Equalizing People David G. Green, 1990-01-01 Social Citizenship Rights J. Espada, 1996-08-21 This book criticises two rival views of social citizenship rights as they are presented by two authors who are taken as representatives of broader currents of thought Friedrich A Hayek and neo liberalism and Raymond Plant and socialism It is claimed that the alternative view presented here should still be regarded as liberal it is part of an active view of liberalism or a self restrained constructivism which should be distinguished both from neo liberal evolutionism and socialist egalitarianism The British National Bibliography Arthur James Wells, 1991 Análise social ,1995 Justice for Older People ,2012-01-01 The authors of these papers vary in age nationality and professional background They share a belief that all too often older people are not treated justly or fairly and also a belief that this is particularly true with regard to a proper respect for their dignity as people and a proper allocation of medical and social resources. Their papers in various ways give evidence as to what is happening and arguments based on philosophical ethics as to why it is wrong The authors also have a range of proposals backed by argument and evidence and drawing on factual material as well as philosophical argument as to what could be done to improve the situation This is a book for anyone whether themselves elderly looking after an older person professionally involved in working with older people or simply realising that one day they will be old who wants to learn about what is wrong with the present situation and how it might be made better **Unequivocal Justice** Christopher Freiman, 2017-06-26 This book challenges the prevailing view within political philosophy that broadly free market regimes are inconsistent with the basic principles of liberal egalitarian justice Liberal egalitarians regularly assume an ideal public interest model of political behavior and a nonideal private interest model of behavior in the market and civil society Freiman argues that this asymmetrical application of behavioral assumptions biases the analysis and undercuts ideal theoretical treatments of every major liberal egalitarian principle including political liberty economic sufficiency fair opportunity and social equality Australian National Bibliography: 1992 National Library of Australia, 1988 **Politics**, Social Theory, Utopia and the World-System C. el-Ojeili,2012-01-25 It is common to hear that we live in unique turbulent and crisis ridden times and this turbulence transformation and crisis are said to be deeply significant perhaps threatening for the human sciences Responding to such claims this book provides an accessible engagement with pressing contemporary topics such as violence social movements equality identity and democracy Foregrounding the imagination of possibilities utopia the mapping of the present theory and the transformation of the world system historical and global questions the book surveys central issues and paradigms in contemproary political sociology urging a recommitment to certain concepts and traditions for guidance in thinking and acting in the world **Bookbuyers' Reference Book**, 1993 **Australian Books in Print** 1997 Bowker, 1997-03 excellent coverage essential to worldwide bibliographic coverage AMERICAN REFERENCE BOOKS ANNUAL This comprehensive reference provides current finding ordering information on more than 60 000 in print books
