Equality And Responsibility:

Equality and Responsibility Christopher Lake, 2001-11-08 Arguments about distributive justice often take place around two ideas One is that good should be distributed equally The other is that how people fare in life should depend on what they are responsible for The author asks what draws us to these two ideas and examines recent attempts by egalitarian thinkers to bring them together in a single distributive ideal Underlying this ideal is the egalitarian intuition the intuition that it is objectionable for some to be worse off than others through no fault of their own in a wide ranging discussion Lake tests that intuition from a variety of perspectives and points to the gaps in our current thinking about quality and individual responsibility

Equality, Responsibility, and the Law Arthur Ripstein, 2001-03-12 Examines responsibility and luck as these issues arise in tort law criminal law and distributive justice

Equality, Responsibility, and the Law Arthur Ripstein, 1998-10-28 This book examines responsibility and luck as these issues arise in tort law criminal law and distributive justice The central question is whose bad luck is a particular piece of misfortune Arthur Ripstein argues that there is a general set of principles to be found that clarifies responsibility in those cases where luck is most obviously an issue accidents mistakes emergencies and failed attempts at crime In revealing how the problems that arise in tort and criminal law as well as distributive justice invite structurally parallel solutions the author also shows the deep connection between individual responsibility and social equality This is a challenging and provocative book that will be of special interest to moral and political philosophers legal theorists and political scientists

Luck Egalitarianism Carl Knight, 2009-07-10 How should we decide which inequalities between people are justified and which are unjustified One answer is that such inequalities are only justified where there is a corresponding variation in responsible action or choice on the part of the persons concerned This view which has become known as luck egalitarianism has come to occupy a central place in recent debates about distributive justice This book is the first full length treatment of this significant development in contemporary political philosophy Each of its three parts addresses a key question concerning the theory Which version of luck egalitarian comes closest to realizing luck egalitarian objectives Does luck egalitarianism succeed as a view of egalitarian justice And is it sound as an account of distributive justice in general The book provides a distinctive answer to each of these questions along the way engaging with the leading theorists identified in the literature as luck egalitarians such as Richard Arneson G A Cohen and Ronald Dworkin as well as the most influential critics including Elizabeth Anderson Marc Fleurbaey Susan Hurley Samuel Scheffler and Jonathan Wolff Key Features Presents a critical survey of already classic debates about responsibility equality and justice Provides a sustained engagement with luck egalitarianism s critics Stakes a distinctive position on the key questions regarding luck egalitarianism

Social Justice and Individual Ethics in an Open Society Frank Vandembroucke, 2012-12-06 Can the need for incentives justify inequality Starting from this question Frank Vandembroucke examines a conception of justice in which both equality and responsibility are involved In the first part of the inquiry which

explores the implementation of that conception of justice the justification of incentives assumes that agents make personal choices based only upon their own interests The second part of the book challenges the idea that a normative conception of distributive justice can be based on that traditional assumption i e that personal choices are not the subject matter of justice Thus Vandenberg questions the Rawlsian idea that the primary subject of a theory of justice is the basic structure of society and not the individual conduct of its citizens For a society to be really just the ethos of individual conduct has to serve justice Non mathematical readers can skip the formal model proposed in Chapter 3 and understand the rest of the book

Two Models of Equality and Responsibility Michael Blake, Mathias Risse, John F. Kennedy School of Government. Research Programs, 2004 *Equal Opportunity, Equality, and Responsibility* Alexander Edmund Voorhoeve, 2005

Rethinking Equality Dr. Chris Armstrong, 2006-09-19 Although formally equal relations between citizens are actually characterised by many and varied forms of inequality Rethinking Equality provides a clear critical and very up to date account of the most important contemporary egalitarian theories **Handbook of Equality of Opportunity**, 2024-07-12

This Handbook provides an authoritative exposition of equality of opportunity It presents the different concepts most commonly associated with equality of opportunity and discusses the many problems dominating the controversies on equality of opportunity at the theoretical policy or practical level The chapters give a concise exposition of the different conceptions and basic concepts of equal opportunities They clarify variables that are part of the algorithm of equal opportunities e g opportunity equality non discrimination fairness responsibility chance and choice excellence qualifications effort talent merit desert inequality and risk The idea of equality of opportunity has traditionally been associated with a set of largely unquestioned ideals and over the last 50 years it has been at the very centre of the major progressive social changes and firmly entrenched in political rhetoric Yet the idea of equality of opportunity is far from unquestionable or unproblematic as the only solid assumption different conceptions have in common is their rejection of fixed social relations but not hierarchy itself Disagreements over the fundamental principles criticism over the inefficiency of policies aiming to ensure equal opportunities and objections to their unfairness all pose questions that current conceptions answer in different ways This Handbook examines a wide variety of questions about issues of motivation procedures genealogy taxonomy and compensation *Fairness, Responsibility, and Welfare* Marc Fleurbaey, 2008-06-26 What is a fair distribution of resources and other goods when individuals are partly responsible for their achievements This book develops a theory of fairness incorporating a concern for personal responsibility opportunities and freedom With a critical perspective it makes accessible the recent developments in economics and philosophy that define social justice in terms of equal opportunities It also proposes new perspectives and original ideas The book separates mathematical sections from the rest of the text so that the main concepts and ideas are easily accessible to non technical readers It is often thought that responsibility is a complex notion but this monograph proposes a simple analytical framework that makes it possible to disentangle the different

concepts of fairness that deal with neutralizing inequalities for which the individuals are not held responsible rewarding their effort respecting their choices or staying neutral with respect to their responsibility sphere It dwells on paradoxes and impossibilities only as a way to highlight important ethical options and always proposes solutions and reasonable compromises among the conflicting values surrounding equality and responsibility The theory is able to incorporate disincentive problems and is illustrated in the examination of applied policy issues such as income redistribution when individuals may be held responsible for their choices of labor supply or education social and private insurance when individuals may be held responsible for their risky lifestyle second chance policies the measurement of inequality of opportunities and social mobility

Responsibility and Justice Matt Matravers, 2013-04-24 In this lively and accessible book Matt Matravers considers the role of responsibility in politics morality and the law In recent years responsibility has taken a central place in our lives In politics both Tony Blair and George W Bush have claimed that individual responsibility is at the centre of their policy agendas In morality and the law it seems just that people should be rewarded or punished only for things for which they are responsible Yet responsibility is a hotly contested concept Some philosophers claim that it is impossible while others insist on both its possibility and importance This debate has become increasingly technical in the philosophical literature but it is seldom connected to our practices of politics and the law Matravers asks What are we doing when we hold people responsible in deciding questions of distributive justice or of punishment By addressing this question he not only shows how philosophy can help in thinking about current political and legal controversies but also how we can keep hold of the idea of responsibility in an age in which we are increasingly impressed by the roles of genetics and environment in shaping us and our characters

Reasonableness and Responsibility: A Theory of Contract Law Martín Hevia, 2012-09-14 If as John Rawls famously suggests justice is the first virtue of social institutions how are we to understand the institution of contract law This book proposes a Rawlsian theory of contract law It argues that justice requires that we understand contract rules in terms of the idea of reasonable terms of interaction that is terms that would be accepted by reasonable persons moved by a desire for a social world in which they as free and equal can cooperate with others on terms they accept On that basis the book explains the main doctrines of contract law including those governing third parties in both the Common Law and the Civil Law

National Responsibility and Global Justice David Miller, 2007-11-22 Oxford Political Theory presents the best new work in contemporary political theory It is intended to be broad in scope including original contributions to political philosophy and also work in applied political theory The series will contain works of outstanding quality with no restriction as to approach or subject matter Series Editors Will Kymlicka David Miller and Alan Ryan This book presents a non cosmopolitan theory of global justice In contrast to theories that seek to extend principles of social justice such as equality of opportunity or resources to the world as a whole it argues that in a world made up of self determining national communities a different conception is needed The book presents and defends an account of national

responsibility which entails that nations may justifiably claim the benefits that their decisions and policies produce while also being held liable for harms that they inflict on other peoples. Such collective responsibility extends to responsibility for the national past so the present generation may owe redress to those who have been harmed by the actions of their predecessors. Global justice therefore must be understood not in terms of equality but in terms of a minimum set of basic rights that belong to human beings everywhere. Where these rights are being violated or threatened remedial responsibility may fall on outsiders. The book considers how this responsibility should be allocated and how far citizens of democratic societies must limit their pursuit of domestic objectives in order to discharge their global obligations. The book presents a systematic challenge to existing theories of global justice without retreating to a narrow nationalism that denies that we have any responsibilities to the world's poor. It combines discussion of practical questions such as immigration and foreign aid with philosophical exploration of for instance the different senses of responsibility and the grounds of human rights.

Theories of International Responsibility Law Samantha Besson, 2022-09-08 A dialogue between international responsibility lawyers and legal philosophers laying the groundwork for new research and legal reform.

Responsibility and Distributive Justice Carl Knight, Zofia Stemplowska, 2011-03-03 This volume presents new essays investigating a difficult theoretical and practical problem: how do we find a place for individual responsibility in a theory of distributive justice? Does what we choose affect what we deserve? Would making justice sensitive to responsibility give people what they deserve? Would it advance or hinder equality?

Cosmopolitan Responsibility Jan-Christoph Heilinger, 2019-11-18 The world we live in is unjust. Preventable deprivation and suffering shape the lives of many people while others enjoy advantages and privileges aplenty. Cosmopolitan responsibility addresses the moral responsibilities of privileged individuals to take action in the face of global structural injustice. Individuals are called upon to complement institutional efforts to respond to global challenges such as climate change, unfair global trade or world poverty. Committed to an ideal of relational equality among all human beings, the book discusses the impact of individual action, the challenge of special obligations and the possibility of moral overdemandingness in order to lay the ground for an action-guiding ethos of cosmopolitan responsibility. This thought-provoking book will be of interest to any reflective reader concerned about justice and responsibilities in a globalised world. Jan Christoph Heilinger is a moral and political philosopher. He teaches at Ludwig Maximilians University Munich, Germany and at École normale supérieure Port-au-Prince, Haiti.

The Problem of Group Responsibility to Society John Herman Randall (Jr.), 1922

Relating to Responsibility Peter Cane, John Gardner, 2001-10-19 Eight essays by leading legal theorists based on papers presented at two workshops: one in Canberra in November 1999 and the other in New York in March 2000. Outline reactions to Tony Honore's emeritus civil law Oxford U post-retirement writings on issues related to responsibility including determinism and luck causation, responsibility for outcome and the morality of strict liability. A ninth essay by Honore responds to them. The contributors are lawyers and philosophers based in Australia, the US, Canada and the UK. Distributed by ISBS.
