Epics Of The Sea:

The Homeric Epics and the Gospel of Mark Dennis Ronald MacDonald, Professor of New Testament and Christian Origins Dennis R MacDonald, 2000-01-01 In this groundbreaking book Dennis R MacDonald offers an entirely new view of the New Testament gospel of Mark The author of the earliest gospel was not writing history nor was he merely recording tradition MacDonald argues Close reading and careful analysis show that Mark borrowed extensively from the Odyssey and the Iliad and that he wanted his readers to recognise the Homeric antecedents in Mark's story of Jesus Mark was composing a prose anti epic MacDonald says presenting Jesus as a suffering hero modeled after but far superior to traditional Greek heroes Much like Odysseus Mark's Jesus sails the seas with uncomprehending companions encounters preternatural opponents and suffers many things before confronting rivals who have made his house a den of thieves In his death and burial Jesus emulates Hector although unlike Hector Jesus leaves his tomb empty Mark's minor characters too recall Homeric predecessors Bartimaeus emulates Tiresias Joseph of Arimathea Priam and the women at the tomb Helen Hecuba and Andromache And entire episodes in Mark mirror Homeric episodes including stilling the sea walking on water feeding the multitudes the Triumphal Entry The Oral Epic Karl Reichl, 2021-07-26 This book focuses on the performance of oral epics and explores the significance of performance features for the interpretation of epic poetry The leading question of the book is how the socio cultural context of performance and the various performance elements contribute to the meaning of oral epics This is a question which not only concerns epics collected from living oral tradition but which is also of importance for the understanding of the epics of antiquity and the Middle Ages which originated and flourished in an oral milieu The book is based on fieldwork in the still vibrant oral traditions of the Turkic peoples of Central Asia and Siberia The discussion combines fieldwork with theory it is not limited to Turkic epics but branches out into other oral traditions Religion, Myth and Folklore in the World's Epics Lauri Honko, 2011-08-02 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series **The Great Epics of Ancient India** Romesh Chunder Dutt, 1900 Abridged version of R m y a a of V l m ki and Mah bh rata **Flow Cytometry in Microbiology** David Lloyd, 2013-11-11 As yet flow cytometry is not used so widely in microbiology as in some other disciplines This volume presents contributions flow cytometry to study a from research microbiologists who use diverse set of problems It illustrates the power of the technique and may persuade others of its usefulness Most of the contributors gathered in Cardiff on 23 October 1991 at a meeting organized for the Royal

Microscopical Society by Dr Richard Allman but the content of their chapters is not limited by the discourse of that meeting and for balance other experts were invited to write for this book Flow Cytometry in Microbiology thus represents the first collection of articles specifically devoted to the applications of a technique which promises so much to those investigating the microbial world Cardiff 1992 David Lloyd Contents List of Contributors ix 1 Flow Cytometry A Technique Waiting for Microbiologists David Lloyd 1 2 The Physical and Biological Basis for Flow Cytometry of Escherichia coli Erik Boye and Harald B Steen 11 3 Flow Cytometric Analysis of Heterogeneous Bacterial Populations Richard Allman Richard Manchee and David Lloyd 27 4 On the Determination of the Size of Microbial Cells Using Flow Cytometry Hazel M Davey Chris L Davey and Douglas B Kell 49 5 Uses of Membrane Potential Sensitive Dyes with Bacteria David Mason Richard Allman and David Lloyd
