Equivocal Predication George Herberts Way To God:

Equivocal Predication Heather A.R. Ross (Asals), 1981-12-15 Equivocation replaced Thomistic analogy as a means of predicting God in the minds of many seventeenth century divines In this study Professor Asals analyses George Herbert's use of language as a method of devotion in his major cycle poem The Temple Tracing the logical notion of equivocation here the extensive use of puns and pun like verbal devices as prediction through other influences on his poetry she argues that the very basis of Herbert's work lies in its responsibility in predicting God as One and Love Asals explains that for Herbert the act of writing a poem the actual handwriting was a sacramental and ceremonial act of worship recreating Christ's death on the cross ink becomes blood The sign on the printed page points sacramentally to the blood it signifies Thus the domain of Herbert's poetry reaches from earth to heaven and from heaven to earth Continuing with an examination of Herbert's language including aspects of phonology morphology and syntax Asals reveals its two fold significance in expression and meaning Through a detailed reading of the entire corpus she investigates the profound influence of Augustinianism and Wisdom literature on the way poetry works and explores the meaning of gesture and its importance to Herbert's Anglicanism his belief in the importance of ceremony In the final chapter on the topos of Magdalene its relationship to Herbert's mother and his mother's importance to his writing Asals argues that Anglicanism as a way to God and God as a way to himself is at the very core of Herbert's poetics This book establishes a new critical milieu in which Herbert may be interpreted and sheds new light on the poetry of other writers of the period John Donne and the Metaphysical Poets Harold Bloom, 2010

Presents a collection of critical essays about the works of John Donne and other metaphysical poets **Conflicts of Devotion** Daniel R. Gibbons, 2017-03-30 Who will mourn with me Who will break bread with me Who is my neighbor In the wake of the religious reformations of the sixteenth century such questions called for a new approach to the communal religious rituals and verses that shaped and commemorated many of the brightest and darkest moments of English life In England new forms of religious writing emerged out of a deeply fractured spiritual community Conflicts of Devotion reshapes our understanding of the role that poetry played in the reformation of English community and shows us that understanding both the poetics of liturgy and the liturgical character of poetry is essential to comprehending the deep shifts in English spiritual attitudes and practices that occurred during the sixteenth and seventeenth centuries The liturgical communitarian perspective of Conflicts of Devotion sheds new light on neglected texts and deepens our understanding of how major writers such as Edmund Spenser Robert Southwell and John Donne struggled to write their way out of the spiritual and social crises of the age of the Reformation It also sheds new light on the roles that poetry may play in negotiating and even overcoming religious conflict Attention to liturgical poetics allows us to see the broad spectrum of ways in which English poets forged new forms of spiritual community out of the very language of theological division This book will be of great interest to teachers and students of early modern poetry and of the various fields related to Reformation studies history politics and

theology **Poetic Revelations** Mark S. Burrows, Jean Ward, Małgorzata Grzegorzewska, 2016-08-12 This book explores the much debated relation of language and bodily experience i e the flesh considering in particular how poetry functions as revelatory discourse and thus relates to the formal horizon of theological inquiry The central thematic focus is around a phenomenology of the flesh as that which connects us with the world being the site of perception and feeling joy and suffering and of life itself in all its vulnerability The voices represented in this collection reflect interdisciplinary methods of interpretation and broadly ecumenical sensibilities focusing attention on such matters as the revelatory nature of language in general and poetic language in particular the function of poetry in society the question of Incarnation and its relation to language and the poetic arts the kenosis of the Word and human embodiment in relation to the word enfleshed in poetry

New Perspectives on the Life and Art of Richard Crashaw John Richard Roberts, 1990 A collection of ten original critical and historical essays on the life and art of Crashaw 1612 13 1649 one of the most neglected misunderstood and unappreciated of the major metaphysical poets The introduction surveys the history of Crashavian criticism and signals new directions for future scholarship Annotation copyrighted by Book News Inc Portland OR **The Pulse of Praise** Julia Carolyn Guernsey, 1999 Guernsey draws on D W Winnicott s object relations model which focuses on self development in a relational context to illuminate various senses of self and Other that Herbert s poems express discursively and formally The book will appeal not only to Herbert scholars and other Renaissance critics but also to audiences interested in psychoanalysis and how it relates to literature religion culture and poetics BOOK JACKET Disciplinary Measures from the Metrical Psalms to Milton Kenneth J.E. Graham, 2016-02-26 Disciplinary Measures from the Metrical Psalms to Milton studies the relationship between English poetry and church discipline in four carefully chosen bodies of poetry written between the Reformation and the death of John Milton Its primary goal is to fill a gap in the field of Protestant poetics which has never produced a study focused on the way in which poetry participates in and reflects on the post Reformation English Church s attempts to govern conduct Its secondary goal is to revise the understandings of discipline which social theorists and historians have offered and which literary critics have largely accepted It argues that knowledge of the early modern culture of discipline illuminates some important poetic traditions and some major English poets and it shows that this poetry in turn throws light on verbal and affective aspects of the disciplinary process that prove difficult to access through other sources challenging assumptions about the means of social control the structures of authority and the practical implications of doctrinal change More specifically Disciplinary Measures argues that while poetry can help us to understand the oppressive potential of church discipline it can also help us to recover a more positive sense of discipline as a spiritual cure **King Lear and the Naked Truth** Judy Kronenfeld, 1998 Opening the play up to the implications of these contexts and this interpretive theory she reveals much about Lear English Reformation religious culture and the state of contemporary criticism **Voice Terminal Echo (Routledge Revivals)** Jonathan Goldberg, 2014-10-10 First published in 1986 this title

examines a set of English Renaissance texts by Shakespeare Spenser Herbert Marvell and Milton within the theoretic framework of postmodern thought Following an opening chapter that argues for the value of this conjunction as a way of understanding literary history subsequent chapters draw upon Jacques Derrida s deconstruction of photocentrism and Jacques Lacan s analysis of the agency of the letter to offer fully theorized readings Throughout there is a sustained concern with the transformations of such Ovidian figures as Narcissus and Echo Perseus and Medusa Orpheus and Eurydice and with the echo effects of Virgilian pastoral as paradigms for the interplay of voice and writing

Eucharist and the Poetic Imagination in Early Modern England Sophie Read,2013-01-31 The Reformation changed forever how the sacrament of the Eucharist was understood This study of six canonical early modern lyric poets traces the literary afterlife of what was one of the greatest doctrinal shifts in English history Sophie Read argues that the move from a literal to a figurative understanding of the phrase this is my body exerted a powerful imaginative pull on successive generations To illustrate this she examines in detail the work of Southwell Donne Herbert Crashaw Vaughan and Milton who between them represent a broad range of doctrinal and confessional positions from the Jesuit Southwell to Milton s heterodox Puritanism Individually each chapter examines how Eucharistic ideas are expressed through a particular rhetorical trope together they illuminate the continued importance of the Eucharist s transformation well into the seventeenth century not simply as a matter of doctrine but as a rhetorical and poetic mode

Doctrine and Devotion in Seventeenth-century Poetry R. V. Young,2000 English devotional poets of 17c set in a wider European and Catholic context

The Living Church ,1982

Thinking about God in an Age of Technology George Pattison,2005-09-22 Technology shapes every aspect of contemporary life but George Pattison argues that thinking about God offers a creative counter movement to the dominant technological culture His argument is applied to questions of ethics university study the arts and urban living

Traditions and Innovations David G. Allen,Robert A. White,1990 This collection considers a wide range of texts authors and concerns from the Man of Law s Tale to Tis Pity She s a Whore from the mysterious Thomas Malory to the widely visible Ben Jonson from the image of St Paul s thorn in Troilus and Criseyde to the Renaissance iconography of Ganymede

Conforming to the Word Daniel W. Doerksen,1997 This book remedies the lack of scholarly attention given to the conforming Church of England under James I 1603 25 The Jacobean church was not a lax hiatus between the Elizabethan and the Laudian but a vibrant positive force for writers like George Herbert and John Donne Shown by recent historians to be clearly Protestant in its leadership it maintained a middle way that included at its center both moderate and conforming puritans as well as Calvinist bishops An examination of their writings reveals differences between Arminian custodians of order like Hooker and Andrewes and Calvinist preaching pastors like Donne and Herbert This book also explores significant resonances between Herbert and Richard Sibbes a fully conforming puritan whose writings Herbert likely knew

Poetry of Contemplation Arthur L. Clements,1990-06-01 This is the first systematic and thorough study of mysticism or contemplation in these three

seventeenth century poets and in three modern writers It not only clarifies the very confused issue of mysticism in seventeenth century poetry but also connects seventeenth century poets with modern literature and science through the contemplative tradition from the Bible and Plato and Church fathers and important mystics of the Middle Ages through Renaissance and modern contemplatives The transformative and redemptive power of contemplative poetry or holy writing regardless of genre or discipline is prominent throughout the book and the relevance indeed the vital necessity of such poetry and of the living contemplative tradition to our apocalyptic modern world is discussed in the last chapter In this chapter attention is given to modern science especially to the new physics and to philosophical and mystical writings of eminent scientists The Notion of Turning in Metaphysical Poetry Carmen Dörge,2018 In Metaphysical Poetry there is an emphasis on religious experience which often touches on diverse kinds of turning Among them are religious conversion a turn to God spatial movement turning in space divine transformation turning from one kind into another musical tuning turning as a requisite for harmony and circular turning Moreover there is a strong link between turning and its realisation through the language of the poems Focusing on John Donne and George Herbert this study explores various aspects of turning as well as their interrelation Dissertation Series Religion and Literature Religion und Literatur Vol 7 Subject Poetry

Kenney,2021-03-01 In the seventeenth century many leading poets wrote poems about Christ s infancy though charm and sweetness were not the leading note Because these poets were university educated classicists many of them also Catholic or Anglican priests they wrote in an elevated style with elevated language and their concerns were deeply

theological as well as poetic In an age of religious controversy their poems had controversial elements and because these poems were mostly intended for private use and limited circulation they were not generally singable hymns of public celebration of Christ's birth However far from dry academic pieces these poems offer a wide variety of approaches to both their subject the infant Jesus and the means of presenting it All Wonders in One Sight examines the ways in which early modern English poets understood and accomplished the poetic task of representing Christ as both Child and God Focusing on the intellectual and theological content of the poems as well as the devotional aims of the poets Theresa M Kenney aims to reveal their understandings of divine immanence and the sacrament of the Eucharist The Poetry of Immanence Robert Whalen, 2002-01-01 In this extensive study of two of the most celebrated seventeenth century religious poets Robert Whalen examines the role of sacrament in the formation of early modern religious subjectivity For John Donne and George Herbert sacramental topoi became powerful conceptual tools with which to explore both the intersection of spiritual and material aspects of human experience and their competing claims to Christianity Whalen's argument builds upon his central idea of sacramental Puritanism or the effort to cultivate a Calvinist sense of interiority through a fully ceremonial apparatus and thereby to reconcile the potentially disparate imperatives of sacrament and devotion Unique in its combination of current historiography and informed analysis its attention to the sacramental features of Donne's secular lyrics and its advancement of sacramental thought as an important element of Renaissance English culture The Poetry of Immanence illuminates a crucial dimension of the work of two major Stuart writers In his comprehensive critical readings Whalen offers a substantial contribution to the increasing study of religious themes and devotion in the literature of the early modern period
