Gross,2003-12-15 Widely recognized as one of the West Coast s most important and critically acclaimed practitioners of conceptual and installation art David Ireland born 1930 has taken the concept of art itself as one of his subjects A self described post discipline artist guided by Zen thought and postmodern aesthetics Ireland moves fluidly from making small drawings to creating sculptures as large as houses Freely incorporating

anything within his conceptual or physical reach dirt concrete wire and other everyday materials his work is subtle puzzling and witty and consistently challenges traditional definitions of art In this book accompanying the first full scale retrospective of Ireland s work curator and author Karen Tsujimoto provides an insightful overview of more than thirty years of the artist s accomplishments from his drawings sculptures and site specific installations to his remarkable series of architectural transformations including his well known house at 500 Capp Street in San Francisco Chronicling Ireland s circuitous route to his calling Tsujimoto explores how key life experiences have influenced his artistic perspective from his early art student days through his years as an African importer and safari guide to his long standing interest in Eastern and particularly Zen philosophy and his deep connections with the San Francisco Bay Area conceptual art community An illuminating essay by art historian and curator Jennifer R Gross also considers Ireland s art in terms of historical materialism assessing his use of neglected materials and artifacts as a process of cultural preservation

Eminent art historian Charles C Eldredge brings together top scholars to celebrate forgotten artists and create a more inclusive history of American art Why do some artists become canonical while others equally respected in their time fall into obscurity This question is central to The Unforgettables a vibrant collection of essays by leading experts on American art Each contributor presents a brief for an artist deserving of new or renewed attention including artists from the colonial era to recent years working in a wide variety of mediums Histories of American art have traditionally highlighted the work of a familiar roster of artists largely white and male The achievements of their peers notably women and artists of color have gone uncelebrated The essays in this volume provide a new and richer understanding of American art expanding the canon to include many worthy talents A number of these artists were acclaimed in their day others having missed that acclaim may achieve it now With contributions from major scholars and museum professionals The Unforgettables rescues and revises reputations as it enhances and enriches the history of American art **New Art Examiner** ,1998 The independent voice of the visual arts *Earthquake Hazard Mitigation and Earthquake Insurance* United States.
