the Wheatley family who treated Phillis far better than most eighteenth century slaves could hope and she received a thorough education while still of course longing for her freedom After four years Wheatley began writing religious poetry She was baptized and became a member of a predominantly white Congregational church in Boston More than ten years after her enslavement began some of her poetry was published in London England as a book titled *Poems on Various Subjects Religious and Moral* This book is

evidence that her experience of enslavement was exceptional Wheatley remains the most famous black Christian of the colonial era Though her experiences and accomplishments were unique her religious affiliation with a predominantly white church was quite ordinary Dividing the Faith argues that contrary to the traditional scholarly consensus a significant portion of northern Protestants worshipped in interracial contexts during the eighteenth century Yet in another fifty years such an affiliation would become increasingly rare as churches were by and large segregated Richard Boles draws from the records of over four hundred congregations to scrutinize the factors that made different Christian traditions either accessible or inaccessible to African American and American Indian peoples By including Indians Afro Indians and black people in the study of race and religion in the North this research breaks new ground and uses patterns of church participation to illuminate broader social histories Overall it explains the dynamic history of racial integration and segregation in northern colonies and states

Prichard, 2014-10-01 This thorough carefully researched history sets church events against the background of social changes This third revised edition will be up to date through the events of the 2012 General Convention of the Episcopal Church

Prince of Darkness Shane White,2015-10-13 A well told stereotype busting tale about a nineteenth century black financier who dared to be larger than life and got away with it Elizabeth Dowling Taylor New York Times bestselling author In the middle decades of the nineteenth century Jeremiah G Hamilton was a well known figure on Wall Street Cornelius Vanderbilt America s first tycoon came to respect grudgingly his one time opponent Their rivalry even made it into Vanderbilt s obituary What Vanderbilt s obituary failed to mention perhaps as contemporaries already knew it well was that Hamilton was African American Hamilton although his origins were lowly possibly slave was reportedly the richest black man in the United States possessing a fortune of 2 million or in excess of two hundred and 50 million in today s currency In *Prince of Darkness* a groundbreaking and vivid account eminent historian Shane White reveals the larger than life story of a man who defied every convention of his time He wheeled and dealed in the lily white business world he married a white woman he bought a mansion in rural New Jersey he owned railroad stock on trains he was not legally allowed to ride and generally set his white contemporaries teeth on edge when he wasn t just plain outsmarting them An important contribution to American history Hamilton s life offers a way into considering from the unusual perspective of a black man subjects that are usually seen as being quintessentially white totally segregated from the African American past If this Hamilton were around today he might have his own reality TV show or be a candidate for president An interesting look at old New York race relations and high finance New York Post

York's free blacks were extremely politically active lobbying for equal rights at home and an end to Southern slavery As their activism increased so did discrimination against them most brutally illustrated by bloody attacks during the 1863 New York City Draft Riots The struggle for civil rights did not extend to equal gender roles and black male leaders encouraged women to remain in the domestic sphere serving as caretakers moral educators and nurses to their families and community Yet as Jane E Dabel demonstrates separate spheres were not a reality for New York City's black people who faced dire poverty a lopsided sex ratio racialized violence and a high mortality rate all of which conspired to prevent men from gaining respectable employment and political clout Consequently many black women came out of the home and into the streets to work build networks with other women and fight against racial injustice A Respectable Woman reveals the varied and powerful lives led by black women who despite the exhortations of male reformers occupied public roles as gender and race reformers

Evangelical Gotham Kyle B. Roberts, 2016-11-07 At first glance evangelical and Gotham seem like an odd pair What does a movement of pious converts and reformers have to do with a city notoriously full of temptation and sin More than you might think says Kyle B Roberts who argues that religion must be considered alongside immigration commerce and real estate scarcity as one of the forces that shaped the New York City we know today In *Evangelical Gotham* Roberts explores the role of the urban evangelical community in the development of New York between the American Revolution and the Civil War As developers prepared to open new neighborhoods uptown evangelicals stood ready to build meetinghouses As the city's financial center emerged and solidified evangelicals capitalized on the resultant wealth technology and resources to expand their missionary and benevolent causes When they began to feel that the city's morals had degenerated evangelicals turned to temperance Sunday school prayer meetings antislavery causes and urban missions to reform their neighbors The result of these efforts was *Evangelical Gotham* a complicated and contradictory world whose influence spread far beyond the shores of Manhattan Winner of the 2015 Dixon Ryan Fox Manuscript Prize from the New York State Historical Association

Black Girlhood in the Nineteenth Century Nazera Sadiq Wright, 2016-09-08 Long portrayed as a masculine endeavor the African American struggle for progress often found expression through an unlikely literary figure the black girl Nazera Sadiq Wright uses heavy archival research on a wide range of texts about African American girls to explore this understudied phenomenon As Wright shows the figure of the black girl in African American literature provided a powerful avenue for exploring issues like domesticity femininity and proper conduct The characters' actions however fictional became a rubric for African American citizenship and racial progress At the same time their seeming dependence and insignificance allegorized the unjust treatment of African Americans Wright reveals fascinating girls who possessed of a premature knowing and wisdom beyond their years projected a courage and resiliency that made them exemplary representations of the project of racial advance and citizenship

Historically African American communities were marked by a strong sense of community promoted by limited resources and racial segregation However with integration African American populations grew less concentrated in the same areas and this population of people began to rely less on each other In an effort to attain equality which still at times feels elusive and challenged the sense of community and impact of education once prevalent among African Americans has suffered Fostering Collaborations Between African American Communities and Educational Institutions is a pivotal reference source that explores pre segregation experiences of community and education as well as the changes among HBCUs and public education in predominately African American and poor areas The book sheds light on the relationship between racial and educational disparities and reveals the impact of community and cultural co dependence in moving

African Americans toward a more socially equitable place within American culture Covering topics such as the achievement gap community relationships and teacher education this publication is ideally designed for educators higher education faculty HBCUs researchers policymakers non profit organizers historians sociologists academicians and students *From a Far Country* Catharine Randall,2011 In *From a Far Country* Catharine Randall examines Huguenots and their less known cousins the Camisards offering a fresh perspective on the important role these French Protestants played in settling the New World The Camisard religion was marked by more ecstatic expression than that of the Huguenots not unlike differences between Pentecostals and Protestants Both groups were persecuted and emigrated in large numbers becoming participants in the broad circulation of ideas that characterized the seventeenth and eighteenth century Atlantic world Randall vividly portrays this French Protestant diaspora through the lives of three figures Gabriel Bernon who led a Huguenot exodus to Massachusetts and moved among the commercial elite Ez chiel Carr a Camisard who influenced Cotton Mather s theology and Elie Neau a Camisard influenced writer and escaped galley slave who established North America s first school for blacks Like other French Protestants these men were adaptable in their religious views a quality Randall points out as quintessentially American In anthropological terms they acted as code shifters who manipulated multiple cultures While this malleability ensured that French Protestant culture would not survive in externally recognizable terms in the Americas Randall shows that the culture s impact was nonetheless considerable
