**Sustaining Faith Traditions** Carolyn Chen, Russell Jeung, 2012-07-06 Over fifty years ago Will Herberg theorized that future immigrants to the United States would no longer identify themselves through their races or ethnicities or through the languages and cultures of their home countries Rather modern immigrants would base their identities on their religions The landscape of U S immigration has changed dramatically since Herberg first published his theory Most of today s immigrants are Asian or Latino and are thus unable to shed their racial and ethnic identities as rapidly as the Europeans about whom Herberg wrote And rather than a flexible labor based economy hungry for more workers today s immigrants find themselves in a post industrial segmented economy that allows little in the way of class mobility In this comprehensive anthology contributors draw on ethnography and in depth interviews to examine the experiences of the new second generation the children of Asian and Latino immigrants Covering a diversity of second generation religious communities including Christians Hindus Buddhists Muslims and Jews the contributors highlight the ways in which race ethnicity and religion intersect for new Americans As the new second generation of Latinos and Asian Americans comes of age they will not only shape American race relations but also the face of American religion

Miller, 2024 This updated edition of The Oxford Handbook of Psychology and Spirituality codifies the leading empirical evidence in the support and application of postmaterial psychological science Lisa J Miller has gathered together a group of ground breaking scholars to showcase their work of many decades that has come further to fruition in the past ten years with the collective momentum of a Spiritual Renaissance in Psychological Science With new and updated chapters from leading scholars in psychology medicine physics and biology the Handbook is an interdisciplinary reference for a rapidly emerging approach to contemporary science Highlighting fresh ideas and supporting science this overarching work provides both a foundation and a roadmap for what is truly a new ideological age *American Religious History* Amanda Porterfield, 2008-04-15 In this outstanding historical reader the editor has gathered nine essays and over thirty primary documents to present a coherent picture of the history of American religion **Integrative Pediatrics** Timothy Culbert, Karen Olness, 2010-04-10 There is ample evidence that children and adolescents in large numbers are actively using integrative complementary and alternative therapies Various studies now indicate that over 50% of pediatricians surveyed would refer a patient for integrative therapy and they would welcome more natural

therapies for children provided they were safe and effective. However, there has been little training for pediatricians in this area. Integrative Pediatrics addresses these issues and provides guidelines for pediatricians, parents, and general audiences in a balanced, evidence-based manner. In this volume in the Weil Integrative Medicine Library series, the authors describe a rational and evidence-based approach to the integrative therapy of childhood disorders and well-child care, integrating the principles of alternative and complementary therapies into the principles and practice of conventional pediatrics. The authors examine what works and what doesn't and offer practical guidelines for physicians to incorporate integrative medicine into their practice and how to advise patients and their parents on reasonable and effective therapies. The text also covers areas of controversy and identifies areas of uncertainty where future research is needed. Chapters also cite the best available evidence for both safety and efficacy of all therapies discussed. The series editor is Andrew Weil, MD, Professor and Director of the Program of Integrative Medicine at the University of Arizona. Dr. Weil's program was the first academic program in the US, and he is the major name in integrative medicine in the US and well-known around the world. His program's stated goal is to combine the best ideas and practices of conventional and alternative medicine into cost-effective treatments without embracing alternative practices uncritically.

**The Contested Place of Religion in Family Law** Robin Fretwell Wilson, 2018-05-31 Like many beliefs, religious views matter across an individual's life and the life cycle of a family from birth to marriage through child rearing and eventually death. This volume examines clashes over religious liberty within the personal realm of the family. Against swirling religious beliefs, secular values, and legal regulation, this volume offers a forward-looking examination of tensions between religious freedom and the state's protective function. Contributors unpack some of the Court's recent decisions and explain how they set the stage for ongoing disputes. They evaluate religious claims around birth control, circumcision, modesty, religious education, marriage, polygamy, shared parenting, corporal punishment, faith healing, divorce, and the end of life. Authors span legislators, attorneys, academics, journalists, ministers, physicians, child advocates, and representatives of minority faiths. **The Contested Place of Religion in Family Law** begins an overdue conversation on questions dividing the nation.

Religion and the Social Sciences Jeff Levin, 2018-08-13 In recent years, researchers across the social sciences have made important contributions to the study of religion. Thanks to their inquiry, we have greatly improved our understanding of how religion influences the vital dimensions of our lives, communities, and institutions. To give this research the attention it deserves, editor Jeff Levin assembled a panel of preeminent social scientists and gave them a single directive: write the ultimate statement on religion from within their respective social science discipline or field. The result is this single-volume state-of-the-science compendium, a first of its kind for the study of religion. Composed of ten essays, this book details the study of religion within nine basic and applied areas of social science. Along with a critical introduction to this subject, these essays include the expert contributions of Kenneth I. Pargament, Julie J. Exline on psychology, Anthony Gill on political science, Charles M. North on economics, Barry Hankins on history, Annette Mahoney on

family studies Byron R Johnson on criminology Linda K George on gerontology William H Jeynes on education Jeff Levin on epidemiology Each essay features An introduction to the history of the discipline s or field s religious research as well as its most important people and published works A comprehensive overview of key research findings and theories A detailed research agenda to guide future scholars An annotated bibliography of seminal works for the reader s further consideration Broad in scope and essential in focus Religion and the Social Sciences is a significant addition to the field It will prove indispensable to both new and established scholars looking for a comprehensive treatment of the subject and seeking promising avenues to pursue in their own research

**Sisters and Brothers for Life** Suzanne Degges-White, 2017-06-21 Sibling relationships are special in many ways not least because often siblings are the family members who go through their whole lives together But those relationships can be fraught with strife or tension bouts of happiness or strain and stress They can predict and affect other relationships in our lives and they can offer solace or sadness over the years Here Suzanne Degges White looks at the variety of sibling relationships with an eye to improving both the good and the bad Using real stories throughout the author illustrates the broad spectrum of problems and rewards that can come from having a sibling Examining such factors as the early family constellation birth order cultural diversity and family communication patterns Degges White illustrates how these relationships can affect so many other areas of our lives and considers how adult sibling conflict rivalry abuse and loss influence our lives She offers suggestions for effective responses to adult sibling conflict as well as enhancing family communication and deepening the sibling connection in adulthood No matter what the sibling relationship is or has become this work will help readers consider how situations might be improved or addressed even if it means letting go of unhealthy sibling relationships

**Nazorean** Kem Luther, 2024-08-16 A swirl of Jewish sectarian movements muddled the religious waters during the late Second Temple period In recent decades scholars of the Bible have struggled to understand the role these sects played in the rise and spread of the Jesus movement Nazorean joins this wave of sectarian scholarship In this book Kem Luther sketches the history of a wisdom oriented sect that gave birth to the Christian

church Weaving a series of what the philosopher and historian R G Collingwood called webs of imaginative construction he provides a provocative and plausible story about a wisdom sect the Nazoreans that shaped the career and teachings of John the Baptist and Jesus To support his scenario Luther offers sectarian readings of passages from the Gospels of Matthew and John the Epistle of James Acts the Wisdom of Solomon and the Psalms of Solomon He links his developing awareness of the sectarian context of these documents to his own trek through a landscape of post 1960 American religion The candid account of Luther s own journey through a naive modernism his immersion in evangelical subculture at a Bible school and his postgraduate studies in mysticism and philosophy makes a fascinating complement to his textual studies The Power of Storytelling in Worship and Education Jed Griswold,2022-04-15 A RESOURCE FOR PASTORS RELIGIOUS EDUCATORS TEACHERS AND PARENTS Think about how Jesus taught And rabbis How have Buddhist monks taught children and adults for centuries How have Hindu swamis taught And Islamic leaders And Indigenous elders in lands around the globe It is difficult to overstate the importance of storytelling when it comes to our desire to pass along our values our spirituality our faith to the next generation Or to teach and inspire our own generation In this small book you will find perhaps the most concise and well articulated guide to storytelling anywhere Jed Griswold s 12 tips for storytelling and his 20 original stories are more than enough to clarify and inspire readers to engage in the art of storytelling **Spiritual Marketplace** Wade Clark Roof,2001-07-02 In large chain bookstores the religion section is gone and in its place is an expanding number of topics including angels Sufism journey recovery meditation magic inspiration Judaica astrology gurus Bible prophesy evangelicalism Mary Buddhism Catholicism and esoterica As Wade Clark Roof notes such changes over the last two decades reflect a shift away from religion as traditionally understood to more diverse and creative approaches But what does this splintering of the religious perspective say about Americans Have we become more interested in spiritual concerns or have we become lost among trends Do we value personal spirituality over traditional religion and no longer see ourselves united in a larger community of faith Roof first credited this religious diversity to the baby boomers in his bestselling *A Generation of Seekers* 1993 He returns to interview many of these people now in mid life to reveal a generation with a unique set of spiritual values a generation that has altered our historic interpretations of religious beliefs practices and symbols and perhaps even our understanding of the sacred itself The quest culture created by the baby boomers has generated a marketplace of new spiritual beliefs and practices and of revisited traditions As Roof shows some Americans are exploring faiths and spiritual disciplines for the first time others are rediscovering their lost traditions others are drawn to small groups and alternative communities and still others create their own mix of values and metaphysical beliefs *Spiritual Marketplace* charts the emergence of five subcultures dogmatists born again Christians mainstream believers metaphysical believers and seekers and secularists Drawing on surveys and in depth interviews for over a decade Roof reports on the religious and spiritual styles family patterns and moral vision and values for each of these subcultures The result is an innovative engaging

approach to understanding how religious life is being reshaped as we move into the next century      **The Faith Factor in Fatherhood** Don E. Eberly, David Blankenhorn, 1999-10-13 Edited by founder and chairman of the National Fatherhood Initiative Don Eberly The Faith Factor in Fatherhood addresses the key role that religious institutions can play in reviving what Eberly calls the sacred vocation of fatherhood In response to the wider debate regarding the increased expectations that are being placed by policy makers on faith based institutions to serve important public purposes contributors to this volume guide denominations places of worship and religious social agencies to recover the role they once played in reaching and supporting young men with a message of responsible fatherhood Ecumenical in scope the book addresses what each faith community can do to recover its particular heritage of engaged involved fathering through methods including instruction rites of passage programs stories ceremonies mentoring and community outreach
