Erasmus Magister:

Christian Humanism and the Puritan Social Order Margo Todd, 2002-11-07 The author contends that the traditional views of puritan social thought have done a great injustice to the intellectual history of the 16th century Margo Todd reveals the puritans to be the heirs to a complex intellectual legacy **Speculations on Speculation** James E. Gunn, Matthew Candelaria, 2005 Science fiction is a field of literature that has great interest and great controversy among its writers and critics This book examines the roots history development current status and future directions of the field through articles contributed by well respected science fiction writers teachers and critics The articles speculate on what is science fiction is science fiction serious literature which writers are considered good science fiction writers and where the genre of science fiction is headed with 21st century writers Contributors include Brian W Aldiss Kathryn Cramer Samuel R Delany David G Hartwell Ursula K Le Guin Barry N Malzberg Darko Suvin Michael Swanwick and many other outstanding authors Examining all genres and subgenres of science fiction writing this book provides differing viewpoints on science fiction making it a great basis for dynamic classroom discussions *Waverley Novels: Kenilworth* Walter Scott, 1886 **Kenilworth** Walter Scott, 1893 **Waverley novels. Large type Border ed. (Introductory essays and notes by A. Lang).** Walter Scott, 1898

The Waverley Novels Walter Scott, 1893 *Waverley Novels Twenty-four Volumes* Walter Scott, 1898 The Waverley Novels: Kenilworth Sir Walter Scott, 1893 *Kenilworth* Scott, 1893 Renaissance Education Between Religion and Politics Paul F. Grendler, 2024-10-28 Few eras took education so seriously or were so innovative in their approaches to schools and universities as the Renaissance At the same time religious and political concerns strongly influenced educational developments This third volume of articles by Paul F Grendler explores the close connections between education religion and politics at several levels and in different contexts It combines detailed research into various kinds of schools with broad overviews of European and especially Italian education The lead article compares Italian and German universities and assesses the impact of the Protestant Reformation on the latter Even Erasmus the great critic of university theologians felt the need to acquire a doctorate in theology and did so In Italy the new schools of the Jesuits and the Piarists taught boys and young men gratis but not without opposition Two articles deal with students the consumers of education While teachers and students were most directly involved in schools and universities ecclesiastical and political authorities including the leaders of the Republic of Venice the subject of the final study kept a watchful eye on them **Medieval Essays** Étienne Gilson, 2011-09-15 This book is a collection of nine articles by the twentieth century's leading medievalist Etienne Gilson A major participant in the revival of Thomistic philosophy Gilson was a member of the French Academy and after a university career culminating at the Sorbonne and the College de France he turned down an invitation from Harvard University to become the guiding spirit of the Pontifical Institute of Medieval Studies at the University of Toronto for several decades Several of the articles stand on their own as making a significant contribution to topics like St Anselm's ontological argument

for the existence of God Likewise The Middle Ages and Naturalism contrasts Renaissance Humanists and Reformers with the medievals on the defining issue of their attitude toward nature in order to understand who actually stands closer to the ancient Greeks All of the articles give an insight into the great synthetic visions articulated by the better known works of Gilson like The Spirit of Medieval Philosophy We see Gilson s meticulous spadework for the broader theme of Christian philosophy in his examination of the Latin Averroist Boethius of Dacia s book on the eternity of the world Gilson finds that Boethius never expresses the view attributed to Latin Averroism that there are contradictory truths in religion and philosophy although he does think that Boethius is unsuccessful in his account of the relations between philosophy and theology The opening piece revisits a battle now won and won in great measure by Gilson s efforts namely the fight to acknowledge the very existence of medieval philosophy and win its place in the academic world But the article also makes the effort which becomes a connecting thread throughout the nine articles to pinpoint the uniqueness of what Gilson calls Christian philosophy The closing article studies the profound influence of the great Muslim thinker Avicenna on Latin Europe drawing a parallel between Avicenna s work and that of the great Christian medievals like Thomas Aquinas and Duns Scotus When Gilson died in 1978 a great deal of his work on the history of philosophy and specifically God the primacy of existence or esse over essence and the impact of Christianity on philosophy had been translated A significant amount of material however has not yet appeared in English The publication of Medieval Studies represents a vital step in bringing these important works into the English speaking world
