Community - Ireland, 1994 EU Equality Law Elise Muir, 2018 The focus of this book is the evolution of EU policies designed to realize specific fundamental rights and how this is delivered in EU equality law **Sex Equality Policy in Western Europe** Frances Gardiner, 2005-07-25 This book presents a wide ranging comparative analysis of the development of sex equality policies within Europe The contributors comprising both European and US based scholars address a very current political issue This is an area of policy that has reached the decision making stage in much of Europe and it is thus possible to assess the outcome of policy making and to account for cross national variations of sex equality policy measures The contributors discuss the similarities and differences in levels of awareness commitment to equality of opportunity and readiness to turn rhetoric into reality in a number of west European countries including Spain the Netherlands Britain Norway and Ireland **Mapping the Women's Movement** Monica Threlfall, 1996 Second wave feminism is now in its third decade The movement that began in the 1960s in the United States has gone through many permutations continuously emerging in new forms in different parts of the world Awareness of gender has entered popular culture redrawn political divisions and impinged on national economies and international institutions **Theorizing Feminist Policy** Amy G. Mazur, 2002-02-07 Theorizing Feminist Policy avoids the usual clash between feminist analysis and non feminist social science in mapping out the new field of feminist comparative policy Instead it intersects empirical feminist policy analysis with non feminist policy studies to define and contribute to this new and emerging field of study Consulting a wide sweep of empirical and theoretical work the book first defines Feminist Comparative Policy showing how it dialogs with the adjacent non feminist areas of Comparative Public Policy Comparative Politics and Public Policy Studies Theorizing Feminist Policy seeks then to strengthen one of the weakest links of this new area the study of explicitly feminist government action In the remaining chapters the books defines feminist policy as a separate sector with eight sub sectors blueprint political representation equal employment reconciliation family law reproductive rights sexuality and violence and public service delivery It develops a qualitative and comparative framework for analysing the profiles and styles of feminist policy in post industrial democracies and uses the framework to examine twenty seven different cases of feminist policy formation across thirteen different countries The initial empirical study makes a case for feminist policy as a new sector of state action concluding tentatively that successful feminist policy formation is a subtle combination of feminist strategic partnerships non feminist support institutions culture and international influences These tentative findings also shed new light on the perennial questions of comparative politics and policy do politics institutions national policy style sector institutions or culture matter the most in determining policy processes and outcomes The books finishes by suggesting the next steps in developing comparative theories of feminist policy formation Theorising Feminist Policy therefore goes beyond just describing the dimensions of feminist policy from existing literature it seeks to systematically contribute to comparative theories of how the contemporary post industrial state has taken on social change at the beginning of the 21st century

Incomparable Worth Steven E. Rhoads,1994-08-26 Comparable worth or pay equity is now an established policy in some

US states such as Minnesota and the UK and Australia Yet Steven Rhoads s research on those jurisdictions indicates there is no consensus on how to compare the value of dissimilar jobs involving comparable amounts of effort skill and responsibility Consultants whose job evaluation systems are used in states adopting comparable worth policies do not agree on the factors to be included or how they should be weighed and arbitrary results produced by comparable worth policies have led to inefficient functioning of the labour markets These policies have generated ill will among the workers who lose pay equity cases with political as well as economic consequences The book argues that jobs are truly incomparable using the methods comparable worth relies on and that the principles of comparable worth are not reconcilable with those of a market economy

Employment Law Catherine Barnard,2006 EC Employment Law provides a thorough and authoritative guide to EC law on employment within a social and economic context Extensive coverage is given of complex equality caselaw and legislation and many issues not covered elsewhere are examined **Indirect Discrimination** Christa Tobler,2005 Introduced into

European Community law by the Court of Justice through its case law in the field of free movement of workers the legal concept of indirect discrimination has evolved into one with far wider and greater relevance to many other areas of EC law as well This book analyses the concept of indirect discrimination in a broad and comparative context which encompasses both
