## **Equine Injury And Therapy:**

**Equine Injury, Therapy and Rehabilitation** Mary Bromiley, 2013-03-27 Mary Bromiley's book remains essential reading for both professionals and the general riding community. This new edition builds on the huge success of the previous editions first published in 1987. Fully updated to reflect recent technological advances in diagnostic ability as well as the proven physiological effects of light magnetic fields and electrical currents on body tissues. This information allows readers to both understand and make an informed choice of appropriate therapy following a diagnosed injury. The original edition was the first book on the subject and it has continued to be a bestseller. Covers a subject that is of worldwide interest. The author is recognised as a pioneer at the forefront of this type of treatment. **Equine Injury and Therapy** Mary W.

Bandaging Cupping Points for those treating horses The use of anti concussion pads **Physical Therapy for Horses** Helle Katrine Kleven, 2020-05-15 In recent decades knowledge in the field of equine physical therapy has accrued as different types of bodywork have steadily gained acceptance in the horse world. An understanding of anatomy and biomechanics and a grasp of the variable options available to both keep the active equine healthy and rehabilitate following an injury or layoff have become integral aspects of general horse health management. Equine physical therapy expert Helle Katrine Kleven understands the need for a reference that supports the horse owner as she strives to keep her horse sound in body and mind and at the top of his game. In this highly illustrated book she begins with a comprehensible introduction to the musculoskeletal and nervous systems as well as an instructive conversation covering biomechanics basics then explores the major areas of therapy in detail. Readers will find practical how to guidance in the most popular therapeutic modalities as well as cutting edge alternatives that are currently gaining ground: fascia work, stretching, massage, stability and strengthening exercises, laser therapy, kinesiotaping and much more. With this incredible course in preventive and rehabilitative techniques, horse owners and professionals will be thoroughly prepared to ensure their horses comfort and well being. System-based, the chapters introduce each individual system with precise information on the relevant basic anatomy and physiology, standard clinical examination techniques, and useful differential diagnostic aids. This is followed by diseases and disorders that are pertinent to that system, grouped together either anatomically or based on presenting clinical signs. Each condition is described using consistent headings: definition, overview, etiology, and pathophysiology, clinical presentation, diagnosis, differential diagnoses, management, treatment, and prognosis. Additional chapters deal with the foal and wounds. New to the second edition: All chapters are updated throughout. Additional chapters on the axial musculoskeletal system, neck, back, and pelvis, and muscle diseases and problems. A whole new section on soft tissue injuries of the foot. More information on diagnostic tests including overground endoscopy, chest and liver ultrasonography, head CT, and foot MRI. Material on equine dentistry, neurology, endocrine system, the foal, and the liver has been considerably expanded. All

illustrations and photographs have been reviewed and many replaced with higher quality images The focus throughout remains on providing clinically relevant information required for practical case management plus sufficient background on causes and disease processes to enable readers to understand the conditions and the rationale for diagnostic and treatment options An international group of respected clinicians have come together under the editorship of Dr Graham Munroe to create a textbook that will be of lasting value as a teaching and training resource for equine clinical teachers and their students in veterinary medicine and related equine courses as well as a ready reference for non specialist mixed or equine clinical practitioners
