Women@Work: Women, Careers and Competitive Advantage in the New Millennium Avivah Wittenberg-Cox, 2004 *Cities of Pleasure* Alan Collins, 2013-09-13 This book contains a collection of cutting edge chapters that explore various connections between urban living sexuality and sexual desire around the world The key themes featured address a number of topical issues including the controversies and debates raging around the evolution defining patterns and appropriate regulation of commercial sex zones and markets in the urban landscape how gay public spaces districts and gay villages emerged and developed in various towns and cities around the world how changing attitudes to and the usage of urban sexual spaces as depicted in iconic television series such as *Sex and the City* and *Queer as Folk* reflect the reality of working women's or gay men's changing life experiences With detailed case

studies and a strong interdisciplinary appeal this book will be a valuable reference for postgraduates and advanced students in the fields of cultural studies as well as human urban and social geography This book was previously published as a special issue of the journal Urban Studies The Strange Death of Marxism Paul Edward Gottfried, 2005-09-08 The Strange Death of Marxism seeks to refute certain misconceptions about the current European Left and its relation to Marxist and Marxist Leninist parties that existed in the recent past Among the misconceptions that the book treats critically and in detail is that the Post Marxist Left a term the book uses to describe this phenomenon springs from a distinctly Marxist tradition of thought and that it represents an unqualified rejection of American capitalist values and practices Three distinctive features of the book are the attempts to dissociate the present European Left from Marxism the presentation of this Left as something that developed independently of the fall of the Soviet empire and the emphasis on the specifically American roots of the European Left Gottfried examines the multicultural orientation of this Left and concludes that it has little or nothing to do with Marxism as an economic historical theory It does however owe a great deal to American social engineering and pluralist ideology and to the spread of American thought and political culture to Europe American culture and American political reform have foreshadowed related developments in Europe by years or even whole decades Contrary to the impression that the United States has taken antibourgeois attitudes from Europeans the author argues exactly the opposite Since the end of World War II Europe has lived in the shadow of an American empire that has affected the Old World including its self described anti Americans Gottfried believes that this influence goes back to who reads or watches whom more than to economic and military disparities It is the awareness of American cultural as well as material dominance that fuels the anti Americanism that is particularly strong on the European Left That part of the European spectrum has however reproduced in a more extreme form what began as an American leap into multiculturalism Hostility toward America however can be transformed quickly into extreme affection for the United States which occurred during the Clinton administration and during the international efforts to bring a multicultural society to the Balkans Clearly written and well conceived The Strange Death of Marxism will be of special interest to political scientists historians of contemporary Europe and those critical of multicultural trends particularly among Euro American conservatives **La Grande Nurserie - En finir avec**

l'infantilisation des Français Mathieu Laine, 2006-02-22 La victime est devenue la meilleure amie de l'homme politique A l'heure où l'Etat providence ne fait plus recette les politiques largissent leurs champs de compétences des sujets consensuels et rassembleurs Ils nous promettent la construction d'un monde propre et transparent durable et solidaire vouant un culte absolu la vie et interdisant l'intolérance les insultes et la bêtise Même la morale semble avoir tenté le nationalisme L'Etat nounou qui nous borde et nous observe est tout puissant doux et attentif toujours présent pour combler les aspirations de la vie Au-delà d'exemples caricaturaux et souvent comiques va-t-on bientôt voir apparaître sur nos barres chocolatées que le sucre fait grossir ou sur le fronton des maternités que naître fait mourir c'est le destin de la société toute entière qui est en jeu Nous sommes bel

et bien entrés dans l'ère de la tyrannie douce dans cet espace rose bonbon qui brise les énergies individuelles en refusant le risque cartelles formes audacieuses pour préserver son image et fait fuir les talents vers des cieux plus cléments Si le fameux modèle social français est aujourd'hui en faillite c'est parce qu'il est fondé sur le mythe de la Grande Nurserie un système destructeur dont nous pouvons sortir en faisant nouveau fidèles la tradition des Lumières le pari de la responsabilité Parce que la responsabilité nous avons tous y gagner
