Faith And Moral Authority:

Faith and Moral Authority Ben Kimpel, 1953 *Faith And Moral Authority* Ben Kimpel, 1953 **The UN Secretary-General and Moral Authority** Kent J. Kille, 2007-10-29 Once described by Trygve Lie as the most impossible job on earth the position of UN Secretary General is as frustratingly constrained as it is prestigious The Secretary General's ability to influence global affairs often depends on how the international community regards his moral authority In relation to such moral authority past office holders have drawn on their own ethics and religious backgrounds as diverse as Lutheranism Catholicism Buddhism and Coptic Christianity to guide the role that they played in addressing the UN's goals in the international arena such as the maintenance of international peace and security and the promotion of human rights In *The UN Secretary General and Moral Authority* contributors provide case studies of all seven former secretaries general establishing a much needed comparative survey of each office holder's personal religious and moral values From Trygve Lie's forbearance during the UN's turbulent formative years to the Nobel committee's awarding Kofi Annan and the United Nations the prize for peace in 2001 the case studies all follow the same format first detailing the environmental and experiential factors that forged these men's ethical frameworks then analyzing how their inner code engaged with the duties of office and the global events particular to their terms Balanced and unbiased in its approach this study provides valuable insight into how religious and moral leadership functions in the realm of international relations and how the promotion of ethical values works to diffuse international tensions and improve the quality of human life around the world *The Moral Authority of Government* R. Hoxie, 2023-05-31 These new essays prepared to commemorate the centennial of the National Institute of Social Sciences have been carefully crafted to deal with an overriding concern of our time those elements in political rule that go beyond legal rights and responsibilities into the moral requirements of effective governance The principal theme of this book is presidential leadership The presidency personifies government authority including moral authority In the first part of this book most of the essays argue that the moral authority of leaders depends on high personal standards as well as policy outcomes The second segment on the rule of law and character raises considerations not limited to the presidency Character and the authority that derives from it are demonstrated most effectively not by what someone does in his or her personal life but in the moral values of the causes espoused and effectiveness in pursuing them In the realm of international affairs governmental leadership must wrestle with the moral and constitutional guidelines known as reasons of state Under what circumstances is it morally acceptable for a leader or government to practice deception upon the citizenry to overthrow other governments to bomb civilians Many contributors raise the issue of what permits a government to take actions that would be immoral or illegal in individuals or groups The final segment expands and deepens this theme by exploring the work and role of non governmental agencies that influence both leaders and citizens in the public arena In short at a period that brings to a close a period in which the presidency has become more visible as well as more prominent

this collective effort sheds new light on classic themes It will be an invaluable guide as we enter the new century The contributors include an illustrious galaxy of public officials and political scientists including Madeleine K Albright Judith A Best Betty Glad C Lowell Harriss Travis Beal Jacobs Ruth P Morgan Stanley A Renshon Donald L Robinson and William vanden Heuvel

Towards an Ethics of Community James Olthuis, Canadian Corporation for Studies in Religion, 2000-02-25 How do we deal with difference personally interpersonally nationally Can we weave a cohesive social fabric in a religiously plural society without suppressing differences This collection of significant essays suggests that to truly honour differences in matters of faith and religion we must publicly exercise and celebrate them The secular sacred public private divisions long considered sacred in the West need to be dismantled if Canada or any nation state is to develop a genuine mosaic that embraces fundamental differences instead of a melting pot that marginalizes An ethics of difference starts with a recognition of difference not as deviance or deficit that threatens but as otherness to connect with cherish and celebrate The book begins with the suggestion that our inability to come to terms with social plurality is not fundamentally the fault of religious differences and that a public private split inadequately deals with matters of basic difference It then explores how encouraging people to live out their respective faiths may open new possibilities for respectful honourable and just negotiations of contemporary dilemmas arising out of the multicultural fabric of Canadian life Towards an Ethics of Community introduces readers to some of the most challenging and divisive dilemmas we face in this increasingly pluralistic postmodern world issues such as family and domestic violence Aboriginal rights homosexuality and public policy and female genital mutilation This is a book truly global in scope and significance
