Faith And Order The Reconciliation Of Law And Religion

Harold J. Berman

Faith And Order The Reconciliation Of Law And Religion:

Faith and Order Harold J. Berman, 2000 This book argues that despite the tensions existing in all societies between religious faith and legal order they inevitably interact In the course of his discussion Berman traces the history of Western law exposes the fallacies of law theories that fail to take religion into account examines key theological prophetic and educational themes and looks at the role of religion in the Soviet and post Soviet state **Faith and Order** ,1993

Routledge Handbook of Law and Religion Silvio Ferrari, 2015-03-05 The field of law and religion studies has undergone a profound transformation over the last thirty years looking beyond traditional relationships between State and religious communities to include rights of religious liberty and the role of religion in the public space This handbook features new specially commissioned papers by a range of eminent scholars that offer a comprehensive overview of the field of law and religion The book takes on an interdisciplinary approach drawing from anthropology sociology theology and political science in order to explore how laws and court decisions concerning religion contribute to the shape of the public space Key themes within the book include Religions symbols in the public space Religion and security Freedom of religion and cultural rights Defamation and hate speech Gender religion and law This advanced level reference work is essential reading for students researchers and scholars of law and religion as well as policy makers in the field **Law, Religion and the**

Family in Africa Dr M Christian Green, Dr Faith Kabata ,2021-12-31 The family is a crucial site for the interaction of law and religion the world over including Africa In many African societies the family is governed by a range of sources of law including civil constitutional customary and religious law International law and human rights principles have been domesticated into African legal systems particularly to protect the rights of women and children Religious rites and rituals govern sexuality marriage divorce child rearing inheritance intergenerational relations and more in Christianity Islam and indigenous African custom This book examines the African family with attention to tradition and change comparative law the relation of parents and children to the state indigenous religion and customary law child marriage and child labour and migration diaspora and displacement **Faith in Law, Law in Faith** ,2024-04-02 Across four decades John Witte Jr has advanced the study of law and religion by retrieving religious sources of law renewing timeless teachings of religion for today and reengaging with the difficult issues confronting society Interdisciplinary international and interfaith in scope Witte s work has generated an enormous body of scholarship This collection of essays by leading scholars examines his impact and maps new directions for future exploration **Making Religion and Human Rights at the United Nations** Helge

Årsheim, 2018-07-23 This volume examines the different and sometimes contradictory approaches of four UN human rights committees to the concept of religion Drawing on critical perspectives from religious studies the book combines a genealogical assessment of the role of religion in international law with a detailed textual study of the reporting practice of the committees monitoring racial discrimination civil and political rights women s rights and children s rights rsheim argues

that the role of religion within the rights traditions monitored by the committees varies to the extent that their recommendations risk contradicting one another thereby undermining their credibility and potential to bring about real change on the ground Where some committees view religion singularly as a core individual right others see religion partly as an inherent threat to the realization of other rights but also as a potent social force to be reckoned with In order to remedy this situation rsheim proposes the publication of a joint general comment by all the committees spelling out their approach to the role of religion in the implementation of human rights

Interfaith Marriage in America E. Seamon, 2012-11-09 Seamon explores the historical theological and societal dynamics of religious intermarriage as a way to introduce scholars to the myriad of factors that have contributed and will continue to contribute to the complete transformation of religion and Christianity in the twenty first century

The Christian Religion and Biotechnology George P. Smith, 2005-03-21 Religion is a dominant force in the lives of many Americans It animates challenges directs and shapes as well the legal political and scientific agendas of the new Age of Biotechnology In a very real way religion biomedical technology and law are epistemologically different Yet they are equal vectors of force in defining reality and approaching an understanding of it Indeed all three share a synergetic relationship for they seek to understand and improve the human condition This book strikes a rich balance between thorough analysis in the body anchored in sound references to religion law and medical scientific analysis and a strong scholarly direction in the end notes It presents new insights into the decision making processes of the new Age of Biotechnology and shows how religion law and medical science interact in shaping directing and informing the political processes This volume will be of interest to both scholars and practitioners in the fields of religion and theology philosophy ethics family law science medicine political science and public policy and gender studies It will serve as a reference source and can be used in graduate and undergraduate courses in law medicine and religion

Christian Perspectives on Legal Thought Michael W. McConnell, Robert Cochran, Angela C. Carmella, 2008-10-01 This book explores for the first time the broad range of ways in which Christian thought intersects with American legal theory Eminent legal scholars including Stephen Carter Thomas Shaffer Elizabeth Mensch Gerard Bradley and Marci Hamilton describe how various Christian traditions including the Catholic Calvinist Anabaptist and Lutheran traditions understand law and justice society and the state and human nature and human striving The book reveals not only the diversity among Christian legal thinkers but also the richness of the Christian tradition as a source for intellectual and ethical approaches to legal inquiry The contributors bring various perspectives to the subject Some engage the prominent schools of legal thought liberalism legal realism critical legal studies feminism critical race theory and law and economics Others address substantive areas including environmental criminal contract torts and family law as well as professional responsibility Together the essays introduce a new school of legal thought that will make a signal contribution to contemporary discussions of law

The Alabama Lawyer ,1993 Current Law Index ,1996 *The Review of Faith & International Affairs* ,2009 **The Journal**

of Markets & Morality ,2005 Law and Bioethics George Patrick Smith (II),2012 George P Smith II is a leading figure in the world of medical law and ethics During his long career he has addressed some of the most important issues in bioethics and has contributed much original thought to the debates in this field This book celebrates his contribution bringing together his key writings in bioethics The chapters include previously published material however the pieces have been substantially updated to include more recent developments and rewritten drawing out the themes and strands which have run through Professor Smith s thinking over the past fifty years The book covers topics including human rights and medical law the allocation of resources and distributive justice ethical relativism science and religion and public health emergencies In doing so it offers an excellent overview of the current bioethical issues in medical law in light of recent and ongoing technological developments in medicine This collection of essays by one of the world s leading medical lawyers is academic research of the highest quality With an enviable clarity of thought and force of argument Professor Smith tackles some of the major issues facing medicine and law today It is a tour de force by an academic at the height of his powers Professor Jonathan Herring University of Oxford **Bulletin for Contextual Theology in Southern Africa & Africa** ,1999 Subject Guide to Books in Print ,1991 *Church Laws and Ecumenism* Norman Doe,2020-09-27 Written by experts from within their communities this book compares the legal regimes of Christian churches as systems of religious law The ecumenical movement with its historical theological focus has failed to date to address the role of church law in shaping relations between churches and fostering greater mutual understanding between them In turn theologians and jurists from the different traditions have not hitherto worked together on a fully ecumenical appreciation of the potential value of church laws to help and sometimes to hinder the achievement of greater Christian unity This book seeks to correct this ecumenical church law deficit It takes account of the recent formulation by an ecumenical panel of a Statement of Principles of Christian Law which has been welcomed by Pope Francis and the Ecumenical Patriarch of Constantinople leader of the Orthodox Church worldwide as recognizing the importance of canon law for ecumenical dialogue This book therefore not only provides the fruits of an understanding of church laws within ten Christian traditions but also critically evaluates the Statement against the laws of these individual ecclesial communities The book will be an essential resource for scholars of law and religion theology and sociology It will also be of interest to those working in religious institutions and policy makers **Church and State in Historical Perspective** James E. Wood,2005-05-30 The subject of church and state is one intimately associated with the history of Christianity and Western civilization However the subject is one that is by no means limited to any one religious tradition civilization or period of history Rather it is a subject that has historical and universal significance to all cultures and religious traditions throughout the world It is simply undeniable that religion has been and remains a powerful force in the making and shaping of cultures civilizations nations and empires For this reason this volume addresses the broader perspectives of religion and the state in the ancient world as well as in the biblical world of Judaism and Christianity and in

other religious traditions than Christianity Attention is given to general works on church and state that treat the subject broadly not limited to any particular nation religious tradition or single aspect of church state relations Additionally there is material on major topics integrally related to church and state such as civil disobedience civil religion liberation theology patriotism and nationalism Finally sources are included on religion in international affairs and interfaith relations both necessarily linked to the subject of church and state as well as religion and the economic order religion and human rights and the effect of religion on war and peace *Proceedings at the ... Annual Meeting of the Free Religious Association* Free Religious Association (Boston, Mass.). Meeting,1876 **Liberal Politics and Public Faith** Kevin Vallier,2014-06-13 In the eyes of many liberalism requires the aggressive secularization of social institutions especially public media and public schools The unfortunate result is that many Americans have become alienated from the liberal tradition because they believe it threatens their most sacred forms of life This was not always the case in American history the relation between liberalism and religion has often been one of mutual respect and support In *Liberal Politics and Public Faith Beyond Separation* Kevin Vallier attempts to reestablish mutual respect by developing a liberal political theory that avoids the standard liberal hostility to religious voices in public life He claims that the dominant form of academic liberalism public reason liberalism is far friendlier to religious influences in public life than either its proponents or detractors suppose The best interpretation of public reason convergence liberalism rejects the much derided privatization of religious belief instead viewing religious contributions to politics as a resource for liberal political institutions Many books reject privatization *Liberal Politics and Public Faith Beyond Separation* is unique in doing so on liberal grounds
