Faith Of An Historian Other Essays:

The Faith of an Historian James T. Shotwell, 1964 **Faith and the Philosophy of History** Martin Wight, 2025-02-25

This book collects works by the late Professor Martin Wight 1913 1972 an historian and scholar of international relations Wight conducted research on many topics including British colonial history European studies international institutions and the history of states systems He is nonetheless best known for his lectures about the political philosophy of international relations at the London School of Economics 1949 1961 and the University of Sussex 1961 1972 He is widely regarded as an intellectual ancestor and pathbreaker of the English School of international relations even though this term only gained currency nine years after his death While there is no generally accepted definition of the English School it is usually construed as signifying an approach to the study of international relations more rooted in historical and humanistic learning than in the social sciences Wight's achievements are consistent with this broad definition This volume draws together a number of Wight's published works as well as many of his previously unpublished obscurely published and anonymous writings about faith and the philosophy of history Owing to his premature death at the age of 58 he was unable to complete several works in progress partly because his perfectionism led him to refrain from publishing many of them *Faith and the Historian* Nick Salvatore, 2010-10-01 *Faith and the Historian* collects essays from eight experienced historians discussing the impact of being touched by Catholicism on their vision of history That first graduate seminar these essays suggest did not mark the inception of one's historical sensibilities rather that process had deeper and earlier roots The authors ranging from cradle to the grave Catholics to those who haven't practiced for forty years and everywhere in between explicitly investigate the interplay between their personal lives and beliefs and the sources of their professional work A variety of heartfelt illuminating and sometimes humorous experiences emerge from these stories of intelligent people coming to terms with their Catholic backgrounds as they mature and enter the academy Contributors include Philip Gleason David Emmons Maureen Fitzgerald Joseph A McCartin Mario T Garcia Nick Salvatore James R Barrett and Anne M Butler **The Faith of an Historian, and Other Essays ... An Anthology ... Selected and Arranged by Leo Perla and Helen H. Shotwell. [With a Portrait.].** James Thomson SHOTWELL, Leo Perla, Helen Harvey SHOTWELL, 1964 *Faith and Reason Through Christian History* Grant Kaplan, 2022-08-29 It is impossible to understand the history of Christian theology without taking into account the relationship between faith and reason Many works give an overview of faith and reason or outline key principles while others put forward a thesis about how one should understand the relationship between faith and reason In this theological essay Grant Kaplan revisits the key figures and debates that shape how faith and reason relate Divided into three parts Kaplan invites readers into a conversation rather than a drive by Readers will encounter the words and arguments of some of Christianity's greatest thinkers some well known Augustine Aquinas Newman and others nearly forgotten Readings of these figures bring them to life in an accessible manner In *Faith and Reason through Christian History* the roughly fifty figures

treated are given sufficient room to breathe Rather than simply summarizing their thought Kaplan traces their arguments through key texts This book will appeal to a range of audiences theologians and philosophers instructors graduate students seminarians lay study groups and undergraduate theology majors No book today accomplishes what this book does **Good Faith and Other Essays** Joseph S. Catalano, 1996 Noted scholar Joseph S Catalano here brings together his new work on Sartre's ethics with five of his classic essays on Sartre's moral thought In an extended opening essay Catalano uses Sartre's notion of mediation as a means to integrate the entire range of the French philosopher's moral insights In the second half of the book Catalano attempts to delineate a viable notion of good faith and to distinguish between good and bad faith on the one hand and authenticity and inauthenticity on the other hand *Faith at the Intersection of History and Experience* Brent A. R. Hege, 2009-01-01 This present study is the first in English Georg Wobbermin 1869-1943 who has been called a captain of the liberal rearguard Widely read and discussed in his own lifetime Wobbermin's theology fell into obscurity as dialectical theology rose to prominence in the years following the First World War *Faith at the Intersection of History and Experience* presents the major themes of Wobbermin's theology particularly his analysis of the relationship between faith and history and his development of a religious psychological theological method that places faith at the intersection of history and experience Wobbermin's critiques of recent and contemporary approaches to the problem of faith and history and his attention to theological method reveal a sustained effort to continue what he called the Luther-Kant-Schleiermacher line of Protestant theology The consistent emphasis in Wobbermin's theology is on the systematic interrelation of objectivity and subjectivity an approach he considered to be a faithful continuation of the Reformation but one that invited conflict with the dialectical theologians chiefly Karl Barth Wobbermin's debates with Barth on issues of method reveal a vibrant and sophisticated liberal theology co-existing with the dialectical theology that is conventionally assumed to have eclipsed it over a decade earlier Building on work that has been done primarily in German this study of one of the forgotten theologians of the early twentieth century appears as more German British and American theologians and historians are returning to this period of theology with renewed interest and fresh questions and it addresses an often neglected period of modern Protestant thought in histories currently available in English **The History of Freedom, and Other Essays** John Emerich Edward Dalberg Acton, 2022-05-28 In *The History of Freedom and Other Essays* John Emerich Edward Dalberg Acton Baron Acton explores the complex interplay between liberty morality and history This collection of essays is characterized by Acton's analytical rigor and eloquent prose as he articulates a vision of freedom that transcends mere political structures Drawing upon historical figures and events Acton weaves a narrative that challenges the reader to consider freedom not just as a political ideal but as a moral imperative The essays are situated within the broader context of 19th century liberal thought engaging with contemporary debates about democracy authority and the responsibilities of individuals in a free society Baron Acton was a prominent historian and moral philosopher known for his deep commitment to

liberalism and the study of history as a means of understanding moral progress His famous assertion that power tends to corrupt and absolute power corrupts absolutely reflects his cautious view on authority and liberty Acton's scholarly background combined with his activism in promoting liberalism and historical inquiry significantly shaped his approach to these essays which delve into the philosophical underpinnings of freedom and its historical manifestations Readers drawn to themes of freedom history and morality will find Acton's work insightful and thought provoking The History of Freedom and Other Essays serves as a rich resource for anyone interested in the foundations of modern democratic thought urging them to reflect critically on the ongoing struggle for liberty and the ethical implications of power This collection is an essential read for scholars and general readers alike enriching our understanding of freedom's place in both history and contemporary discourse

Credit and Faith Philip Goodchild, 2019-11-12 In line with the development of political theology and economic theology in contemporary European thought Credit and Faith offers a critical account of the faith structures within economic life and institutions Goodchild's ground breaking work provides a philosophical appropriation of the economic dimension of the New Testament and fresh theological philosophical and economic perspectives on the present Covering the theological roots of the way economic life was and is articulated the philosophical roots of value and debt and the economic roots of credit and creation this book charts the emergence of early theories of capital and banking through a consideration of credit It draws on some neglected historical figures as well as Jules Lagneau Simone Weil the Kantian problem of freedom and necessity and a critical reading of the early Marx and of Nietzsche's genealogy through this Goodchild explains how the Financial Revolution was able to conceal the credit economy which was its foundation and foster the pursuit of self interest instead of the common good This innovative interweaving of theology philosophy and economics constructs a new metaphysical framework for a critical account of the faith structures within economic life and institutions and returns to the
