The Identity of John the Evangelist Dean Furlong, 2020-01-23 This book examines the various Johannine narratives found in writings in the period from Papias early second century to Eusebius early fourth century Dean Furlong argues that the first major revision of the Johannine narrative was the identification of John the Evangelist with John the Apostle the son of Zebedee at the beginning of the third century This in turn initiated a process of reinterpretation as the previously separate narratives of the two figures were variously spun into new configurations during the third and fourth centuries This process culminated with Eusebius's synthesis of the Johannine traditions which came to form the basis of what is considered the traditional Johannine story Furlong concludes that in the earliest narrative found in Papias John the Evangelist was identified not with the Apostle but with another disciple of Jesus known as John the Elder

Price, 2010-12-27 *Secret Scrolls* is the very first examination of some forty novels in which someone discovers a new gospel Sometimes it turns out to be a hoax will it be debunked before it can work its mischief If it proves genuine will it be brought to light Or will corrupt church officials manage to prevent it The book evaluates what each author has to say about historical Jesus scholarship or New Testament research in general Sometimes the authors have done their homework other times they haven't bothered and they wind up dishing up crazy rewrites of history and outlandish theories These novels deal with abiding issues of faith even without some new discovery As soon as one engages in biblical apologetics one has stepped onto the marshy ground of probabilistic arguments an entirely different epistemology that automatically replaces simple faith And so one comes to hold one's religious convictions more tentatively having become genuinely vulnerable to new evidence One may not remain a believer for long On the other hand one invites fanaticism if one's faith is dangerously predicated on the assurance that no new discovery will send one back to the drawing board *Secret Scrolls* assesses what each author imagines it would take to derail and debunk Christianity How mighty a blow must be dealt before the religion would fall Dan Brown's notion that a married Jesus would debunk the Nicene Creed is laughable As Wilbert Francis Howard once argued in his brief and fascinating history of New Testament research there is a genuine romance of New Testament scholarship and many of us are delighted to have the adventure continue in the speculative imaginations of capable novelists These books can both entertain and educate and so will *Secret Scrolls* *The Journal of Hellenic Studies*, 1889 **Catalogue of Sculpture in the Department of Greek and Roman Antiquities, British Museum, Volume I** A. Fragments Menander, 2008-05-08 The greatest writer of Greek New Comedy and the founding father of European comedy Menander c 341 290 BC wrote over one hundred plays of which only one complete play and substantial fragments of others survive This new verse translation is accurate and highly readable providing a consecutive text by using surviving words in the damaged papyri **Accounts and Papers of the House of Commons** Great Britain. Parliament. House of Commons, 1873 Parliamentary Papers Great Britain. Parliament. House of Commons, 1869 Menander, the Principal Fragments Menander (of Athens.), 1921 Menander was a Greek dramatist and the best known representative of Athenian New Comedy He wrote 108 comedies and took the prize at the Lenaia festival eight times His record at the City Dionysia is unknown **Philosophy of Nature** Paul K. Feyerabend, 2016-09-13 Philosopher physicist and anarchist Paul Feyerabend was one of the most unconventional scholars of his time His book *Against Method* has become a modern classic Yet it is not well known that Feyerabend spent many years working on a philosophy of nature that was intended to comprise three volumes covering the period from the earliest traces of stone age cave paintings to the atomic physics of the 20th century a project that as he conveyed in a letter to Imre Lakatos almost drove him nuts Damn the Naturphilosophie The book's manuscript was long believed to have been lost Recently however a typescript constituting the first volume of the project was unexpectedly discovered at the University of Konstanz In this volume Feyerabend explores the significance of myths for the early period of natural philosophy as well as the transition from Homer's aggregate universe to Parmenides' uniform ontology He focuses on the rise of rationalism in Greek antiquity which he considers a disastrous development and the associated separation of man from nature Thus Feyerabend explores the prehistory of science in his familiar polemical and extraordinarily learned manner The volume contains numerous pictures and drawings by Feyerabend himself It also contains hitherto unpublished biographical material that will help to round up our overall image of one of the most influential radical philosophers of the twentieth century
