Returning People to the Moon After Apollo Pat Norris, 2019-06-04 July 2019 marks 50 years since Neil Armstrong took his famous first steps on the surface of the Moon As people around the world celebrate the anniversary of this great American achievement they might wonder why there have been no further human missions to the Moon since Apollo 17 in 1972 This book assesses the legacy of the Apollo missions based on several decades of space developments since the program's end The question of why we haven't sent humans back to the Moon is explored through a multidisciplinary lens that weaves together technological and historical perspectives The nine manned Apollo missions including the six that landed on the Moon are described here by an author who has 50 years of experience in the space industry and whose work spanned the Apollo 8-13 missions The final section of the book provides a comprehensive assessment of today's programs and current plans for sending humans to the Moon *I Am Shakti* Maya Tiwari, 2025-09-30 Step into your Shakti feminine power to heal and be whole

Two Sides of the Moon David Scott, Aleksei Arkhipovich Leonov, Christine Toomey, 2004-10-15 Dave Scott and Alexei Leonov have each borne the enormous responsibility of commanding spacecraft and of representing their respective countries in the most fascinating and most expensive race in human history This is their transcendent recounting of that competition Neil Armstrong from the Foreword Leonov and Scott have gone to extra lengths to explain the inexplicable in *Two Sides of the Moon* And thank goodness they have Theirs was a gamble taken voluntarily and eagerly with the single minded pursuit of earning the assignment and then getting the job done Sometimes they were first Often they were best Always they were colorful And yet each time they returned neither man claimed to have come back a changed man who had gone into space and seen the spirit of the universe They came back from their missions in space having seen the spirit of themselves as even more of the human beings they were before leaving our world of air land and water Leonov the artist and Scott the engineer dreamer The two of them the Cheaters of Death Tom Hanks from the Introduction What was most significant about the lunar voyage was not that men set foot on the moon but that they set eye on the Earth Norman Cousins

The Art of Poetry Mordestia M. York, 2023-05-18 The book titled *The Art of Poetry* is a signal of one woman's journey homage and humbleness This body of works and their varying styles and sounds are meant to capture anyone who needs the

lines of these poems and the emotions that they break apart These words are from one woman and over the course of 30 years come to you to soothe delight calm reach and entertain you This work is not meant to flatter the author but to entrance the most lavish of senses This collection of words and phrases provide a range of thought and extension to one s senses and feelings Hopefully this body of poetic work will lead many into their most favorite one poem The end of a long day is the intent of these words to soothe to calm and to penetrate what ails the heart mind body and reader s soul *Last Flocks of the Geese* Philip Dodd,2019 A book of clear verse Geese migrate through its lines Tall ships leave Liverpool Bay An iceberg breaks free of Antarctica Ivory burns in Kenya The healing of the rift between nations is contemplated An exhibition of Pre Raphaelite art is visited The crossing of the Rubicon is dared Franz Kafka writes his tales The spirit of T S Eliot revisits The Waste Land Shakespeare drinks with his acting company Autumn in Yerevan Armenia is mirrored Utopia is mused on Childhood is remembered Love celebrated Archie Leach sails from Bristol to New York Matthew Flinders becomes the first man to circumnavigate Australia Noah s ark moors on mount Ararat The death of the last white rhinoceros is lamented Weland the smith lifts his hammer Hugh Minn finds an alien in his loft Various other visions and inspirations are explored Readers of these lines will hopefully find them worthy of study *Manned and Unmanned Flights to the Moon* Terry C Treadwell,2024-10-30 This book is about how the dreams of exploring other worlds became a reality with the Mercury Gemini and Apollo programs The problems encountered in the development of the spacecraft including the disastrous fire aboard Apollo 1 which resulted in the deaths of the three American astronauts Gus Grissom Ed White and Roger Chafee are covered When Neil Armstrong stepped out onto the surface of the Moon on 20 July 1969 many people thought that this was the first time man had visited its nearest neighbor Although this was the first manned landing there had been forty one missions prior to this by both the Americans and the Russians This book is about all those missions and the sixty five missions that followed Also included although in much lesser detail is the part the Russians played in the formative years of the space race and the problems they encountered culminating in the successful Apollo Soyuz program which proved that the two super powers could work together The laboratory in the sky Skylab the forerunner of the ISS station is also covered The book contains over 200 photographs all of which are either credited to NASA or from the author s own collection The sources include correspondence and the author s personal conversations with some of the astronauts involved in the early part of the space program **Apollo 15 at Hadley Base** United States. National Aeronautics and Space Administration. Office of Public Affairs,1971 *Divine Knowledge* Brian Baumann,2008-02-15 In an original and compelling examination of traditional mathematics this comprehensive study of the anonymous Manual of Mongolian Astrology and Divination published by A Mostaert in 1969 takes on the fundamental problem of the post enlightenment categorization of knowledge in particular the inherently problematic realms of religion and science as well as their subsets medicine ritual and magic In the process of elucidating the rhetoric and logic shaping this manual the author reveals not only the intertwined intellectual history of

Eurasia from Greece to China but also dismantles many of the discourses that have shaped its modern interpretations
