Falks Claim The Life And Death Of A Redwood Lumbertown:

Falk's Claim Jon Humboldt Gates,2022-08-31 The life and death of a redwood lumber town Falk: Company Lumber Town of the American West Julie Clark ,2018 Between the years 1884 and 1937 the company mill and lumber town of Falk thrived in what is now the Headwaters Forest Reserve In the late 1800s Noah Falk and two other stakeholders became partners in the Elk River Mill and Lumber Company During this transitional time in logging history Falk was able to capitalize on the relatively inexpensive price of land cheap labor and inexpensive logging technologies such as the band saw and the Dolbeer steam donkey Isolated from Eureka and within the backdrop of the industrial revolution many changes and spikes in local and immigrant populations created an intricate company town of 400 people Between the 1940s and 1970s Falk became a ghost town until the vacant buildings eventually became part of the soil that now supports the Headwaters Forest Reserve managed by the Bureau of Land Management

The Ghost Forest Greg King,2023-06-06 The definitive story of the California redwoods their discovery and their exploitation as told by an activist who fought to protect their existence against those determined to cut them down Every year millions of tourists from around the world visit California s famous redwoods Yet few who strain their necks to glimpse the tops of the world s tallest trees understand how unlikely it is that these last isolated groves of giant trees still stand at all In this gripping historical memoir journalist and famed redwood activist Greg King examines how investors and a growing U S economy drove the timber industry to cut down all but 4 percent of the original two million acre redwood ecosystem King first examined redwood logging in the 1980s as an award winning reporter What he found in the woods convinced him to leap the line of neutrality and become an activist dedicated to saving the very last ancient redwood groves remaining in private hands The land grab began in 1849 when a green gold rush of migrants came to exploit the legendary redwoods that grew along the Russian River Several generations later in 1987 Greg King discovered and named Headwaters Forest at 3 000 acres the largest ancient redwood habitat remaining outside of parks and he led the movement to save this grove After a decade of one of the longest most dramatic and violent environmental campaigns in US history in 1999 the state and federal governments protected Headwaters Forest The Ghost Forest explores a central question an overhanging mystery What was it like this botanical Elysium that grew only along the Northern California coast a forest so spectacular but also uniquely valuable as a cornerstone of American economic growth that in the end it would inspire life and death struggles Few but loggers and surveyors ever saw such magnificent trees ancient sentinels that like ghosts have informed King s understanding of the world On a lifelong journey King finds himself through the generations and through the trees A Next Big Idea Club Must Read Title City of Wood James Michael Buckley,2024-11-19 2025 John Brinckerhoff Jackson Prize Association of American Geographers How San Franciscans exploited natural resources such as redwood lumber to produce the first major metropolis of the American West California s 1849 gold rush triggered creation of the instant city of San Francisco as a base to exploit the rich natural resources of the

American West City of Wood examines how capitalists and workers logged the state's vast redwood forests to create the financial capital and construction materials needed to build the regional metropolis of San Francisco Architectural historian James Michael Buckley investigates the remote forest and its urban core as two poles of a regional city This city consisted of a far reaching network of spaces produced as company owners and workers arrayed men and machines to extract resources and create human commodities from the region's rich natural environment Combining labor urban industrial and social history City of Wood employs a variety of sources including contemporary newspaper articles novels and photographs to explore the architectural landscape of lumber from backwoods logging camps and company towns in the woods to busy lumber docks and the homes of workers and owners in San Francisco By imagining the redwood lumber industry as a single community spread across multiple sites a City of Wood Buckley demonstrates how capitalist resource extraction links different places along the production value chain The result is a paradigm shift in architectural history that focuses not just on the evolution of individual building design across time but also on economic connections that link the center and periphery across space

When Money Grew on Trees Greg Gordon, 2014-04-02 Born in the timber colony of New Brunswick Maine in 1848 Andrew Benoni Hammond got off to an inauspicious start as a teenage lumberjack By his death in 1934 Hammond had built an empire of wood that stretched from Puget Sound to Arizona and in the process had reshaped the American West and the nation's way of doing business When Money Grew on Trees follows Hammond from the rough and tumble world of mid nineteenth century New Brunswick to frontier Montana and the forests of Northern California from lowly lumberjack to unrivaled timber baron Although he began his career as a pioneer entrepreneur Hammond unlike many of his associates successfully negotiated the transition to corporate businessman Against the backdrop of western expansion and nation building his life dramatically demonstrates how individuals more than the impersonal forces of political economy shaped capitalism in this country and in doing so transformed the forests of the West from functioning natural ecosystems into industrial landscapes In revealing Hammond's instrumental role in converting the nation's public domain into private wealth historian Greg Gordon also shows how the struggle over natural resources gave rise to the two most pervasive forces in modern American life the federal government and the modern corporation Combining environmental labor and business history with biography When Money Grew on Trees challenges the conventional view that the development and exploitation of the western United States was dictated from the East Coast The West Gordon suggests was perfectly capable of exploiting itself and in his book we see how Hammond and other regional entrepreneurs dammed rivers logged forests and leveled mountains in just a few decades Hammond and his like also built cities towns and a vast transportation network of steamships and railroads to export natural resources and import manufactured goods In short they established much of the modern American state and economy

Northwest California John O. Sawyer, 2006-08-15 Annotation Northwestern California is one of the most fascinating and biologically diverse regions of North America This summary of a complex past

brings together geological botanical and zoological information to create a single natural history of one of the last unspoiled parts of California and the Pacific Northwest Building the Redwood Region James Michael Buckley,2000 **The Redwood Forest** Save-the-Redwoods League,2000 The Redwood Forest will be a vital resource for everyone involved with conservation of redwoods or any other forest BOOK JACKET *Workers and Dissent in the Redwood Empire* Daniel A. Cornford,1987 This excellent community history of the lumber region around Eureka California deserves a wide readership Cornford San Francisco State takes on a big question How did the radical republican tradition of the American Revolution lead to the conservative corporate hierarchy of the 20th century His case study looks at how timber and sawmill workers attitudes toward work and politics changed from the Civil War to World War I The author sees 19th century America s stress on equality as double edged critical of the corporate enterprise yet accommodating to paternalistic capitalism Nineteen hundred divides US history between republic and empire in Eureka workers briefly developed a sense of class struggle before the mill owners permanently defeated them Highly recommended James W Oberly Univ Of Wisconsin Eau Claire
