Subject Catalog Library of Congress,1980      **Subject Catalog, 1980** Library of Congress,1980      Search for Faith and Justice in the Twentieth Century Gene James,1987      **Living Hope** David H. Jensen,2010-01-01

Eschatology the theological name for the study of the endtime often conjures up frightening concepts of the rapture the final judgment heaven and hell Armageddon and the anti Christ Author David Jensen s theological approach offers a brighter perspective on the end time as a time of hope when Christians will see the full glory of the Kingdom of God the resurrection of the body and Christ s promised return

**Woven Together** James S. Mastaler,2019-04-17 Now more than ever it s critical that religious stories encompass a call to moral responsibility for the earth and to the global poor But the divorce between religious faith and science has left many people feeling unmoored and adrift at a time when we ought to be drawing closer to nature and each other It is a theological activity to see the world as it really is to look its suffering squarely in the face and tend to a wounded world The global poor especially women among them are some of the world s most disenfranchised people Their realities must inform the conversations about God and the world that people of faith are having in the church There is no salvation from the world only salvation with the world This means learning to live as a member of a community of mutual responsibility to look inward and ask ourselves how we might turn outward and live differently Concern for nature and social justice must become a central part of Christian moral life

*The Political Crisis and Christian Ethics* Ronald H. Stone,2023-09-26 The Political Crisis and Christian Ethics addresses themes in political

philosophy in the context of a crisis in democracy after the denial of the 2020 election by the Republican candidate for president. The refusal to accept the results of the election divided the electorate and drove the president's followers to fail in their attempted coup attempt in January of 2020. Democracy is defended in Reinhold Niebuhr's writing on politics and in Barack Obama's use of the theologian's thought. It is developed further in the political theory of Paul Tillich. The themes of just peacemaking are reviewed in Paul Tillich's critique of John Foster Dulles' work and in the author's critique of just peacemaking in the work of Glen Stassen. Domestically, the issues of race inequality, ecology, and healthcare are addressed from the perspective of prophetic realism. The book concludes in terms of Alfred North Whitehead's philosophy of education and religion and a vision of the good president. In summary, *The Political Crisis and Christian Ethics* is a volume of American Christian political theory in a period of overcoming the trauma of 2016 with Christian ethics and political philosophy.
