**Faith, Freedom, and Higher Education** P. C. Kemeny, 2013-03-11 While debates abound today over the cost purpose and effectiveness of higher education often lost in this conversation is a critical question Should higher education attempt to shape students moral and spiritual character in any systematic manner as in the past or focus upon equipping students with mere technical knowledge Faith Freedom and Higher Education argues that Christianity can still play an important role in contemporary American higher education George M Marsden D G Hart and George H Nash among its authors analyze the debate over the secularization of the university and the impact of liberal Protestantism and fundamentalism on the American academy during the twentieth century Contributors also assess how the ideas of Dorothy Sayers C S Lewis Wendell Berry and Allan Bloom can be used to improve Christian higher education Finally the volume examines the contributions Christian faith can make to collegiate education and outlines how Christian institutions can preserve their religious mission while striving for academic excellence

Adrian,1997 This is a print on demand book and is therefore non returnable This timely look at the state of Christian higher education in America contains descriptive historical narratives that explore how fourteen Christian colleges and universities are successfully integrating faith and learning on their campuses despite the challenges posed by the increasingly pluralistic nature of modern culture Written by respected representatives from seven major faith traditions Roman Catholic Lutheran Reformed Mennonite Evangelical Wesleyan Holiness and Baptist Restorationist these narratives are also preceded by introductory essays that define the worldview and theological heritage of each given tradition and ask what that tradition can contribute to the task of higher education     Consider No Evil Brandon G. Withrow,Menachem Wecker,2014-07-10 Even casual acquaintances of the Bible know that the Truth shall set you free but in the pursuit of that Truth in higher education particularly in Christian or Jewish seminaries there are often many casualties suffered along the way What happens when faculty and students at religious academies butt heads with senior staff or dare to question dogmas or sacred cows that the institution cherishes Consider No Evil examines seminaries affiliated with two faith traditions Christian and Jewish and explores the challenges as well as prospective solutions confronting those religious academies when they grapple with staying true to their traditions as they interpret them while providing an arena that incubates honest and serious scholarship     **Christ-Centered Higher Education** David L. McKenna,2012-09-12 If the Christ centered college or university did not exist would it have to be invented Back in the 1950s the answer was in doubt With few exceptions Christian colleges wallowed in defensive self doubt and divisive competition while under attack from the rising public sector Students of American higher education predicted that they would soon become as extinct as the whooping crane Rather than succumbing to doomsayers leaders in Christian higher education bonded together around the commanding truth that all things come together in Jesus Christ They drove their stake for the future in the integration of faith and learning as the reason for the existence of Christ centered higher education Out of this commitment came a renaissance movement of common cause and unprecedented cooperation through the Consortium of Christian Colleges and the Council for Christian Colleges Universities Will integration continue to be the energizing and all pervasive influence that gives the Christ centered institution its reason for existence Trustees presidents deans and faculties in each generation must think and rethink the concept in the light of theological academic technological

and cultural change David McKenna opens the conversation by remembering where we were confirming who we are and envisioning what we can be      *Remixed and Reimagined* J.T. Educating for Faith and Justice Thomas P. Rausch, 2010-01-01 Catholic colleges and universities play a crucial role in handing on a rich faith tradition to young adults today As these institutions have become more professional and pluralistic many are asking how effective they are at carrying out the religious mission which is central to their identity Are Catholic colleges and universities significantly different from less expensive state institutions or from other private colleges and universities Are they still committed to the search for truth which is really the search for God Thomas Rausch an eminent educator is a Catholic priest long interested in Catholic theology as a work of the church not just of the academy He insists we must also ask of Catholic higher education today Does it truly form students in the faith that does justice or does it simply speed their passage into successful corporate lifestyles Does it help students come to a personal encounter with the divine mystery revealed in Jesus Keeping these questions before them Rausch and five other contributors to this volume provide wisdom insight and concrete examples of how Catholic higher education can indeed foster faith that leads to a more just world Thomas P Rausch SJ is the T Marie Chilton Professor of Catholic Theology at Loyola Marymount University in Los Angeles He is author of numerous books including I Believe in God A Reflection on the Apostles Creed Being Catholic in a Culture of Choice and Towards a Truly Catholic Church Liturgical Press

*Christian Faith and Scholarship: An Exploration of Contemporary Developments* Todd C. Ream, Perry Lynn Glanzer, 2007-09-17 In the twenty first century religious faith has reemerged from the margins of modernism and moved back to the center of contemporary scholarly conversations When Jacques Derrida died Stanley Fish recently wrote I was called by a reporter who wanted to know what would succeed high theory and the triumvirate of race gender and class as the center of intellectual energy in the academy I answered like a shot religion A group of evaluators of the Lilly Endowment's Initiative on Religion and Higher Education recently agreed There is today more discussion about the role of religion in the academy than at any time in the past 40 years and more commitment to the project of Christian higher education than there was just ten

years ago In recognition of these developments this particular monograph offers an overview of the various ways conversations about religion and religiously informed scholarship are increasing in the academy Although a growing number of faith traditions are finding their place in this conversation the Christian tradition in its various forms is still the dominant voice This monograph addresses the history of secularization in American higher education and scholarship the historical and resistance by dominant religious traditions to that secularization the contemporary ways that individual scholars networks and institutions approach the question of religious faith and scholarship the concerns such a question raises for academic freedom and the relationship between religious faith and scholarship      **Shaping a Christian Worldview** David S.

Dockery, Gregory Alan Thornbury, 2002 *Shaping a Christian Worldview* presents a collection of essays that address the key issues facing the future of Christian higher education With contributions from key players in the field this book addresses the critical issues for Christian institutions of various traditions as the new century begins to leave its indelible mark on education      *The Christian Academic in Higher Education* John Sullivan, 2018-01-23 This book offers a Christian

engagement with the realities of academic life and work Examining this topic from intellectual institutional and spiritual perspectives the author explores how the two identities as a Christian and an academic can both coexist and complement one another The author provides a road map for academics demonstrating the interaction between religious faith and the responsibilities challenges and opportunities of university scholarship and teaching Addressing questions such as the contentious nature of religious faith in the university environment the expression of faith within the role of professor and the consequences of consecrating oneself to learning this pioneering and practical volume will be relevant to Christian scholars in any academic discipline      **Building Catholic Higher Education** Christian Smith, John C. Cavadini, 2014-07-29

American Catholic universities and colleges are wrestling today with how to develop in ways that faithfully serve their mission in Catholic higher education without either secularizing or becoming sectarian Major challenges are faced when trying to simultaneously build and sustain excellence in undergraduate teaching strengthen faculty research and publishing and deepen the authentically Catholic character of education This book uses the particular case of the University of Notre Dame to raise larger issues to make substantive proposals and thus to contribute to a national conversation affecting all Catholic universities and colleges in the United States and perhaps beyond today Its arguments focus particularly on challenging questions around the recruitment hiring and formation of faculty in Catholic universities and colleges

**Teaching as Believing** Chris Anderson, 2004 The public university classroom is a place where socialization still occurs it is where students learn to be citizens of the world Having attended to political correctness and multi culturalism universities are now facing the issue of spirituality in their quest to educate the whole person In this book Chris Anderson takes up this task by carefully exploring how a professor of faith can help a public university accomplish its pluralistic mission Anderson illustrates how the study of secular literature throws fresh light on the ways in which the Bible can be read He also deftly

shows how a sympathetic study of the Bible trains secular readers for understanding the abiding significance of the Western literary canon as a kind of scripture Anderson thus gives readers a book that is as much about the experience of a faithful teacher and the proper ends of education as it is about discovering the right ways to read texts be they sacred or secular

**The American University in a Postsecular Age** Douglas Jacobsen, Rhonda Jacobsen, 2008-02-27 For much of the twentieth century it was assumed that higher education was and ought to be a secular enterprise but that approach no longer suffices The culture has shifted and contemporary college and university students are increasingly bringing religious and spiritual questions to campus In response college and university leaders are exploring anew the relationship between religion and higher education The American University in a Postsecular Age grapples with key questions How religious or irreligious are faculty and students today What level of religious literacy should be expected from students Can religion be allowed into the classroom without being disruptive Should colleges and universities help students reflect on their own faith Is religion antithetical to critical inquiry Can religion have a positive role to play in higher education This is a state of the art introduction to the national discussion about religion and higher education Leading scholars and top educators express a wide spectrum of opinions that reflect the best current thinking Introductory and concluding essays by the editors describe the postsecular character of our age and propose a comprehensive framework intended to facilitate ongoing conversation
