Episcopal Ordination and Ecclesial Consensus Sharon L. McMillan, 2005 This study provides the historical and liturgical foundations for the election of bishops Provided by publisher **A Theology of the Church for the Third Millennium** Kenan B. Osborne, Rev Kenan Osborne, 2009 At the beginning of the new millennium the Christian Churches are in a process of renewal The Roman Catholic Church since Vatican II has been in a major stage of renewal Contemporary globalization multi cultural interrelationships and inter religious dialogues have presented serious challenges to these renewal efforts In this volume I want to offer to the Catholic Renewal and from there to other denominational renewals a view of the church from the rich tradition of Franciscan philosophy and theology To date there are only a few books which include small essays on this theme This volume presents an in depth Franciscan approach to ecclesiology **A Companion to Priesthood and Holy Orders in the Middle Ages** Greg Peters, C. Colt Anderson, 2015-11-02 In A Companion to Priesthood and Holy Orders in the Middle Ages a select group of scholars explain the rise and function of priests and deacons in the Middle Ages Though priests were sometimes viewed through the lens of function the medieval priesthood was also defined ontologically those marked by God who performed the sacraments and consecrated the Eucharist While their role grew in importance medieval priests continued to fulfil the role of preacher confessor and provider of pastoral care As the concept of ordination changed theologically the practices and status of bishops priests and deacons continued to be refined with many of these medieval discussions continuing to the present day **Understanding Medieval Liturgy** Helen Gittos, Sarah Hamilton, 2017-05-15 This book provides an introduction to current work and new directions in the study of medieval liturgy It focuses primarily on so called occasional rituals such as burial church consecration exorcism and excommunication rather than on the Mass and Office Recent research on such rites challenges many established ideas especially about the extent to which they differed from place to place and over time and how the surviving evidence should be interpreted These essays are designed to offer guidance about current thinking especially for those who are new to the subject want to know more about it or wish to conduct research on liturgical topics Bringing together scholars working in different disciplines history literature architectural history musicology and theology time periods from the ninth to the fifteenth centuries and intellectual traditions this collection demonstrates the great potential that liturgical evidence offers for understanding many aspects of the Middle Ages It includes essays that discuss the practicalities of researching liturgical rituals show through case studies the problems caused by over reliance on modern editions explore the range of sources for particular ceremonies and the sort of questions which can be asked of them and go beyond the rites themselves to investigate how liturgy was practised and understood in the medieval period **Rites of Ordination** Paul F. Bradshaw, 2013 A Pueblo book Includes index Includes bibliographical references and index Table of Contents Historical and typological background Ministry in the earliest Christian communities Ministry and ordination in the third and fourth centuries Early ordination rites Ordination rites in the churches of the East

Ordination rites in the medieval West The theology of ordination in the Middle Ages Orders and ministry in the churches of the Reformation The Roman Catholic Church from the Council of Trent to the present Other modern ordination rites **The Sacraments and Consumer Culture** Timothy Brunk,2020 What does consumerism have to do with the sacraments We live in cultures where our senses of meaning identity and purpose are often found in what we purchase Apart from the question of hedonism there is the question of how we orient ourselves in an environment in which we end up marketing our very selves In this book Timothy Brunk examines how this consumer culture has had a corrosive effect on the seven sacraments of the Catholic Church He also assesses how sacramental worship can provide resources for responsible Christian discipleship in today s consumer culture **Dressing Judeans and Christians in Antiquity** Kristi Upson-Saia,Carly

Daniel-Hughes,Alicia J. Batten,2016-05-13 The past two decades have witnessed a proliferation of scholarship on dress in the ancient world These recent studies have established the extent to which Greece and Rome were vestimentary cultures and they have demonstrated the critical role dress played in communicating individuals identities status and authority Despite this emerging interest in ancient dress little work has been done to understand religious aspects and uses of dress This volume aims to fill this gap by examining a diverse range of religious sources including literature art performance coinage economic markets and memories Employing theoretical frames from a range of disciplines contributors to the volume demonstrate how dress developed as a topos within Judean and Christian rhetoric symbolism and performance from the first century BCE to the fifth century CE Specifically they demonstrate how religious meanings were entangled with other social logics revealing the many layers of meaning attached to ancient dress as well as the extent to which dress was implicated in numerous domains of ancient religious life **Studia Patristica** Jane Baun,2010 Papers presented at the Fifteenth

International Conference on Patristic Studies held in Oxford 2007 see also Studia Patristica 44 46 47 48 and 49 The successive sets of Studia Patristica contain papers delivered at the International Conferences on Patristic Studies which meet for a week once every four years in Oxford they are held under the aegis of the Theology Faculty of the University Members of these conferences come from all over the world and most offer papers These range over the whole field both East and West from the second century to a section on the Nachleben of the Fathers The majority are short papers dealing with some small and manageable point they raise and sometimes resolve questions about the authenticity of documents dates of events and such like and some unveil new texts The smaller number of longer papers put such matters into context and indicate wider trends The whole reflects the state of Patristic scholarship and demonstrates the vigour and popularity of the subject

converge to produce the episcopacy The book gives an historical overview from the earliest times when bishops were elected by the clergy and people of the diocese to the present day where they are normally appointed by the pope In light of the current clergy sexual abuse scandal many distinguished theologians canonists and church historians have called for greater popular participation in the selection of bishops and Electing our Bishops discusses ideas for new forms of election that involve both clergy and laity This book is an important tool for Catholics who want to understand the history and process of the election of bishops as well as how the process might change in the future

Burgess, 1995 **The Catholic Periodical and Literature Index**, 2006 **Art, Power, and Resistance in the Middle Ages** Pamela A. Bishops and the Politics of Patronage in Merovingian Gaul Gregory I. Halfond, 2019-09-15 Following the dissolution of the Western Roman Empire local Christian leaders were confronted with the problem of how to conceptualize and administer their regional churches As Gregory Halfond shows the bishops of post Roman Gaul oversaw a transformation in the relationship between church and state He shows that by constituting themselves as a corporate body the Gallic episcopate was able to wield significant political influence on local regional and kingdom wide scales Gallo Frankish bishops were conscious of their corporate membership in an exclusive order the rights and responsibilities of which were consistently being redefined and subsequently expressed through liturgy dress physical space preaching and association with cults of sanctity But as Halfond demonstrates individual bishops motivated by the promise of royal patronage to provide various forms of service to the court often struggled sometimes unsuccessfully to balance their competing loyalties However even the resulting conflicts between individual

bishops did not he shows fundamentally undermine the Gallo Frankish episcopate s corporate identity or integrity Ultimately Halfond provides a far more subtle and sophisticated understanding of church state relations across the early medieval period

The Harvard Theological Review ,1913 **Piety and Plurality** Glenn Thomas Miller,2014-06-09 I began studying American theological education in the 1970s and Piety and Plurality is the third of three studies In Piety and Intellect I examined the colonial and nineteenth century search for a form of theological education that was true to the church s confessional traditions and responsible to the intellectual demands of the age In Piety and Profession I described how that model was modified under the impact of the new biblical criticism and by the American belief in professionalism In this volume I have tried to bring the story up to date Unfortunately I did not find one unifying theme for the period Rather theological education seemed to move forward on a number of different levels each with its own story Here I have tried to capture some of the dynamics of this movement and to indicate how theological educators have struggled with the plurality in their midst In the process theological education has learned to live with its contradictions and problems As important as the stories are however there is also the story of the schools struggles to live in the midst of a constant financial crisis that checked development at every stage

Nashotah Review ,1974 **Fundamental Theology of the Priesthood, A** Cardinal Ouellet, Marc,2023 The Symposium for a Fundamental Theology of the Priesthood held at the Vatican from February 17 to 19 2022 inaugurated a new phase of theological and pastoral reflection in the context of contemporary questions regarding the ministry of priests and the priesthood of the baptized The deepening of the relationship between the two participations baptismal and ministerial in the one priesthood of Christ is fundamental for renewing the mission of the Church in the spirit of openness and dialogue of the Second Vatican Council This perspective is also pertinent for the promotion and communication of all vocations especially that of women whose charisms are yet to be fully recognized and integrated in their rightful place within the life of the Church Finally and no less important this reflection offers synodal practice a solid theological foundation for making the participation of the faithful dynamic which must not only correct the limitations and defects of the exercise of the ordained ministry but also actively and permanently exercise the gifts and charisms that the Holy Spirit has poured out on all baptized people
