Equality And Inequality In Eastern Europe:

Equality and Inequality in Eastern Europe Pierre Kende, Zdenek Strmiska, Jean Charles Asselain, 1987 **Gender Inequality in the Eastern European Labour Market** Giovanni Razzu, 2016-10-26 Under communism there was in the countries of Eastern Europe a high level of gender equality in the labour market particularly in terms of high participation rates by women. The transition from communism has upset this situation with different impacts in the different countries. This book presents a comprehensive overview of gender and the labour market since the fall of communism in a wide range of Eastern European countries. Each country chapter describes the nature of inequality in the particular country and goes on to examine the factors responsible for this including government policies changing social attitudes levels of educational attainment and the impact of motherhood. Overall the book provides an interesting comparison to the situation in Western developed countries outlining differences and similarities. No one single Eastern European model emerges while as in Western developed countries a range of experiences and trends is the norm **Gender Inequality in the Eastern European Labour Market** Giovanni Razzu, 2016-10-26 Under communism there was in the countries of Eastern Europe a high level of gender equality in the labour market particularly in terms of high participation rates by women. No one single Eastern European model emerges while as in Western developed countries a range of experiences and trends is the norm **The Challenges of European Governance in the Age of Economic Stagnation, Immigration, and Refugees** Henry F. Carey, 2016-12-20 This book examines the political and legal challenges of regional governance of the 28 countries of the European Union and the 48 in the Council of Europe. The contributions, dilemmas and moral hazards from this record of nearly seven decades of regional inter governmental institutions has kept the peace but produced episodes of crisis from overstretching jurisdictions thematically and geographically. Polarization between nationalist and integrative forces has displaced the idealistic aspirations of prior decades to build the rule of law and deter violence. Academics and policy makers will learn from the various legal and political efforts to integrate supranational and inter governmental agencies with national political systems **Ethnic Stratification and Economic Inequality around the World** Max Haller in collaboration, Anja Eder, 2016-03-03 The modern world is characterised by pervasive economic inequalities. Strong economic growth in some developing countries has contributed to a degree to a reduction in the levels of inequality between nations yet inequality within nations remains high and in some cases continues

to increase Ethnic Stratification and Economic Inequality around the World investigates the reasons for these striking differences exploring the coincidence and interaction between economic stratification and ethnic differentiation Drawing on extensive international survey and statistical data the author develops a new theory and concrete hypotheses concerning the conditions which lead toward extreme inequality and those which tend toward greater equality A systematic examination of the interaction between class structures social stratification and ethnic differentiation this book sheds light on the manner in which the resulting social structures produce different levels of economic inequality offering a fivefold typology of patterns of ethnic stratification which can be applied to present day world regions Drawing on the work of Max Weber to provide a rigorous investigation of inequality around the world it demonstrates what sociology as a science of social reality can significantly contribute to our understanding of global economic stratification The book is relevant for a wide social scientific audience particularly for sociologists economists and political scientists working in a comparative perspective **Security**
