## **Epic Of Askia Mohammed:**

**The Epic of Askia Mohammed** Mohammed I (Askia of Songhai.), Nouhou Malio, 1990      The Epic of Askia Mohammed Thomas Albert Hale, Thomas A. Hale, 1996-02-22 Askia Mohammed is the most famous leader in the history of the Songhay Empire which reached its apogee during his reign in 1493 1528 Songhay approximately halfway between the present day cities of Timbuktu in Mali and Niamey in Niger became a political force beginning in 1463 under the leadership of Sonni Ali Ber By the time of his death in 1492 the foundation had been laid for the development under Askia Mohammed of a complex system of administration a well equipped army and navy and a network of large government owned farms The present rendition of the epic was narrated by the griot or jester Nouhou Malio over two evenings in Saga a small town on the Niger River two miles downstream from Niamey The text is a word for word translation from Nouhou Malio's oral performance

**In Search of Askia Mohammed**, 2015 This thesis offers a detailed historical analysis of The Epic of Askia Mohammed a foundational myth that ranks among the more well known global tales of cultural heroes and state formation The sudden regime change that resulted in the collapse of the Songhay Sunni dynasty and the ascent of the Songhay Askia dynasty in 1492 93 is one of the most important events in West African history This swift rebellion reversed decades of destructive economic and religious policies As such the memory of these dynamic and transformative times was captured by the griots the oral historians of the Sudan Nouhou Malio a Songhay griot recounted his version of the demise of Sunni Ali and the rise of Askia Mohammed to Penn State professor Thomas Hale in 1980 81 This tale is packed with symbolic meaning When placed in historical and cultural context one finds that Malio communicated complex social and political ideas in what Joseph Campbell termed the picture language of mythology Campbell's theory of the Hero's Journey is the standard against which the themes of the epic are gauged The epic is compared to the historical record in order to find the deeper meaning and kernels of truth buried in the allegories of the tale Sunni Ali is remembered as a great warrior and a magician king while Askia Mohammed is viewed as an able administrator and devout Muslim This is a false dichotomy A nuanced understanding is achieved upon close investigation into the period of regime change Ultimately one finds that the epic is brimming with details concerning the Songhay past and present and that the players are much more complex than popularly perceived

**Abstract      Oral Epics from Africa** John William Johnson, Thomas Albert Hale, Thomas A. Hale, Stephen Paterson Belcher, 1997-04-22 It seems incredible that heretofore there has not been an introductory anthology of African epics presented in English Western literary culture has long emphasized the heritage of such well known epics as the Iliad the Odyssey and Aeneid But it is only recently that scholars have turned their attention toward capturing the rich oral tradition that is still alive in Africa The twenty five excerpts in this volume have been selected and introduced so as to offer English speaking readers a broad sample of the extensive epic traditions in Africa The general introduction and the background on each epic will enable readers to understand the context of each epic and will also provide leads for further inquiry

Sorcery, Totem, and Jihad in African Philosophy Christopher Wise, 2017-03-23 In this significant new work in African Philosophy Christopher Wise explores deconstruction's historical indebtedness to Egypt, African civilization and its relevance in Islamate Africa today. He does so by comparing deconstructive and African thought on the spoken utterance, nothingness, conjuration, the oath or vow, occult sorcery, blood, election, violence, circumcision, totemic inscription, practices, animal metamorphosis and sacrifice, the Abrahamic fratricide and jihad. Situated against the backdrop of the Ansar Dine's recent jihad in Northern Mali, *Sorcery Totem and Jihad in African Philosophy* examines the root causes of the conflict and offers insight into the Sahel's ancient complex and vibrant civilization. This book also demonstrates the relevance of deconstructive thought in the African setting, especially the writing of the Franco-Algerian philosopher Jacques Derrida.

**The Desert Shore** Christopher Wise, 2001      **Yambo Ouologuem** Christopher Wise, 1999 The first three parts of the book constitute an essential source for study of the reception of *Ouologuem*. It is however the concluding accounts of Wise's own research in the field which make this volume indispensable for future discussion of *Ouologuem* and open the path for innovative in vivo research into African writing. George Lang, *Research in African Literatures*. A wealth of well-documented information on literary, historical, philosophical and mundane aspects of *Ouologuem*'s work. Robert P. Smith Jr, *World Literature Today*. Wise provides today's postcolonial and African scholars with enough intellectual considerations to inspire a host of new essays, articles, presentations and lectures. Glen Bush, *African Studies Review*. Wise renders an important service by bringing together a dozen articles and several recent interviews on the work of this Malian West African francophone. Recommended for all college and university collections supporting studies of African, African American and postcolonial literature. Choice. From the appearance of *Bound to Violence* in the late 1960s, Yambo Ouologuem has been one of Africa's most controversial writers. For some critics, the young Malian signaled an entire new direction for African letters, a fiercely courageous postindependence literature. For others, his novel revealed too much, bringing to light horrors many preferred to ignore. Today, *Ouologuem* is credited with delivering the final death blow to Senghorian negritude, thus clearing the way for a more honest literature divested of the longing for a false African past. This book gathers the most important essays on *Ouologuem* from critics on three continents. Wise also includes his recent interviews with the reclusive author and a companion essay on *Ouologuem*'s present life among the Tidjaniya Muslims of northern Mali.      *The Comic Imagination in Modern African Literature and Cinema* Maik Nwosu, 2016-02-05 This book is a seminal study that significantly expands the interdisciplinary discourse on African literature and cinema by exploring Africa's under-visited carnivalesque poetics of laughter. Focusing on modern African literature as well as contemporary African cinema, particularly the direct-to-video Nigerian film industry known as Nollywood, the book examines the often-neglected aesthetics of the African comic imagination. In modern African literature, which sometimes creatively traces a path back to African folklore, and in Nollywood, with its aesthetic relationship to Onitsha Market Literature, the pertinent styles range from comic simplicitas to comic

magnitude with the facilitation of language characterization and plot by a poetics of laughter or lightness as an important aspect of style The poetics at work is substantially carnivalesque a comic preference or tendency that is attributable in different contexts to a purposeful comic sensibility or an unstructured but ingrained or virtual comic mode In the best instances of this comic vision the characteristic laughter or lightness can facilitate a revaluation or reappreciation of the world either because of the aesthetic structure of signification or the consequent chain of signification This referentiality or progressive signification is an important aspect of the poetics of laughter as the African comic imagination variously reflects across genres both the festival character of comedy and its pedagogical value This book marks an important contribution to African literature postcolonial literature world literature comic imagination poetics critical theory and African cinema

**Rest of the West** Shane Borrowman, Marcia Kmetz, Robert L. Lively, 2010-04-16 While the study of the history of rhetoric has expanded to include an ever growing range of rhetorical traditions lesser known figures and under and un studied texts it has continued to exist in the hermetically sealed binary of West and Rest Rhetorical scholars have begun uncovering the many marginalized rhetorical traditions silenced by the homogenous nature of our histories themselves reading and writing new histories of the rhetorical tradition through frames from gender to geography Despite these substantial challenges to the traditionally received history of rhetoric many voices are still silenced and many spaces are still excluded voices speaking within the spaces of the less than monolithic West itself This silencing and excluding continues perhaps because of assumptions that no texts exist from these marginalized voices or that substantial rhetorical activity was not conducted in these marginalized spaces regardless of already extant evidence of rhetorical activity as diverse as rural civic ethos in Classical Greece and Etruscan influences on Roman rhetoric or long standing passive knowledge of scholarly activity in Medieval Andalusia and Ireland Rhetoric in the Rest of the West attempts to expand the conversation in those gaps in the history of rhetoric by examining the traditions that lost the cultural competition and have been shrouded in the shadow of the rhetorical tradition     The Homeric Simile in Comparative Perspectives Jonathan L. Ready, 2018 Presenting a new take on what made the Homeric epics such successful examples of verbal artistry this volume explores the construction of the Homeric simile and the performance of Homeric poetry from the neglected comparative perspectives offered by the study of modern day oral traditions     **Deconstructing Zionism** Gianni Vattimo, Michael Marder, 2013-11-21 This volume in the Political Theory and Contemporary Philosophy series provides a political and philosophical critique of Zionism While other nationalisms seem to have adapted to twenty first century realities and shifting notions of state and nation Zionism has largely remained tethered to a nineteenth century mentality including the glorification of the state as the only means of expressing the spirit of the people These essays contributed by eminent international thinkers including Slavoj Žižek, Luce Irigaray, Judith Butler, Gianni Vattimo, Walter D. Mignolo, Marc Ellis and others deconstruct the political metaphysical myths that are the framework for the existence of Israel Collectively they offer a multifaceted critique of the metaphysical theological and onto political grounds of the Zionist project and the economic geopolitical and cultural outcomes of these foundations A significant contribution to the debates surrounding the state of Israel today this groundbreaking work will appeal to anyone interested in political theory, philosophy, Jewish thought and the Middle East conflict
