Andrew Hambler

Equal Opportunity Or More Opportunity The Good Thing About Discrimination:

Equal Opportunity Or More Opportunity? Richard Allen Epstein, Simon F. Deakin, 2002 Epstein claims that current human rights laws especially anti discrimination statutes create more injustices than they solve He calls for the abolition of the Commission for Racial Equality the Equal Opportunities Commission the Disability Rights Commission and other similar bodies The state should guarantee civil capacity the right to participate in a social order organized under the law of property contract and tort Employment law should enforce the contractual terms emerging from private agreements entered into willingly and without coercion But when governments tinker with employment relations beyond this the results can be damaging Deakin argues that competition and the enforcement of contracts alone are not sufficient to eliminate discrimination Legislation has a role to play in unravelling persistent forms of discrimination and opening up labor markets to disadvantaged groups

Religious Expression in the Workplace and the Contested Role of Law Andrew Hambler, 2014-10-24 The workplace is a key forum in which the issue of religion and its position in the public sphere is under debate Desires to observe and express religious beliefs in the workplace can introduce conflict between employees and employers This book addresses the role the law plays in the resolution of these potential conflicts The book considers the definition and underlying motives of religious expression and explores the different ways it may impact the workplace Andrew Hambler identifies principled responses to workplace religious expression within a liberal state and compares this to the law applying in England and Wales and its interpretation by courts and tribunals The book determines the extent to which freedom of religious expression for the individual enjoys legal protection in the workplace in England and Wales and asks whether there is a case for changing the law to strengthen that protection The book will be of great use and interest to scholars and students of religion and the law employment law and religion and human rights

The Right to Equality in European Human Rights Law Charilaos Nikolaidis, 2014-07-25 A right to equality and non discrimination is widely seen as fundamental in democratic legal systems But failure to identify the human interest that equality aims to uphold reinforces the argument of those who attack it as morally empty or unsubstantiated and weakens its status as a fundamental human right This book argues that an understanding of the human interest which equality aims to uphold is feasible within the jurisprudence of the European Court of Human Rights ECtHR and the European Court of Justice ECJ In comparing the evolution of the prohibition of discrimination in the case law of both Courts Charilaos Nikolaidis demonstrates that conceptual convergence within the European Convention on Human Rights ECHR and the EU on the issue of equality is not as far as it might appear initially While the two bodies of equality law are extremely divergent as to the requirements they impose their interpretation by the international judiciary might be properly analysed under a common light to emphasise the substantive dimension of equality in European Human Rights law The book will be of great use and interest to scholars and students of human rights discrimination law and European politics

Proportionality, Equality Laws, and Religion

Megan Pearson, 2017-03-16 This book considers how the law should manage conflicts between the right of religious freedom and that of non discrimination on the grounds of sexual orientation These disputes are often high profile and frequently receive a lot of media attention and public debate Starting from the basis that both these rights are valuable and worthy of protection but that such disputes are often characterised by animosity it contends that a proportionality analysis provides the best method for resolving these conflicts The work takes a comparative approach examining the law in England and Wales Canada and the USA and examines four main areas of law considering how a proportionality approach could be used in each The book will be an invaluable resource for students and researchers in the areas of Public Law Human Rights Law Law and Religion Discrimination Law and Comparative Law **Employment Law** Stephen Taylor, Astra Emir, 2015 Employment Law 4e provides a complete and accessible introduction to the subject with a wealth of practical activities and a unique chapter on preparing and presenting a case Civil Courts and the European Polity Chantal Mak, Betül Kas, 2023-07-13 The chapters collected in this book explore the place and role of judge made private law in an emerging European polity Examining case law from the perspective of different theories and viewpoints scholars and judges assess and reflect on the role of judges in civil cases for polity building in Europe The chapters thus present a kaleidoscopic view on the dynamics of private law adjudication against a European backdrop The book aims to add a private legal perspective to existing discourses in European constitutional law on Europe s political constellation It aspires to enrich two debates the first on the influence of fundamental rights in private legal relations and the second on the constitutional dimension of European private law The contributions are placed within a framework of five sub categories or dimensions of judge made European private law politics of European private law adjudication rights remedies representation and reflections of judges on specific cases Inventing Equal Opportunity Frank Dobbin, 2009-06-15 The author demonstrates how corporate personnel experts not Congress or the courts determined what equal opportunity meant in practice designing changes in how employers hire promote and fire workers and ultimately defining what discrimination is and is not He shows how Congress and the courts merely endorsed programs devised by corporate personnel book jacket *Encyclopedia of Race and Ethnic Studies* Ellis Cashmore, 2004-03-01 Developed from the critically acclaimed and commercially successful Dictionary of Race and Ethnic Relations now in its fourth edition Encyclopedia of Race and Ethnic Studies has been assembled by a world class team of international scholars led by Ellis Cashmore to provide an authoritative single volume reference work on all aspects of race and ethnic studies From Aboriginal Australians to xenophobia Nelson Mandela to Richard Wagner sexuality to racial profiling the Encyclopedia is organized alphabetically and reflects cultural diversity in a global context The entries range from succinct 400 word definitions to in depth 2000 word essays to provide comprehensive coverage of all the key terms concepts and debates important figures both historical and contemporary landmark cases historical events Although unafraid to engage with cutting edge theory the Encyclopedia is uncluttered by jargon and has been written in a lucid facts fronted style
