Beyond Choice Alexander Sanger, 2005-07-06 Thirty years after Roe v Wade the argument between pro choicers and pro lifers has reached stalemate Pro choice arguments haven t persuaded a comfortable majority that legal abortion is vital to our society nor addressed our moral qualms Younger people are less and less supportive of reproductive rights Since 1996 state legislatures have enacted nearly 300 pieces of anti choice legislation With Roe in jeopardy

International Planned Parenthood Council Chair Alexander Sanger asks a simple but heretical question How many more pieces of anti choice legislation will it take to get the pro choice movement to rethink its approach to the issue In *Beyond Choice* Sanger explores the history of the reproductive rights movement to discover how it got stuck in its thinking and then provides a convincing new argument for the moral rightness of its cause He shows why it is vital to the health and survival of the human race that couples be able to have children or not when they choose why reproductive rights are just as important to men as to women and why in an era of new reproductive technologies completely unfettered choice is not morally defensible *Beyond Choice* is inspiring and important reading for women s rights advocates opinion leaders medical ethicists and anyone concerned to preserve our freedom to reproduce or not without government intervention **Public Theology for the 21st Century** Duncan B. Forrester, William Storrar, Andrew Morton, 2004-01-01 The book is a unique stocktaking by a leading international group of theologians social scientists and other scholars on issues facing public theology at the beginning of the 21st century It combines retrospect and prospect in that it reflects on the issues and approaches that have characterized public theology in the 20th century especially its latter half and attempts to anticipate those which will or should come to the fore in the 21st century seeking to discern continuities and changes Three opening chapters deal with the overall theme of public or political theology with Jurgen Moltmann giving a critical historical account from the Second World War onwards Raymond Plant relating such theology to cultural pluralism and Andrew Morton illustrating it from the work of Duncan Forrester These are followed by pairs of contributions relating public theology to more specific topicsr History Technology and Creation Globalization Spirituality Punishment and Forgiveness Medical Ethics Tolerance and Human Rights Social Exclusion and Equality *1000 Ideas to Survive in the 21st Century* David Izquierdo Achalandabaso, 2023-09-18 This book intends on inspiring a global movement focused on both the individual and collective wellbeing of all human beings It looks to help you develop your full potential so that you can then have a positive impact on your environment and the lives of others From a singular perspective it will allow you to have a new take on the current problems of humanity Thinking about them in a way you d never thought about them before After reading this book you will see the world through a different lens We all know everything but we never put it into practice does this sound like a familiar experience I offer you some original and easy tools to understand and resolve your daily problems Starting with basic concepts such as perspective hyperreality and self responsibility We ll analyze the current problems with a complete perspective observing the past present and future of topics such as work mental health social networks environmentalism feminism sex family money governments as well as the ideas and values of this globalized world A humanistic vision of reality helping you to value yourself value others and value how much or how little you have 1000 reflections to combat the current global pessimism that is unfairly making humans the most undervalued brand in history Let s make a brand Shall we do it together *The Ethics of Citizenship in the 21st Century* David Thunder, 2017-03-08 This collection of essays offers thoughtful discussions of major challenges

confronting the theory and practice of citizenship in a globalized socially fragmented and multicultural world The traditional concept of citizenship as a shared ethnic religious and or cultural identity has limited relevance in a multicultural world and even the connection between citizenship and national belonging has been put in jeopardy by increasing levels of international migration and mobility not to mention the pervasive influence of a global economy and mass media whose symbols and values cut across national boundaries Issues addressed include the ethical and practical value of patriotism in a globalized world the standing of conscience claims in a morally diverse society the problem of citizen complicity in national and global injustice and the prospects for a principled acceptance by practising Muslims of a liberal constitutional order In spite of the impressive diversity of philosophical traditions represented in this collection including liberalism pragmatism Confucianism Platonism Thomism and Islam all of the volume s contributors would agree that the crisis of modern citizenship is a crisis of the ethical values that give shape form and meaning to modern social life This is one of the few edited volumes of its kind to combine penetrating ethical discussion with an impressive breadth of philosophical traditions and approaches Chapters What is the use of an Ethical Theory of Citizenship and An Ethical Defense of Citizenship are available open access under a Creative Commons Attribution 4 0 International License via link springer.com
