Faith and Fiction Anita Gandolfo,2007-08-30 In recent years there has been an explosion in the market for fiction on religious topics and themes most notably Dan Brown s The Da Vinci Code The variety of contemporary religious fiction and the publishing phenomenon surrounding it indicate that this literature transcends any overt religious meaning and is significant in its political and social implications it is emblematic of the contemporary American Zeitgeist Traditionally literature is both mirror and lamp reflecting the society that produces it and illuminating the values and interests of that society Recognizing both of those perspectives Gandolfo examines Christian literature s place in American culture today and explores the cultural meaning and significance of the wildly popular Christian fiction now available The phenomenon surrounding Dan Brown s The Da Vinci Code has led to a cottage industry of interpretations attacks and commentaries but one thing is certain the book has had an enormous impact on American society culture and religious understanding not to mention the publishing industry which scrambles to find similar religious books to feed to an eager public But The Da Vinci Code is not the only book of its type on the market today In recent years there has been an explosion in the market for fiction on religious topics and themes with an entire series devoted to the impending Rapture as described in the Left Behind series Some fiction does not take an explicitly religious theme as these books do Instead writers like Andre Dubus and Ron Hansen imbue their creative work with spiritual and religious themes embedded in the everyday lives and concerns of their characters Regardless of the specific approach what is not in doubt is that American readers have made the authors of these works wealthy as bookstores cannot stock their shelves with enough copies Why the recent surge of interest in Christian fiction How does it reflect trends in our culture and our lives How has it changed our society and our understanding of spirituality and religion How accurate are these books in terms of the theology they espouse The variety of contemporary religious fiction and the publishing phenomenon surrounding it indicate that this literature transcends any overt religious meaning and is significant in its political and social implications it is emblematic of the contemporary American Zeitgeist Traditionally literature is both mirror and lamp reflecting the society that produces it and illuminating the values and interests of that society Recognizing both of those perspectives Faith and Fiction examines Christian literature s place in American culture today and explores the cultural meaning and significance of the wildly popular Christian fiction now available

Revising Fiction, Fact, and Faith Nathaniel Goldberg,Chris Gavalier,2020-07-01 This book addresses how

our revisionary practices account for relations between texts and how they are read It offers an overarching philosophy of revision concerning works of fiction fact and faith revealing unexpected insights about the philosophy of language the metaphysics of fact and fiction and the history and philosophy of science and religion Using the novels of J R R Tolkien as exemplars the authors introduce a fundamental distinction between the purely physical and the linguistic aspects of texts They then demonstrate how two competing theories of reference descriptivism and referentialism are instead constitutive of a single semantic account needed to explain all kinds of revision The authors also propose their own metaphysical foundations of fiction and fact The next part of the book brings the authors philosophy of revision into dialogue with Thomas Kuhn s famous analysis of factual and specifically scientific change It also discusses a complex episode in the history of paleontology demonstrating how scientific and popular texts can diverge over time Finally the authors expand their philosophy of revision to religious texts arguing that rather than being distinct such texts are always read as other kinds that faith tends to be more important as evidence for religious texts than for others and that the latter explains why religious communities tend to have remarkable historical longevity *Revising Fiction Fact and Faith* offers a unique and comprehensive account of the philosophy of revision It will be of interest to a wide range of scholars and advanced students working in philosophy of language metaphysics philosophy of literature literary theory and criticism and history and philosophy of science and religion

Faith and Fiction Barbara Pell,2006-01-01 Is it possible to write an artistically respectable and theoretically convincing religious novel in a non religious age Up to now there has been no substantial application of theological criticism to the works of Hugh MacLennan and Morley Callaghan the two most important Canadian novelists before 1960 Yet both were religious writers during the period when Canada entered the modern non religious era and both greatly influenced the development of our literature MacLennan s journey from Calvinism to Christian existentialism is documented in his essays and seven novels most fully in *The Watch that Ends the Night* Callaghan s fourteen novels are marked by tensions in his theology of Catholic humanism with his later novels defining his theological themes in increasingly secular terms This tension between narrative and metanarrative has produced both the artistic strengths and the moral ambiguities that characterize his work *Faith and Fiction A Theological Critique of the Narrative Strategies of Hugh MacLennan and Morley Callaghan* is a significant contribution to the relatively new field studying the relation between religion and literature in Canada

Narrative Faith David Stromberg,2017-10-18 *Narrative Faith* engages with the dynamics of doubt and faith to consider how literary works with complex structures explore different moral visions The study describes a literary *petite histoire* that problematizes faith in two ways both in the themes presented in the story and the strategies used to tell that story leading readers to doubt the narrators and their narratives Starting with Dostoevsky's *Demons* 1872 a literary work that has captivated and confounded critics and readers for well over a century the study examines Albert Camus's *The Plague* 1947 and Isaac Bashevis Singer's *The Penitent* 1973 83 works by twentieth century authors who similarly intensify questions of faith through narrators that generate doubt The two postwar novelists share parallel preoccupations with Dostoevsky's art and similar personal philosophies while their works constitute two literary responses to the cataclysm of the Second World War extending questions of faith into the current era The book's last section looks beyond narrative inquiry to consider themes of confession and revision that appear in all three novels and open onto horizons beyond faith and doubt to hope

Erotic Faith Robert M. Polhemus, 1995-03 In this profoundly original and far reaching study Robert M Polhemus shows how novels have helped to make erotic love a matter of faith in modern life Erotic faith Polhemus argues is an emotional conviction ultimately religious in nature that meaning value hope and even the possibility of transcendence can be found in love Drawing on a wide range of disciplines Polhemus shows the reciprocity of love as subject the novel as form and faith as motive in important works by Jane Austen Walter Scott the Bront s Dickens George Eliot Trollope Thomas Hardy Joyce D H Lawrence Virginia Woolf and Samuel Beckett Throughout Polhemus relates the novelists representation of love to that of such artists as Botticelli Vermeer Claude Lorrain Redon and Klimt Juxtaposing their paintings with nineteenth and twentieth century texts both reveals the ways in which novels develop and individualize common erotic and religious themes and illustrates how the novel has influenced our perception of all art

S. Lewis: Defender of the Faith** Richard B. Cunningham,2008-06-02 C S Lewis was a man of many talents a literary critic a Medieval and Renaissance scholar a stimulating lecturer a prolific writer a perceptive critic of Western

civilization and the author of highly acclaimed children's books. But he is perhaps best known as the unorthodox defender of orthodoxy, the most popular and influential Christian apologist of his time. His literary skill, his brilliant and wide-ranging mind, and his multi-layered imagination made him a master of communication and gave him insight into what should be communicated. This study of his work inquires what it is about his faith, his view of the world, and his apologetic methods that strikes such a responsive chord in the hearts of unchurched people and it shows how he made the old ideas of traditional Christianity glimmer and glow with simplicity and attractiveness. Lewis took up his apologetic pen because he felt that most theologians are talking jargon. Any fool can write learned language, he said. The vernacular is the real test. If you can't turn your faith into it, then either you don't understand it or you don't believe it. His books are unusual because he believed that reason is the organ of truth, imagination is the organ of meaning. In the infernal correspondence of *Screwtape*, the haunting myths of his trilogy of space fiction, and the allegories of the Narnia books, he tries to bring the reader suddenly face to face with transcendental values and existential questions. Richard Cunningham evaluates the different kinds of literature Lewis uses as apologetic instruments, studies the devices and techniques of debate he employs to communicate his faith to unbelievers, and deduces some pertinent principles to help others define and understand the Christian faith.

Fact, Faith and Fiction in the Development of Science R. Hooykaas, 2013-06-29. In this posthumous book, the late Professor R. Hooykaas (1906-1994) conveys a lifetime of historical thought about modes of scientific advance over the centuries. In what variety of ways has the human mind, with all its subjectivity and its capacity for self-deception, but also its piercing gifts of discovery, managed to come to terms with the whimsical tricks of nature? Central to this erudite, penetrating, and widely ranging study is Hooykaas's distinction between facts given by nature yet entirely subject to our mode of interpreting them, faith, broad conceptions like the idea of order, of simplicity, or of harmony, and fictions in the sense of those daring intellectual tools such as theories and hypotheses and models which reflect the scientist's creative imagination. Case studies drawn from the history of all branches of science, including chemistry and the earth sciences, and from Antiquity to the present day, serve to widen and to deepen the understanding of every reader, whether a historian of science or not, with a desire to learn more about the realities of the scientific pursuit.
